Investment Objective and Policy

Barings Corporate Investors (the "Trust") is a closed-end management investment company, first offered to the public in 1971, whose shares are traded on the New York Stock Exchange under the trading symbol "MCI". The Trust's share price can be found in the financial section of most newspapers under either the New York Stock Exchange listings or Closed-End Fund Listings.

The Trust's investment objective is to maintain a portfolio of securities providing a current yield and, when available, an opportunity for capital gains. The Trust's principal investments are privately placed, below-investment grade, long-term debt obligations including bank loans and mezzanine debt instruments. Such private placement securities may, in some cases, be accompanied by equity features such as common stock, preferred stock, warrants, conversion rights, or other equity features. The Trust typically purchases these investments, which are not publicly tradable, directly from their issuers in private placement transactions. These investments are typically made to small or middle market companies. In addition, the Trust may invest, subject to certain limitations, in marketable debt securities (including high yield and/or investment grade securities) and marketable common stocks. Below-investment grade or high yield securities have predominantly speculative characteristics with respect to the capacity of the issuer to pay interest and repay principal.

The Trust distributes substantially all of its net income to shareholders each year. Accordingly, the Trust pays dividends to shareholders four times per year. The Trust pays dividends to its shareholders in cash, unless the shareholder elects to participate in the Dividend Reinvestment and Share Purchase Plan.

Form N-PORT

The Trust files its complete schedule of portfolio holdings with the U.S. Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on part F of Form N-PORT. This information is available (i) on the SEC's website at <http://www.sec.gov>; and (ii) at the SEC's Public Reference Room in Washington, DC (which information on their operation may be obtained by calling

1-800-SEC-0330). A complete schedule of portfolio holdings as of each quarter-end is available upon request by calling, toll-free, 866-399-1516.

Proxy Voting Policies & Procedures; Proxy Voting Record

The Trustees of the Trust have delegated proxy voting responsibilities relating to the voting of securities held by the Trust to Barings LLC ("Barings"). A description of Barings' proxy voting policies and procedures is available (1) without charge, upon request, by calling, toll-free 866-399-1516; (2) on the Trust's website at <https://www.barings.com/en-us/guest/funds/closed-end-funds/barings-corporate-investors>; and (3) on the SEC's website at <http://www.sec.gov>. Information regarding how the Trust voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available (1) on the Trust's website at <https://www.barings.com/en-us/guest/funds/closed-end-funds/barings-corporate-investors>; and (2) on the SEC's website at <http://www.sec.gov>.

Legal Matters

The Trust has entered into contractual arrangements with an investment adviser, transfer agent and custodian (collectively "service providers") who each provide services to the Trust. Shareholders are not parties to, or intended beneficiaries of, these contractual arrangements, and these contractual arrangements are not intended to create any shareholder right to enforce them against the service providers or to seek any remedy under them against the service providers, either directly or on behalf of the Trust.

Under the Trust's Bylaws, any claims asserted against or on behalf of the Trust, including claims against Trustees and officers must be brought in courts located within the Commonwealth of Massachusetts.

The Trust's registration statement and this shareholder report are not contracts between the Trust and its shareholders and do not give rise to any contractual rights or obligations or any shareholder rights other than any rights conferred explicitly by federal or state securities laws that may not be waived.

July 31, 2022

TO OUR SHAREHOLDERS

We are pleased to present the June 30, 2022 Quarterly Report of Barings Corporate Investors (the "Trust").

PORTFOLIO PERFORMANCE

The Board of Trustees declared a quarterly dividend of \$0.24 per share, payable on September 9, 2022 to shareholders of record on August 29, 2022. The Trust paid a \$0.24 per share dividend for the preceding quarter. The Trust earned \$0.23 per share of net investment income net of taxes for the second quarter of 2022, compared to \$0.21 per share in the previous quarter.

During the second quarter, the net assets of the Trust decreased to \$333,575,984 or \$16.46 per share compared to \$341,256,927 or \$16.84 per share on March 31, 2022. This translates to a -0.85% total return for the quarter, based on the change in the Trust's net assets assuming the reinvestment of all dividends. Longer term, the Trust returned 8.40%, 9.44%, 9.05%, 10.86%, and 11.58% for the 1, 3, 5, 10, and 25-year periods, respectively, based on the change in the Trust's net assets assuming the reinvestment of all dividends.

The Trust's market price decreased 12.0% during the quarter, from \$15.23 per share as of March 31, 2022 to \$13.41 per share as of June 30, 2022. The Trust's market price of \$13.41 per share equates to an 18.5% discount to the June 30, 2022 net asset value per share of \$16.46. The Trust's average quarter-end discount/premium for the 3, 5 and 10-year periods was -7.4%, -4.1% and 3.6%, respectively. U.S. fixed income markets, as approximated by the Bloomberg Barclays U.S. Corporate High Yield Index and the Credit Suisse Leveraged Loan Index, decreased 9.8% and 4.4% for the quarter, respectively.

PORTFOLIO ACTIVITY

The Trust closed nine new private placement investments and 16 add-on investments to existing portfolio companies during the second quarter. The total amount invested by the Trust in these transactions was \$17,705,430. Of note, the new platform investments included two fixed rate Sr. Subordinated Notes and seven floating rate term loans, six of which included equity co-investments, and the add-on investments consisted of all floating rate term loans, one of which included an equity co-investment.

With demand for products and services continuing to increase, one key question is whether supply chains can keep up with the renewed demand and whether we will see material increases in prices as a result of supply-chain bottlenecks, rising raw material and energy costs and labor shortages. Across the world, and particularly in regions with large manufacturing sectors which depend on international trade, these risks may be key. However, it is important to note that such issues do not affect every geography and sector the same. When constructing portfolios, we focus on investing in high-quality businesses that are leaders in their space and offer defensive characteristics that we believe will allow them to perform through the cycle. Therefore, while segments of the broader economy may be affected by potential supply chain issues, increasing raw material and energy costs and labor shortages, we remain confident in the current diverse portfolio to perform through the potential cycle.

