

1. Barings Global Investment Grade Credit Fund invests primarily through a diversified portfolio of investment grade fixed and floating rate corporate debt instruments and government debt instruments globally.
2. The Fund is subject to risks relating to investment, credit, interest rate fluctuations, downgrading, valuation, credit rating, currency, as well as risk associated with convertible instruments and hybrid securities, collateralised and/or securitised products. Investing in emerging markets may involve increased risks, including liquidity, currency/currency control, political and economic uncertainties, legal and taxation, settlement, custody and volatility risks.
3. The Fund's investment in securities issued or guaranteed by governments may be exposed to political, social and economic risks and may suffer significant losses when there is a default of sovereign debt issuers.
4. RMB classes are subject to RMB currency risks. There is no guarantee that RMB will not be subject to depreciation. RMB is currently not freely convertible and conversion of RMB is subject to foreign exchange control policies and restrictions. Under exceptional circumstances, payment of redemption proceeds and/or dividend payment may be delayed.
5. The integration of environmental, social and governance (ESG) information into the investment process may cause the Fund to perform differently compared to similar collective investment schemes. ESG information provided by third-party resources may also be incomplete, inaccurate or unavailable.
6. The Fund may have exposure to financial derivatives instruments for hedging, non-hedging and/or investment purposes which may involve counterparty/ credit, liquidity, valuation, volatility and over-the-counter transaction risks. Exposure to financial derivative instruments may lead to a high risk of significant loss by the Fund.
7. The Fund's investment in debt instruments with loss-absorption features ("LAP") are subject to risks of contingent write-down or contingent conversion to ordinary shares upon occurrence of complex and unpredictable trigger events which may result in higher price volatility and total loss of amount invested. LAP may also be exposed to liquidity, valuation and sector concentration risk.
8. Dividends, at the discretion of the Directors, may be paid out of unrealized capital gains and/or gross income while charging some or all fees and expenses out of capital (which represent effectively paying dividends out of capital), resulting in an increase in distributable income. The Fund may also pay dividends directly out of capital. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or any capital gains attributable to that original investment and results in an immediate reduction of the Fund's net asset value per share.
9. Investors may suffer substantial loss of their investments in the Fund.

Why Invest in Global Investment Grade Credit Now?

1. ELEVATED BOND YIELDS SUGGEST ATTRACTIVE TOTAL RETURN POTENTIAL

Global investment grade (IG) credit bond yields are currently trading at significantly elevated levels. With yield level exceeding 4.5%, the market has historically delivered attractive total returns in the following 24 months.

GLOBAL IG CREDIT: HIGHER STARTING YIELD LEVELS HAVE HISTORICALLY LED TO ATTRACTIVE FUTURE RETURNS

Yield to Maturity	Average Return in the Subsequent 6 Months	Average Return in the Subsequent 12 Months	Average Return in the Subsequent 24 Months
>4.5%	2.9%	5.8%	12.2%

Source: Barings and Bloomberg. Data range from December 31, 2004 to March 31, 2026. Based on Bloomberg Global Aggregate Credit Total Return Index and monthly observations.

2. AI HYPERSCALER NEW ISSUANCE: A POSITIVE BOOST FOR IG CORPORATE FUNDAMENTALS

Hyperscalers have increasingly tapped into debt markets to fund capital expenditure heavy AI infrastructure build outs. Relative to the broader market, they tend to operate with lower leverage, maintain interest coverage ratios that are generally stronger and generate higher margins, which may contribute to improved credit metrics across the overall market.

U.S. IG CORPORATE BOND MARKET FUNDAMENTALS ARE IMPROVING

	U.S. IG Corporate Bond Market	
	Market (Ex-Hyperscalers)	Hyperscalers Only
Net Leverage	2.9	1.1
Interest Coverage	9	64
Revenue Growth (YoY)	5%	15%
EBITDA Margin	31%	42%
EBITDA Growth (YoY)	4%	22%
Capital Expenditure Growth (YoY)	6%	72%

Source: JP Morgan. As of April 1, 2026. EBITDA denotes as Earnings Before Interest, Taxes, Depreciation, and Amortization.

3. STRONG DIVERSIFICATION PROSPECTS TO RISKIER ASSETS

IG credit offers the potential for diversification in a broader portfolio of higher risk assets such as equities. In particular, IG credit is relatively more sensitive to interest rates, which provides capital appreciation potential in a falling rate environment.

LARGEST GLOBAL EQUITY ANNUAL DRAWDOWN PERIODS AND CORRESPONDING RETURNS FOR GLOBAL IG CREDIT

Source: Barings and Bloomberg. As of March 31, 2026. Global Equities represented by MSCI ACWI Index. Global Investment Grade Credit represented by Bloomberg Global Aggregate Credit index (USD Hedged). Analysis shown covers the period from 2001 to April 8, 2025.

*2025 analysis covers period from January 1, 2025 to April 8, 2025, the period of the largest drawdown year-to-date.

Why Invest in the “Fund”?

HIGH-QUALITY IG CREDIT EXPOSURE

As of March 31, 2026, the Fund has about 95% exposure in IG securities, resulting in a majority of holdings having an average high-quality IG credit rating.

ALPHA GENERATION THROUGH HIDDEN GEMS

Our deep research capabilities focus on key themes and inefficiencies to unlock value and generate outperformance—including targeting less-efficient and less-researched segments of the market.

REGULAR STREAM OF INCOME POTENTIAL

Our actively managed and conviction-oriented portfolio typically offers a compelling coupon income advantage versus the underlying index.¹

DISCIPLINED APPROACH WITH A FOCUS ON CREDIT SELECTION

Our emphasis is on bottom-up credit selection to drive potential outperformance. Currently, we do not seek to add value by taking active currency and/or interest rate views.

1. The benchmark of the Fund is Bloomberg Global Aggregate Credit Index which is used for risk management and performance comparison purposes only. The Fund is actively managed and is not designed to track the benchmark or constrained by it.
