ICE BofA Global High Yield Index (HW00)

MARCH 2026 / FACTSHEET

- The Fund invests primarily in high yield fixed and floating rate corporate debt instruments and government debt / sovereign debt instruments globally in developed and emerging/developing markets.
- The Fund is subject to risks relating to investment, credit and counterparty, interest rate fluctuations, volatility and liquidity, downgrading, sovereign debt, valuation, credit rating and currency risks. The Fund's investments are concentrated in sub-investment grade debt instruments which carry greater liquidity and credit risks than investment grade instruments as well as increased risk of loss of principal and interest.
- Investment in emerging/developing markets may involve increased risks, including liquidity, currency risks/control, political and economic uncertainties, legal and taxation, settlement, custody, and volatility risks, while investment in certain countries within the Eurozone may involve sovereign debt risks.
- RMB tranches are subject to RMB currency risks. RMB is currently not freely convertible and conversion of RMB is subject to foreign exchange control policies and restrictions. There is no guarantee that RMB will not be subject to depreciation. Under exceptional circumstances, payment of realisation proceeds and/or dividend payment from underlying investments to the Fund in RMB may be delayed.
- The Manager integrates environmental, social and governance (ESG) information into the investment process, which may affect the Fund's investment performance and, as such, may perform differently compared to similar collective investment schemes.
- The Fund may invest in derivatives for investment, efficient portfolio management and/or for hedging purposes which may involve counterparty/credit, liquidity, valuation, volatility and over-the-counter transaction risks. Exposure to derivatives may lead to a high risk of significant loss by the Fund.
- The Fund's investment in debt instruments with loss-absorption features ("LAP") are subject to risks of contingent write-down or contingent conversion to ordinary shares upon occurrence of complex and unpredictable trigger events which may result in higher price volatility and total loss of amount invested. LAP may also be exposed to liquidity, valuation and sector concentration risk.
- Dividends, at the discretion of the Directors, may be paid out of unrealised capital gains and/or gross income while charging some or all fees and expenses out of capital (which represent effectively paying dividends out of capital), resulting in an increase in distributable income. The Fund may also pay dividends directly out of capital. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or any capital gains attributable to that original investment and results in an immediate reduction of the Fund's net asset value per share.
- Investors may suffer substantial loss of their investments in the Fund.

OBJECTIVE

The Barings Developed and Emerging Markets High Yield Bond Fund ("The Fund") seeks to produce a high level of current income in U.S. dollar terms, commensurate with an acceptable level of risk, as determined by the portfolio managers. Any capital appreciation will be incidental.

STRATEGY

The Fund will seek to achieve its primary investment objective by investing principally in a portfolio of high yield fixed and floating rate corporate debt Instruments and government debt/ sovereign debt instruments globally. The Fund may invest more than 20% of its Net Asset Value in emerging markets. In order to achieve a high level of current income, the Fund intends to invest principally in high yield securities that are rated not lower than B-. The Fund may invest less than 30% of its Net Asset Value in securities below B-.

PAST PERFORMANCE IS NOT NECESSARILY INDICATIVE OF FUTURE RESULTS. An investment entails a risk of loss. Performance is shown in USD on a NAV per share basis, with gross income reinvested. Source: Morningstar/Barings. Unless otherwise stated, all portfolio figures within this factsheet are as of the end of the month shown at the top of the front page. The Fund was launched on 2 December 2022 upon the merger of the Barings Global Umbrella Fund – Barings Developed and Emerging Markets High Yield Bond Fund ("Predecessor Fund") into the Fund. The performance information shown on or before the date of merger has been simulated based on the performance of a share class of the Predecessor Fund with the same investment objectives, risk profiles, and materially the same investment policy and fee structures of Tranche G USD Dist Quarterly of the Fund. *Please refer to page 3 for additional detail.

- Relates to the Tranche G USD Dist Quarterly share.
- The Predecessor Fund and the Fund adopted ICE BofA Global High Yield Index (HW00) as the benchmark. Please note that the use of a benchmark index is for comparative purposes only.

*Relates to Tranche G USD Dist Quarterly share. Dividend is not guaranteed, subject to manager's discretion. A positive yield does not imply a positive return of the Fund. Annualized dividend yield is for reference only. The amount of dividend payout for the period depends upon the number of shares held by the investors as of the record date for that period's distribution and the relevant annualized dividend yield is calculated using the formula: $[(1 + \text{Distribution per Unit for the period/ex-dividend NAV per unit})^4] - 1$.