We continue to be selective in our investment choices and maintain our underwriting discipline throughout multiple cycles. First, the Trust continues to invest in first lien senior secured loans in high-quality companies in defensive sectors and remains well diversified by industry. This was a strategy put in place more than five years ago and has provided strong risk adjusted returns for the Trust given their senior position in the capital stack. As of June 30, 2022, 64.0% of the Trust's investment portfolio is in first lien senior secured loans compared to 2.6% as of December 31, 2017. These investments have proven resilient to date and their management teams now have the benefit of having a wealth of knowledge to draw upon from working in such unique and challenging circumstances. We continue to see sustained performance from our junior debt and equity positions. Second, in addition to evaluating the quality of a credit, another key factor in deciding whether to pursue an investment is the capital structure of the portfolio company along with the quality of the ownership and management groups. As fundamental long-term investors, we believe it is imperative to remain disciplined through the cycle and agree to a capital structure which will remain sound through the cycle (and various interest rate environments). Third, we hold meaningful investment liquidity based on the Trust's combined available cash balance and short-term investments of \$13,241,804 or 3.5% of total assets, and low leverage profile at 0.13x as of June 30, 2022. We have strengthened our liquidity position with a \$30.0 million committed revolving credit

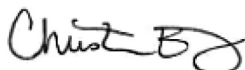

(Continued)

facility with MassMutual (See Note 4). This facility coupled with the current cash balance provides ample liquidity to support our current portfolio companies as well as invest in new portfolio companies. As always, the Trust continues to benefit from strong relationships with our financial sponsor partners which provides clear benefits including potential access for portfolio companies to additional capital if needed, strategic thinking alongside their management teams and high-quality and timely information which is only available in a private market setting. This allows us to work constructively together and maximize the portfolio companies' long-term health and value.

In closing, we believe it is always appropriate to provide views on the Trust's long-term dividend policy which is to say, 'we believe that long-term dividends should be a reflection of long-term core earnings power, even when core earnings power is lower as a result of a higher quality asset mix'. The Trust's recently announced dividend of \$0.24 per share sits slightly above our most recently reported net investment income of \$0.23 per share, net of taxes. That said, as we continue to both (1) deploy the Trust's excess liquidity and (2) seek opportunities to shift the Trust's non-yielding equity investments to senior secured loans, we expect long-term earnings power to meet the dividend distribution.

Thank you for your continued interest in and support of Barings Corporate Investors.

Sincerely,

Christina Emery

President

Portfolio Composition as of 06/30/22*

Cautionary Notice: Certain statements contained in this report may be "forward looking" statements. Investors are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date on which they are made and which reflect management's current estimates, projections, expectations or beliefs, and which are subject to risks and uncertainties that may cause actual results to differ materially. These statements are subject to change at any time based upon economic, market or other conditions and may not be relied upon as investment advice or an indication of the Trust's trading intent. References to specific securities are not recommendations of such securities, and may not be representative of the Trust's current or future investments. We undertake no obligation to publicly update forward looking statements, whether as a result of new information, future events, or otherwise.

Average Annual Returns June 30, 2022

	1 Year	5 Year	10 Year
Barings Corporate Investors	-5.92%	5.20%	6.67%
Bloomberg Barclays U.S. Corporate High Yield Index	-12.81%	2.10%	4.47%

Data for Barings Corporate Investors (the "Trust") represents returns based on the change in the Trust's market price assuming the reinvestment of all dividends and distributions. Past performance is no guarantee of future results.

The graph and table do not reflect the deduction of taxes that a shareholder would pay on distributions from the Trust or the sale of shares.

In July 2017, the head of the U.K. Financial Conduct Authority (the "FCA"), announced that the FCA will no longer persuade or compel banks to submit rates for the calculation of LIBOR after 2021. In March 2021, the FCA confirmed that all LIBOR settings will either cease to be provided by any administrator or no longer be representative: (a) immediately after December 31, 2021, in the case of sterling, euro, Swiss franc, and Japanese yen, and the one week and two month U.S. dollar settings; and (b) immediately after June 30, 2023, in the case of the remaining U.S. dollar settings. In addition, as a result of supervisory guidance from U.S. regulators, some U.S. regulated entities will cease to enter into new LIBOR contracts after January 1, 2022. At this time, no consensus exists as to what rate or rates will become accepted alternatives to LIBOR, although the Alternative Reference Rates Committee, a steering committee convened by the Board of Governors of the Federal Reserve System and the Federal Reserve Bank of New York and comprised of large U.S. financial institutions, has recommended the use of the Secured Overnight Financing Rate, SOFR. There are many uncertainties regarding a transition from LIBOR to SOFR or any other alternative benchmark rate that may be established, including, but not limited to, the timing of any such transition, the need to amend all contracts with LIBOR as the referenced rate and, given the inherent differences between LIBOR and SOFR or any other alternative benchmark rate, how any transition may impact the cost and performance of impacted securities, variable rate debt and derivative financial instruments. In addition, SOFR or another alternative benchmark rate may fail to gain market acceptance, which could adversely affect the return on, value of and market for securities, variable rate debt and derivative financial instruments linked to such rates. The effects of a transition from LIBOR to SOFR or any other alternative benchmark rate on our cost of capital and net investment income cannot yet be determined definitively. All of our loan agreements with our portfolio companies include fallback language in the event that LIBOR becomes unavailable. This language generally either includes a clearly defined alternative reference rate after LIBOR's discontinuation or provides that the administrative agent may identify a replacement reference rate, typically with the consent of (or prior consultation with) the borrower. In certain cases, the administrative agent will be required to obtain the consent of either a majority of the lenders under the facility, or the consent of each lender, prior to identifying a replacement reference rate. In addition, any further changes or reforms to the determination or supervision of LIBOR may result in a sudden or prolonged increase or decrease in reported LIBOR, which could have an adverse impact on the market value for or value of any LIBOR-linked securities, loans, and other financial obligations or extensions of credit held by or due to us and could have a material adverse effect on our business, financial condition and results of operations.

