Barings International Umbrella Fund

Introduction

Barings International Umbrella Fund (the “Unit Trust”) is a unit trust managed by Baring International Fund Managers (Ireland) Limited (the “Manager”). The Unit Trust was established pursuant to the Unit Trusts Act, 1990, and a Trust Deed dated 11 February 1992 (as supplemented or amended from time to time) (the “Trust Deed”) made between the Manager and Northern Trust Fiduciary Services (Ireland) Limited (the “Depositary”) and authorised by the Central Bank of Ireland (the “CBI”), pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”). The Unit Trust is also listed on the Euronext Dublin Global Exchange Market.

The Unit Trust is organised in the form of an umbrella fund. The Trust Deed provides that the Unit Trust may offer separate series of units, each representing an interest in a Unit Trust Fund (a “Fund”) comprised of a distinct portfolio of investments. A separate Fund is maintained for each series of units and is invested in accordance with the investment objective applicable to such Fund to date. Each Fund may create more than one class of units in relation to a Fund (a “class”) and these separate classes of units may be denominated in different currencies. A unit represents a beneficial interest in a Fund (a “unit”).

The Unit Trust has eleven active Funds as at 30 April 2025 which have been approved by the CBI:

Fund	Fund launch date
Barings ASEAN Frontiers Fund	01/08/2008
Barings Asia Growth Fund	03/02/1987
Barings Australia Fund	04/12/1981
Barings Europa Fund	24/01/1987
Barings Hong Kong China Fund	03/12/1982
Barings Global Bond Fund	07/07/1978
Barings Global Balanced Fund	05/11/2021
Barings Global Technology Equity Fund*	16/11/2021
Barings Europe Select Fund	14/10/2022
Barings German Growth Fund	14/10/2022
Barings Global Dividend Champions Fund*	07/10/2022
Barings China A-Share Fund*	18/11/2022
Barings Global Equity Allocation Fund	18/11/2022
Barings Eastern Europe Fund	21/07/2023

* Barings Global Technology Equity Fund, Barings Global Dividend Champions Fund and Barings China A-Share Fund terminated on 13 May 2024.

Each of the Funds had several classes of units on offer at the financial year-end, which are outlined in note 11 to these financial statements. Further details of the Funds are contained in the individual supplements to the full Prospectus.

The following Funds of the Unit Trust are registered for sale in Hong Kong, and are authorised by the Hong Kong Securities and Futures Commission (“SFC”) pursuant to the provisions of the Hong Kong Code on Unit Trusts and Mutual Funds, supplemented or consolidated from time to time:

Barings ASEAN Frontiers Fund
Barings Asia Growth Fund
Barings Australia Fund
Barings Europa Fund
Barings Hong Kong China Fund
Barings Global Bond Fund
Barings Global Balanced Fund
Barings Eastern Europe Fund

Further details of the Funds are contained in the supplement to the Prospectus. The assets of the Funds are invested in accordance with the investment objective and policy.

The financial statements include all the trades received up until 12:00p.m. (Irish time) on 30 April 2025, the valuation point for the Unit Trust.

Barings International Umbrella Fund

Introduction (continued)

An adjustment has been made to the value of investments in Barings Eastern Europe Fund to reflect the close of business prices on 30 April 2025.

Barings International Umbrella Fund

Investment Objective and Policy

Barings ASEAN Frontiers Fund

The investment objective of the Barings ASEAN Frontiers Fund (the “Fund”) is to achieve long-term capital growth in the value of assets by investing in issuers in Asia which the Manager believes will benefit from the economic growth and development of the region.

The Fund will seek to achieve its investment objective by investing at least 70% of its Net Asset Value at any one time in equities and equity-related securities of issuers incorporated in, or exercising the predominant part of their economic activity in, countries which are members of the Association of South-East Asian Nations (“ASEAN”), or quoted or traded on the stock exchanges in those countries. The members of ASEAN include Singapore, Thailand, the Philippines, Malaysia, Indonesia and Vietnam.

The Fund will invest at least 50% of the Fund’s Net Asset Value in equities of issuers that exhibit positive or improving environmental, social and governance (“ESG”) characteristics.

Barings Asia Growth Fund

The investment objective of Barings Asia Growth Fund (the “Fund”) is to achieve long-term capital growth in the value of assets by investing in Asia and the Pacific region excluding Japan.

