OVERALL  
MORNINGSTAR RATING™<sup>2</sup>

★★★★

1.

The Fund is subject to risks, such as investment, equities and equity-related securities, liquidity, counterparty, currency risks, and the risks of investing in small and mid-capitalisation companies.
2.

The Fund's investment may be concentrated in the markets in ASEAN and the value of the Fund may be more volatile. Investing in emerging markets may involve increased risks, including liquidity, currency/currency control, political and economic uncertainties, legal and taxation, settlement, custody and volatility risks.
3.

The Manager integrates environmental, social and governance (ESG) information into the investment process, which may affect the Fund's investment performance and, as such, may perform differently compared to similar collective investment schemes.
4.

The Fund may have exposure to financial derivative instruments for investment or efficient portfolio management purposes which may involve counterparty/credit, liquidity, valuation, volatility and over-the-counter transaction risks. Exposure to financial derivative investments may lead to a high risk of significant loss by the Fund.
5.

Dividends may be paid out of unrealised capital gains at the discretion of the Managers which would effectively represent paying dividend out of capital. This amounts to a return or withdrawal of part of an investor's original investment or any capital gains attributable to that original investment. Payment of dividends may result in an immediate reduction of the net asset value of the Fund per unit.
6.

Investors may suffer substantial loss of their investments in the Fund.

WHY BARINGS ASEAN FRONTIERS FUND (THE “FUND”)?

1. OUTSTANDING PERFORMANCE

The Fund has demonstrated resilience over various market cycles and delivered a strong track record over the longer term, accompanied by a 4-star Morningstar ranking.<sup>2</sup> As of May 2025, the Fund has outperformed both the benchmark and the median of Morningstar's ASEAN equity peer group over 5 years.<sup>3</sup>

2. EACH ASEAN ECONOMY OFFERS DIVERSIFIED OPPORTUNITIES

Each ASEAN economy offers unique and interesting investment themes, which presents a ripe market for active managers and investors seeking growth to capture structural opportunities. Some examples are provided on the right.

Indonesia	<div><div>Rich natural resources</div><div>Domestic consumption</div></div>
Malaysia	<div><div>Educated work force</div><div>Technology supply chain</div></div>
Philippines	<div><div>Demographic dividend</div></div>
Singapore	<div><div>Financial center</div></div>
Thailand	<div><div>Tourism</div><div>EV and PC supply chains</div></div>
Vietnam	<div><div>Low-cost winner</div><div>Smartphone supply chains</div></div>

3. ASEAN’S VALUATION IS ATTRACTIVE RELATIVE TO BROADER EMERGING MARKETS

Despite ASEAN's resilient economic performance and earnings growth during the recent interest-rate hike cycle, valuations are trading only around long-term average levels. Compared to a market with similar expectations, India, ASEAN is attractively valued. As the interest cutting cycle continues, ASEAN central banks may have more flexibility than those in other regions, which is likely a support for the equity markets.

## FUND OBJECTIVES<sup>6</sup>

To seek long-term capital growth primarily through investment in a diversified portfolio of ASEAN companies which could include Singapore, Thailand, the Philippines, Malaysia, Indonesia and Vietnam.