1. History

Barings Corporate Investors (the "Trust") commenced operations in 1971 as a Delaware corporation. Pursuant to an Agreement and Plan of Reorganization dated November 14, 1985, approved by shareholders, the Trust was reorganized as a Massachusetts business trust under the laws of the Commonwealth of Massachusetts, effective November 28, 1985.

The Trust is a diversified closed-end management investment company. Barings LLC ("Barings"), a wholly-owned indirect subsidiary of Massachusetts Mutual Life Insurance Company ("MassMutual"), acts as its investment adviser. The Trust's investment objective is to maintain a portfolio of securities providing a current yield and, when available, an opportunity for capital gains. The Trust's principal investments are privately placed, below-investment grade, long-term debt obligations including bank loans and mezzanine debt instruments. Such direct placement securities may, in some cases, be accompanied by equity features such as common stock, preferred stock, warrants, conversion rights, or other equity features. The Trust typically purchases these investments, which are not publicly tradable, directly from their issuers in private placement transactions. These investments are typically made to small or middle market companies. In addition, the Trust may invest, subject to certain limitations, in marketable debt securities (including high yield and/or investment grade securities) and marketable common stocks. Below-investment grade or high yield securities have predominantly speculative characteristics with respect to the capacity of the issuer to pay interest and repay capital.

On January 27, 1998, the Board of Trustees authorized the formation of a wholly-owned subsidiary of the Trust ("CI Subsidiary Trust") for the purpose of holding certain investments. The results of CI Subsidiary Trust are consolidated in the accompanying financial statements. Footnote 2.D below discusses the Federal tax consequences of the CI Subsidiary Trust.

2. Significant Accounting Policies

The following is a summary of significant accounting policies followed consistently by the Trust in the preparation of its consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

The Trustees have determined that the Trust is an investment company in accordance with Accounting Standards Codification ("ASC") 946, *Financial Services – Investment Companies*, for the purpose of financial reporting.

A. Fair Value Measurements:

Under U.S. GAAP, fair value represents the price that should be received to sell an asset (exit price) in an orderly transaction between willing market participants at the measurement date.

Determination of Fair Value

The determination of the fair value of the Trust's investments is the responsibility of the Trust's Board of Trustees (the "Trustees"). The Trustees have adopted procedures for the valuation of the Trust's securities and have delegated responsibility for applying those procedures to Barings. Barings has established a Pricing Committee which is responsible for setting the guidelines used in following the procedures adopted by the Trustees and ensuring that those guidelines are being followed. Barings considers all relevant factors that are reasonably available, through either public information or information directly available to Barings, when determining the fair value of a security. The Trustees meet at least once each quarter to approve the value of the Trust's portfolio securities as of the close of business on the last business day of the preceding quarter. This valuation requires the approval of a majority of the Trustees of the Trust, including a majority of the Trustees who are not interested persons of the Trust or of Barings. In approving valuations, the Trustees will consider reports by Barings analyzing each portfolio security in accordance with the procedures and guidelines referred to above, which include the relevant factors referred to below. Barings has agreed to provide such reports to the Trust at least quarterly. The consolidated financial statements include private placement restricted securities valued at \$339,026,808 (101.64% of net assets) as of June 30, 2022, the values of which have been estimated by the Trustees based on the process described above in the absence of readily ascertainable market values. Due to the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material.

Independent Valuation Process

The fair value of bank loans and equity investments that are unsyndicated or for which market quotations are not readily available, including middle-market bank loans, will be submitted to an independent provider to perform an independent valuation on those bank loans and equity investments as of the end of each quarter. Such bank loans and equity investments will be held at cost until such time as they are sent to the valuation provider for an initial valuation subject to override by the Adviser should it determine that there have been material changes in interest rates and/or the credit quality of the issuer. The independent valuation provider applies various methods (synthetic rating analysis, discounting cash flows, and re-underwriting analysis) to establish the rate of return a market participant would require (the "discount rate") as of the valuation date, given market conditions, prevailing lending standards and the perceived credit quality of the issuer. Future expected cash flows for each investment are discounted back to present value using these discount rates in the discounted cash flow analysis. A range of value will be provided by the valuation provider and the Adviser will determine the point within that range that it will use in making valuation recommendations to the

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(Unaudited)

Trustees, and will report to the Trustees on its rationale for each such determination. The Adviser will continue to use its internal valuation model as a comparison point to validate the price range provided by the valuation provider and, where applicable, in determining the point within that range that it will use in making valuation recommendations to the Trustees. If the Advisers' Pricing Committee disagrees with the price range provided, it may make a fair value recommendation to the Trustees that is outside of the range provided by the independent valuation provider, and will notify the Trustees of any such override and the reasons therefore. In certain instances, the Trust may determine that it is not cost-effective, and as a result is not in the shareholders' best interests, to request the independent valuation firm to perform the Procedures on certain investments. Such instances include, but are not limited to, situations where the fair value of the investment in the portfolio company is determined to be insignificant relative to the total investment portfolio. Finally, the Trustees determined in good faith that the Trust's investments were valued at fair value in accordance with the Trust's valuation policies and procedures and the 1940 Act based on, among other things, the input of Barings, the Trust's Audit Committee and the independent valuation firm.

Following is a description of valuation methodologies used for assets recorded at fair value:

Corporate Public Securities at Fair Value – Bank Loans, Corporate Bonds, Preferred Stocks and Common Stocks

The Trust uses external independent third-party pricing services to determine the fair values of its Corporate Public Securities. At June 30, 2022, 100% of the carrying value of these investments was from external pricing services. In the event that the primary pricing service does not provide a price, the Trust utilizes the pricing provided by a secondary pricing service.

Public debt securities generally trade in the over-the-counter market rather than on a securities exchange. The Trust's pricing services use multiple valuation techniques to determine fair value. In instances where significant market activity exists, the pricing services may utilize a market based approach through which quotes from market makers are used to determine fair value. In instances where significant market activity may not exist or is limited, the pricing services also utilize proprietary valuation models which may consider market characteristics such as benchmark yield curves, option adjusted spreads, credit spreads, estimated default rates, coupon rates, anticipated timing of principal underlying prepayments, collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair value.

The Trust's investments in bank loans are normally valued at the bid quotation obtained from dealers in loans by an independent pricing service in accordance with the Trust's valuation policies and procedures approved by the Trustees.

Public equity securities listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sales price of that day.

At least annually, Barings conducts reviews of the primary pricing vendors to validate that the inputs used in that vendors' pricing process are deemed to be market observable as defined in the standard. While Barings is not provided access to proprietary models of the vendors, the reviews have included on-site walk-throughs of the pricing process, methodologies and control procedures for each asset class and level for which prices are provided. The reviews also include an examination of the underlying inputs and assumptions for a sample of individual securities across asset classes, credit rating levels and various durations. In addition, the pricing vendors have an established challenge process in place for all security valuations, which facilitates identification and resolution of prices that fall outside expected ranges. Barings believes that the prices received from the pricing vendors are representative of prices that would be received to sell the assets at the measurement date (exit prices) and are classified appropriately in the hierarchy.

Corporate Restricted Securities at Fair Value – Bank Loans, Corporate Bonds

The fair value of certain notes is determined using an internal model that discounts the anticipated cash flows of those notes using a specific discount rate. Changes to that discount rate are driven by changes in general interest rates, probabilities of default and credit adjustments. The discount rate used within the models to discount the future anticipated cash flows is considered a significant unobservable input. Increases/ (decreases) in the discount rate would result in a (decrease)/ increase to the notes' fair value.

The fair value of certain distressed notes is based on an enterprise waterfall methodology which is discussed in the equity security valuation section below.

Corporate Restricted Securities at Fair Value – Common Stock, Preferred Stock and Partnerships & LLC's

The fair value of equity securities is determined using an enterprise waterfall methodology. Under this methodology, the enterprise value of the company is first estimated and that value is then allocated to the company's outstanding debt and equity securities based on the documented priority of each class of securities in the capital structure. Generally, the waterfall proceeds from senior debt, to senior and junior subordinated debt, to preferred stock, then finally common stock.

To estimate a company's enterprise value, the company's trailing twelve months earnings before interest, taxes, depreciation and amortization ("EBITDA") is multiplied by a valuation multiple.

Both the company's EBITDA and valuation multiple are considered significant unobservable inputs. Increases/ (decreases) to the company's EBITDA and/or valuation multiple would result in increases/ (decreases) to the equity value.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**(Unaudited)****Short-Term Securities**

Short-term securities with more than sixty days to maturity are valued at fair value, using external independent third-party services. Short-term securities, of sufficient credit quality, having a maturity of sixty days or less are valued at amortized cost, which approximates fair value.

New Accounting Pronouncement

In March 2020, the Financial Accounting Standards Board issued Accounting Standards Update 2020-04 ("ASU 2020-04")

"Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting." This guidance provides optional expedients and exceptions for applying generally accepted accounting principles to contract modifications and hedging relationships, subject to meeting certain criteria, that reference LIBOR or another reference rate expected to be discontinued. ASU 2020-04 is effective for all entities as of March 12, 2020 through December 31, 2022. The Trust expects that the adoption of this guidance will not have a material impact on the Trust's financial position, result of operations or cash flows.

Fair Value Hierarchy

The Trust categorizes its investments measured at fair value in three levels, based on the inputs and assumptions used to determine fair value. These levels are as follows:

Level 1 – quoted prices in active markets for identical securities

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 – significant unobservable inputs (including the Trust's own assumptions in determining the fair value of investments)

The following table summarizes the levels in the fair value hierarchy into which the Trust's financial instruments are categorized as of June 30, 2022.

The fair values of the Trust's investments disaggregated into the three levels of the fair value hierarchy based upon the lowest level of significant input used in the valuation as of June 30, 2022 are as follows:

Assets:	Total	Level 1	Level 2	Level 3
Restricted Securities				
Corporate Bonds	\$ 33,952,088	\$ -	\$ 12,955,972	\$ 20,996,116
Bank Loans	273,766,136	-	-	273,766,136
Common Stock - U.S.	3,989,543	-	-	3,989,543
Preferred Stock	3,601,693	-	-	3,601,693
Partnerships and LLCs	36,673,320	-	-	36,673,320
Public Securities				
Bank Loans	6,887,953	-	4,187,960	2,699,993
Corporate Bonds	1,392,688	-	1,392,688	-
Common Stock	94,513	14,186	-	80,327
Total	\$ 360,357,934	\$ 14,186	\$ 18,536,620	\$ 341,807,128

See information disaggregated by security type and industry classification in the Consolidated Schedule of Investments.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Quantitative Information about Level 3 Fair Value Measurements

The following table represents quantitative information about Level 3 fair value measurements as of June 30, 2022.

	Fair Value	Valuation Technique	Unobservable Inputs	Range	Weighted*
Bank Loans	\$ 222,905,656	Income Approach	Implied Spread	8.6% - 18.7%	10.5%
	\$ 2,572,349	Enterprise Value Waterfall Approach	Valuation Multiple	5.0x to 11.6x	7.1x
Corporate Bonds	\$ 19,209,619	Income Approach	Implied Spread	13.0% - 23.7%	16.5%
	\$ 1,786,497	Enterprise Value Waterfall Approach	Valuation Multiple	5.5x to 6.8x	5.5x
Equity Securities**	\$ 41,482,090	Enterprise Value Waterfall Approach	Valuation Multiple	5.0x to 52.5x	13.2x

Certain of the Trust's Level 3 equity securities investments may be valued using unadjusted inputs that have not been internally developed by the Trust, including recently purchased securities held at cost. As a result, fair value of assets of \$53,850,917 have been excluded from the preceding table.

* The weighted averages disclosed in the table above were weighted by relative fair value

** Including partnerships and LLC's

Following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value:

Assets:	Beginning balance at 12/31/2021	Included in earnings	Purchases	Sales	Prepayments	Transfers into Level 3	Transfers out of Level 3	Ending balance at 06/30/2022
Restricted Securities								
Corporate Bonds	\$ 19,812,561	\$ 1,036,498	\$ 196,484	\$ (49,427)	\$ -	\$ -	\$ -	\$ 20,996,116
Bank Loans	266,448,199	(2,011,725)	30,229,188	(897,186)	(20,002,340)	-	-	273,766,136
Common Stock - U.S.	2,597,553	698,016	900,323	(206,349)	-	-	-	3,989,543
Preferred Stock	3,555,582	8,644	55,101	(17,634)	-	-	-	3,601,693
Partnerships and LLCs	38,266,204	(4,704,576)	3,186,482	(74,790)	-	-	-	36,673,320
Public Securities								
Bank Loans	2,220,737	(218,115)	667,246	-	(1,125)	911,250	(880,000)	2,699,993
Common Stock	82,031	(1,704)	-	-	-	-	-	80,327
Total	\$ 332,982,867	\$ (5,192,962)	\$ 35,234,824	\$ (1,245,386)	\$ (20,003,465)	\$ 911,250	\$ (880,000)	\$ 341,807,128

* For the six months ended June 30, 2022, transfers into and out of Level 3 were the result of changes in the observability of significant inputs for certain portfolio companies.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**(Unaudited)**

Income, Gains and Losses on Level 3 assets included in Net Increase in Net Assets resulting from Operations for the period are presented in the following accounts on the Statement of Operations:

	Net Increase / (Decrease) in Net Assets Resulting from Operations	Change in Unrealized (Depreciation) in Net Assets from assets still held
Interest Income (OID Amortization)	\$ 528,655	\$ -
Net realized gain on investments before taxes	520,547	-
Net change in unrealized (depreciation) of investments before taxes	(6,242,164)	(9,624,356)

B. Accounting for Investments:**Investment Income**

Investment transactions are accounted for on the trade date. Interest income, including the amortization of premiums and accretion of discounts on bonds held using the yield-to-maturity method, is recorded on the accrual basis to the extent that such amounts are expected to be collected. Generally, when interest and/or principal payments on a loan become past due, or if the Trust otherwise does not expect the borrower to be able to service its debt and other obligations, the Trust will place the investment on non-accrual status and will cease recognizing interest income on that investment for financial reporting purposes until all principal and interest have been brought current through payment or due to a restructuring such that the interest income is deemed to be collectible. The Trust writes off any previously accrued and uncollected interest when it is determined that interest is no longer considered collectible. As of June 30, 2022, the fair value of the Trust's non-accrual assets was \$10,429,237, or 2.9% of the total fair value of the Trust's portfolio, and the cost of the Trust's non-accrual assets was \$16,672,546, or 4.7% of the total cost of the Trust's portfolio.

Payment-in-Kind Interest

The Trust currently holds, and expects to hold in the future, some investments in its portfolio that contain Payment-in-Kind ("PIK") interest provisions. The PIK interest, computed at the contractual rate specified in each loan agreement, is added to the principal balance of the investment, rather than being paid to the Trust in cash, and is recorded as interest income. Thus, the actual collection of PIK interest may be deferred until the time of debt principal repayment. PIK interest, which is a non-cash source of income at the time of recognition, is included in the Trust's taxable income and therefore affects the amount the Trust is required to distribute to its stockholders to maintain its qualification as a

"regulated investment company" for federal income tax purposes, even though the Trust has not yet collected the cash.

Generally, when current cash interest and/or principal payments on an investment become past due, or if the Trust otherwise does not expect the borrower to be able to service its debt and other obligations, the Trust will place the investment on PIK non-accrual status and will cease recognizing PIK interest income on that investment for financial reporting purposes until all principal and interest have been brought current through payment or due to a restructuring such that the interest income is deemed to be collectible. The Trust writes off any accrued and uncollected PIK interest when it is determined that the PIK interest is no longer collectible. As of June 30, 2022, the Trust held no PIK non-accrual assets.

Realized Gain or Loss and Unrealized Appreciation or Depreciation of Portfolio Investments

Realized gains and losses on investment transactions and unrealized appreciation and depreciation of investments are reported for financial statement and Federal income tax purposes on the identified cost method.

C. Use of Estimates:

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and the differences could be material.

D. Federal Income Taxes:

The Trust has elected to be taxed as a "regulated investment company" under the Internal Revenue Code, and intends to maintain this qualification and to distribute substantially all of its net taxable income to its shareholders. In any year when net long-term capital gains are realized by the Trust, management, after evaluating the prevailing economic conditions, will recommend that the Trustees either designate the net realized long-term gains as undistributed and pay the Federal capital gains taxes thereon or distribute all or a portion of such net gains.

The Trust is taxed as a regulated investment company and is therefore limited as to the amount of non-qualified income that it may receive as the result of operating a trade or business, e.g. the Trust's pro rata share of income allocable to the Trust by a partnership operating company. The Trust's violation of this limitation could result in the loss of its status as a regulated investment company, thereby subjecting all of its net income and capital gains to corporate taxes prior to distribution to its shareholders. The Trust, from time-to-time, identifies investment opportunities in the securities of entities that could cause such trade or business income to be

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(Unaudited)

allocable to the Trust. The CI Subsidiary Trust (described in Footnote 1 above) was formed in order to allow investment in such securities without adversely affecting the Trust's status as a regulated investment company.

The CI Subsidiary Trust is not taxed as a regulated investment company. Accordingly, prior to the Trust receiving any distributions from the CI Subsidiary Trust, all of the CI Subsidiary Trust's taxable income and realized gains, including non-qualified income and realized gains, is subject to taxation at prevailing corporate tax rates. As of June 30, 2022, the CI Subsidiary Trust has incurred income tax expense of \$94,569.

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of the existing assets and liabilities and their respective tax basis. As of June 30, 2022, the CI Subsidiary Trust has a deferred tax liability of \$804,643.

E. Distributions to Shareholders:

The Trust records distributions to shareholders from net investment income and net realized gains, if any, on the ex-dividend date. The Trust's net investment income dividend is declared four times per year. The Trust's net realized capital gain distribution, if any, is declared in December.

3. Investment Services Contract

A. Services:

Under an Investment Services Contract (the "Contract") with the Trust, Barings agrees to use its best efforts to present to the Trust a continuing and suitable investment program consistent with the investment objectives and policies of the Trust. Barings represents the Trust in any negotiations with issuers, investment banking firms, securities brokers or dealers and other institutions or investors relating to the Trust's investments. Under the Contract, Barings also provides administration of the day-to-day operations of the Trust and provides the Trust with office space and office equipment, accounting and bookkeeping services, and necessary executive, clerical and secretarial personnel for the performance of the foregoing services.

B. Fee:

For its services under the Contract, Barings is paid a quarterly investment advisory fee of 0.3125% of the net asset value of the Trust as of the last business day of each fiscal quarter, which is approximately equal to 1.25% annually. A majority of the Trustees, including a majority of the Trustees who are not interested persons of the Trust or of Barings, approve the valuation of the Trust's net assets as of such day.

C. Basis for Board Renewal of Contract

At a meeting of the Trustees held by remote electronic communications (in accordance with Securities and Exchange Commission relief) on April 18, 2022, the Trustees

(including a majority of the Trustees who are not "interested persons" of the Trust or Barings) unanimously approved a one-year continuance of the Contract.

Prior to the meeting, the Trustees requested and received from Ropes & Gray LLP, counsel to the Trust, a memorandum describing the Trustees' legal responsibilities in connection with their review and re-approval of the Contract. The Trustees also requested and received from Barings extensive written and oral information regarding, among other matters: the principal terms of the Contract; the reasons why Barings was proposing the continuance of the Contract; Barings and its personnel; the Trust's investment performance, including comparative performance information; the nature and quality of the services provided by Barings to the Trust; financial results and condition of Barings; the fee arrangements between Barings and the Trust; fee and expense information, including comparative fee and expense information; profitability of the advisory arrangement to Barings; and "fallout" benefits to Barings resulting from the Contract.

In connection with their deliberations regarding the continuance of the Contract, the Trustees, including the independent Trustees, considered such information and factors as they believed, in light of the legal advice furnished to them and their own business judgment, to be relevant. The Trustees' conclusion as to the continuance of the Contract was based on a comprehensive consideration of all information provided to the Trustees and not the result of any single factor. Some of the factors that figured particularly in the Trustees' deliberations are described below, although individual Trustees may have evaluated the information presented differently from one another, giving different weights to various factors. It is also important to recognize that the fee arrangements between Barings and the Trust are the result of years of review and discussion between the independent Trustees and Barings, that certain aspects of such arrangements may receive greater scrutiny in some years than in others, and that the Trustees' conclusions may be based, in part, on their consideration of these same arrangements during the course of the year and in prior years.

Nature, Extent and Quality of Services to be Provided by Barings to the Trust

In evaluating the scope and quality of the services provided by Barings to the Trust, the Trustees considered, among other factors: (i) the scope of services required to be provided by Barings under the Contract; (ii) Barings' ability to find and negotiate private placement securities that are consistent with the stated investment objectives of the Trust; (iii) the experience and quality of Barings' staff; (iv) the strength of Barings' financial condition; (v) the nature of the private placement market compared to public markets (including the fact that finding, analyzing, negotiating and servicing private placement securities is more labor-intensive than buying and selling public securities and the administration of private placement securities is more

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**(Unaudited)**

extensive, expensive, and requires greater time and expertise than a portfolio of only public securities); (vi) the potential advantages afforded to the Trust by its ability to co-invest in negotiated private placements with MassMutual and its affiliates; and (vii) the the scope of services provided by Barings in light of regulatory and legislative initiatives that have required increased legal, compliance and business attention and diligence. Based on such considerations, the Trustees concluded that, overall, they are satisfied with the nature, extent and quality of services provided by Barings, and expected to be provided in the future, under the Contract.

Investment Performance

The Trustees also examined the Trust's short-term, intermediate-term, and long-term performance as compared against various benchmark indices presented at the meeting, which showed that the Trust had outperformed the Credit Suisse Leveraged Loan Index for the 3-month, year-to-date, 1- and 3- year periods, had outperformed the Bloomberg Barclays US Corporate High Yield Index for the 3-month, year-to-date, 1-, 3-, 5- and 10-year periods, and had underperformed the S&P 500 Index for the 1-, 3-, 5- and 10-year periods, in each case ended December 31, 2021. In addition, the Trustees considered comparisons of the Trust's performance with the performance of (i) selected closed-end investment companies and funds that may invest in private placement securities and/or bank loans; (ii) selected business development companies with comparable types of investments; and (iii) investment companies included in the Broadridge closed-end bond universe. The Trustees considered that, while such comparisons are helpful in judging performance, they are not directly comparable in terms of types of investments. Based on these considerations and the detailed performance information provided to the Trustees at the regular Board meetings each quarter, the Trustees concluded that the Trust's absolute and relative performance over time have been sufficient to warrant renewal of the Contract.

Advisory Fee/Costs of Services Provided and Profitability/Manager's "Fallout" Benefits

In connection with the Trustees' consideration of the advisory fee paid by the Trust to Barings under the Contract, Barings noted that it was unaware of any registered closed-end investment companies that are directly comparable to the Trust in terms of the types of investments and percentages invested in private placement securities (which require more extensive advisory and administrative services than a portfolio of publicly traded securities, as previously discussed) other than Barings Participation Investors, which is also advised by Barings. Under the terms of its Investment Advisory and Administrative Services Contract, Barings Participation Investors is charged a quarterly investment advisory fee of 0.225% of net asset value as of the end of each quarter, which is approximately equal to 0.90% annually. In considering the fee rate provided in the Contract, the Trustees noted the advisory fee charged by Barings to

various private and public funds that Barings manages that invest in similar asset classes, and observed that the fee charged to Barings Participation Investors compares favorably to the Trust's advisory fee.

At the request of the Trustees, Barings provided information concerning the profitability of Barings' advisory relationship with the Trust. The Trustees also considered the non-economic benefits Barings and its affiliates derived from its relationship with the Trust, including the reputational benefits derived from having the Trust listed on the New York Stock Exchange, and the de minimis amount of commissions resulting from the Trust's portfolio transactions used by Barings for third-party soft dollar arrangements. The Trustees recognized that Barings should be entitled to earn a reasonable level of profit for services provided to the Trust and, based on their review, concluded that they were satisfied that Barings' historical level of profitability from its relationship with the Trust was not excessive and that the advisory fee under the Contract is reasonable.

Economies of Scale

The Trustees considered the concept of economies of scale and possible advisory fee reductions if the Trust were to grow in assets. Given that the Trust is not continuously offering shares, such growth comes principally from retained net realized gain on investments and dividend reinvestment. The Trustees concluded that the absence of breakpoints in the fee schedule under the Contract was currently acceptable given the Trust's current size and closed-end fund structure.

Based on their evaluation of factors that they deemed to be material, including those factors described above, the Trustees (including a majority of the Trustees who are not "interested persons" of the Trust or Barings) unanimously concluded that the Trust's Contract should be continued for an additional one-year period.

4. Borrowings**Senior Secured Indebtedness**

MassMutual holds the Trust's \$30,000,000 Senior Fixed Rate Convertible Note (the "Note") issued by the Trust on November 15, 2017. The Note is due November 15, 2027 and accrues interest at 3.53% per annum. MassMutual, at its option, can convert the principal amount of the Note into common shares. The dollar amount of principal would be converted into an equivalent dollar amount of common shares based upon the average price of the common shares for ten business days prior to the notice of conversion. For the six months ended June 30, 2022 the Trust incurred total interest expense on the Note of \$529,500.

The Trust may redeem the Note, in whole or in part, at the principal amount proposed to be redeemed together with the accrued and unpaid interest thereon through the redemption date plus a Make Whole Premium. The Make Whole Premium equals the excess of (i) the present value of the scheduled payments of principal and interest which the Trust would have paid but for the proposed redemption,

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(Unaudited)

discounted at the rate of interest of U.S. Treasury obligations whose maturity approximates that of the Note plus 0.50% over (ii) the principal of the Note proposed to be redeemed.

Credit Facility

On July 22, 2021 (the "Effective Date"), MassMutual provided to the Trust, a five-year \$30,000,000 committed revolving credit facility. Borrowings under the revolving credit facility bear interest, at the rate of LIBOR plus 2.25%. The Trust will also be responsible for paying a commitment fee of 0.50% on the unused amount. For purposes of calculating the commitment fee for the period from the Effective Date to the earlier to occur of (x) the date that is 270 days after the Effective Date and (y) the first date on which the aggregate outstanding borrowings is greater than \$15,000,000, the unused amount shall be deemed to be in an amount equal to \$15,000,000. As of June 30, 2022 the Trust had \$12,000,000 of outstanding borrowings on the revolving credit facility.

5. Purchases and Sales of Investments

	For the six months ended 06/30/2022	
	Cost of Investments Acquired	Proceeds from Sales or Maturities
Corporate restricted securities	\$ 39,316,142	\$ 26,345,373
Corporate public securities	677,250	1,125

6. Risks

Investment Risks

In the normal course of its business, the Trust trades various financial instruments and enters into certain investment activities with investment risks. These risks include: (i) market risk, (ii) volatility risk and (iii) credit, counterparty and liquidity risk. It is the Trust's policy to identify, measure and monitor risk through various mechanisms including risk management strategies and credit policies. These include monitoring risk guidelines and diversifying exposures across a variety of instruments, markets and counterparties. There can be no assurance that the Trust will be able to implement its credit guidelines or that its risk monitoring strategies will be successful.

Impacts of COVID-19

The pandemic related to the global spread of novel coronavirus disease (COVID-19), which was first detected in December 2019, has resulted in significant disruptions to global business activity and the global economy, as well as the economies of individual countries, the financial performance of individual companies and sectors, and the securities and commodities markets in general. This pandemic, the full effects of which are still unknown, has resulted in substantial market volatility and may continue to adversely impact the prices and liquidity of the Trust's investments and the Trust's performance.

LIBOR

The United Kingdom's Financial Conduct Authority ("FCA"), which regulates LIBOR, announced a desire to phase out the use of LIBOR by the end of 2021. LIBOR has historically been a common benchmark interest rate index used to make adjustments to variable-rate loans. It is used throughout global banking and financial industries to determine interest rates for a variety of financial instruments and borrowing arrangements. The transition process might lead to increased volatility and illiquidity in markets that currently rely on LIBOR to determine interest rates. It could also lead to a reduction in the value of some LIBOR-based investments held by a fund and reduce the effectiveness of new hedges placed against existing LIBOR-based investments. While some LIBOR-based instruments contemplate a scenario where LIBOR is no longer available by providing for an alternative rate-setting methodology, not all have such provisions and there may be significant uncertainty regarding the effectiveness of any such alternative methodologies.

7. Commitments and Contingencies

During the normal course of business, the Trust may enter into contracts and agreements that contain a variety of representations and warranties. The exposure, if any, to the Trust under these arrangements is unknown as this would involve future claims that may or may not be made against the Trust and which have not yet occurred. The Trust has no history of prior claims related to such contracts and agreements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**(Unaudited)**

At June 30, 2022, the Trust had the following unfunded commitments:

Delayed Draw Term Loans:

9. Results of Shareholder Meeting

The Annual Meeting of Shareholders was held on Thursday, May 19, 2022. The shareholders were asked to vote to re-elect Susan B. Sweeney as Trustee for a three-year term, and to elect David M. Mihalick as Trustee for a three-year term. The shareholders approved the proposal. The Trust's other Trustees, Clifford M. Noreen, Michael H. Brown, Barbara M. Ginader, Edward P. Grace and Maleyne M. Syracuse continued to serve their respective terms following the May 19, 2022 Annual Shareholder Meeting. Eric J. Lloyd's term expired following the May 19, 2022 Annual Shareholder Meeting. The results of the voting are set forth below.

	<u>Shares for</u>	<u>Withheld</u>
Susan B. Sweeney	13,935,056	341,034
David M. Mihalick	13,965,684	310,406

THIS PRIVACY NOTICE IS BEING PROVIDED ON BEHALF OF BARINGS LLC AND ITS AFFILIATES: BARINGS SECURITIES LLC; BARINGS AUSTRALIA PTY LTD; BARINGS JAPAN LIMITED; BARINGS INVESTMENT ADVISERS (HONG KONG) LIMITED; BARINGS FUNDS TRUST; BARINGS GLOBAL SHORT DURATION HIGH YIELD FUND; BARINGS BDC, INC.; BARINGS CORPORATE INVESTORS AND BARINGS PARTICIPATION INVESTORS (TOGETHER, FOR PURPOSES OF THIS PRIVACY NOTICE, “BARINGS”).

When you use Barings you entrust us not only with your hard-earned assets but also with your personal and financial data. We consider your data to be private and confidential, and protecting its confidentiality is important to us. Our policies and procedures regarding your personal information are summarized below.

We may collect non-public personal information about you from:

- Applications or other forms, interviews, or by other means;
- Consumer or other reporting agencies, government agencies, employers or others;
- Your transactions with us, our affiliates, or others; and
- Our Internet website.

We may share the financial information we collect with our financial service affiliates, such as insurance companies, investment companies and securities broker-dealers. Additionally, so that we may continue to offer you products and services that best meet your investment needs and to effect transactions that you request or authorize, we may disclose the information we collect, as described above, to companies that perform administrative or marketing services on our behalf, such as transfer agents, custodian banks, service providers or printers and mailers that assist us in the distribution of investor materials or that provide operational support to Barings. These companies are required to protect this information and will use this information only for the services for which we hire them, and are not permitted to use or share this information for any other purpose. Some of these companies may perform such services in jurisdictions other than the United States. We may share some or all of the information we collect with other financial institutions with whom we jointly market products. This may be done only if it is permitted by the state in which you live. Some disclosures may be limited to your name, contact and transaction information with us or our affiliates.

Any disclosures will be only to the extent permitted by federal and state law. Certain disclosures may require us to get an “opt-in” or “opt-out” from you. If this is required, we will do so before information is shared. Otherwise, we do not share any personal information about our customers or former customers unless authorized by the customer or as permitted by law.

We restrict access to personal information about you to those employees who need to know that information to provide products and services to you. We maintain physical, electronic and procedural safeguards that comply with legal standards to guard your personal information. As an added measure, we do not include personal or account information in non-secure e-mails that we send you via the Internet without your prior consent. We advise you not to send such information to us in non-secure e-mails.

This joint notice describes the privacy policies of Barings, the Funds and Barings Securities LLC. It applies to all Barings and the Funds accounts you presently have, or may open in the future, using your social security number or federal taxpayer identification number - whether or not you remain a shareholder of our Funds or as an advisory client of Barings. As mandated by rules issued by the Securities and Exchange Commission, we will be sending you this notice annually, as long as you own shares in the Funds or have an account with Barings.

Barings Securities LLC is a member of the Financial Industry Regulatory Authority (FINRA) and the Securities Investor Protection Corporation (SIPC). Investors may obtain information about SIPC including the SIPC brochure by contacting SIPC online at www.sipc.org or calling (202)-371-8300. Investors may obtain information about FINRA including the FINRA Investor Brochure by contacting FINRA online at www.finra.org or by calling (800) 289-9999.

DIVIDEND REINVESTMENT AND SHARE PURCHASE PLAN

Barings Corporate Investors (the "Trust") offers a Dividend Reinvestment and Share Purchase Plan (the "Plan"). The Plan provides a simple way for shareholders to add to their holdings in the Trust through the receipt of dividend shares issued by the Trust or through the investment of cash dividends in Trust shares purchased in the open market. A shareholder may join the Plan by filling out and mailing an authorization card to DST Systems, Inc., the Transfer Agent.

Participating shareholders will continue to participate until they notify the Transfer Agent, in writing, of their desire to terminate participation. Unless a shareholder elects to participate in the Plan, he or she will, in effect, have elected to receive dividends and distributions in cash. Participating shareholders may also make additional contributions to the Plan from their own funds. Such contributions may be made by personal check or other means in an amount not less than \$10 nor more than \$5,000 per quarter. Cash contributions must be received by the Transfer Agent at least five days (but no more than 30 days) before the payment date of a dividend or distribution.

Whenever the Trust declares a dividend payable in cash or shares, the Transfer Agent, acting on behalf of each participating shareholder, will take the dividend in shares only if the net asset value is lower than the market price plus an estimated brokerage commission as of the close of business on the valuation day. The valuation day is the last day preceding the day of dividend payment.

When the dividend is to be taken in shares, the number of shares to be received is determined by dividing the cash dividend by the net asset value as of the close of business on the valuation date or, if greater than net asset value, 95% of the closing share price. If the net asset value of the shares is higher than the market value plus an estimated commission, the Transfer Agent, consistent with obtaining the best price and execution, will buy shares on the open market at current prices promptly after the dividend payment date.

The reinvestment of dividends does not, in any way, relieve participating shareholders of any federal, state or local tax. For federal income tax purposes, the amount reportable in respect of a dividend received in newly-issued shares of the Trust will be the fair market value of the shares received, which will be reportable as ordinary income and/or capital gains.

As compensation for its services, the Transfer Agent receives a fee of 5% of any dividend and cash contribution (in no event in excess of \$2.50 per distribution per shareholder.)

Any questions regarding the Plan should be addressed to DST Systems, Inc., Transfer Agent for Barings Corporate Investors' Dividend Reinvestment and Share Purchase Plan, P.O. Box 219086, Kansas City, MO 64121-9086.