The Fund will seek to achieve its investment objective by investing at least 70% of its Net Asset Value in equities and equity-related securities of issuers incorporated in, or exercising the predominant part of their economic activity in, the Asia Pacific region excluding Japan, or quoted or traded on the stock exchanges in those countries, including developed and emerging markets.

The Fund will invest at least 50% of the Fund’s Net Asset Value in equities of issuers that exhibit positive or improving ESG characteristics.

Barings Australia Fund

The investment objective of the Barings Australia Fund (the “Fund”) is to achieve long-term capital growth in the value of assets by investing in Australia.

The Fund will seek to achieve its investment objective by investing at least 70% of its Net Asset Value at any one time in equities and equity-related securities of issuers incorporated in, or exercising the predominant part of their economic activity, in Australia, or quoted or traded on the stock exchanges in Australia.

The Fund will invest at least 50% of the Fund’s Net Asset Value in equities of issuers that exhibit positive or improving ESG characteristics.

Barings Europa Fund

The investment objective of the Barings Europa Fund (the “Fund”) is to achieve long-term capital growth in the value of assets by investing in issuers in Europe (including the United Kingdom).

The Fund will seek to achieve its investment objective by investing at least 70% of its Net Asset Value at any one time in equities and equity-related securities of issuers incorporated in, or exercising the predominant part of their economic activity in, any European country (including the United Kingdom), or quoted or traded on the stock exchanges in such countries.

The Fund will invest at least 50% of the Fund’s Net Asset Value in equities of issuers that exhibit positive or improving ESG characteristics.

Barings Hong Kong China Fund

The investment objective of Barings Hong Kong China Fund (the “Fund”) is to achieve long-term capital growth in the value of assets by investing in Hong Kong, China and Taiwan.

The Fund will seek to achieve its investment objective by investing at least 70% of its Net Asset Value at any one time either directly in equities or through equity-related securities (including depositary receipts) of issuers (i) incorporated, or (ii) exercising the predominant part of their economic activity, or (iii) quoted or traded on the stock exchanges in markets in Hong Kong or China.

Barings International Umbrella Fund

Investment Objective and Policy (continued)

Barings Hong Kong China Fund (continued)

The Fund will invest at least 50% of the Fund's Net Asset Value in equities of issuers that exhibit positive or improving ESG characteristics.

Barings Global Bond Fund

The investment objective of the Barings Global Bond Fund (the "Fund") is to achieve an attractive level of income together with long-term growth in the value of assets by investing in a diversified portfolio of fixed-interest securities.

The Fund will seek to achieve its investment objective by investing at least 70% of its Net Asset Value at any one time in an internationally diversified portfolio of both corporate and government fixed-interest securities. The portfolio may also, from time to time, include securities with floating interest rates.

The Fund will invest at least 50% of the Fund's Net Asset Value in fixed income instruments of countries that exhibit positive or improving ESG characteristics. The Fund will also invest at least 75% of the Fund's Net Asset Value in countries that exhibit strong or improving human development conditions, as measured by the United Nations Human Development Index (HDI) and calculated as the average of the five year period as of two years prior to the investment period.

Barings Global Balanced Fund

The investment objective of the Barings Global Balanced Fund (the "Fund") is to achieve long-term capital growth.

The Fund invests in a diversified range of international equities and debt securities (including, without limit, in emerging markets), generally with a focus on Asian equities. Investments may also be made in cash and in Money Market Instruments on an ancillary basis or where considered appropriate in light of market conditions.

Equities may include equity-related instruments such as American depository receipts and global depository receipts. The Fund will primarily invest in securities that are listed or traded on markets and exchanges drawn from the list contained in Appendix II of the Prospectus.

The debt securities in which the Fund may invest in include both fixed and floating rate bonds issued by governments, local authorities, public international bodies and corporate issuers, as well as convertible bonds (excluding contingent convertible bonds). The Fund may invest in Investment Grade debt securities and up to 10% of its Net Asset Value in Sub-Investment Grade debt securities. Where an eligible investment is split-rated, the higher quality rating will apply in order to determine eligibility for the Fund. Where an eligible asset is not rated by an internationally recognised rating agency, the Investment Manager may determine its own assessment of credit quality and assign an agency equivalent rating to the asset.

Barings Global Technology Equity Fund

The investment objective of the Barings Global Technology Equity Fund (the "Fund") was to achieve long-term capital growth.

The Fund sought to achieve its investment objective by investing in equities listed or traded on a wide range of international markets across sectors exposed to technology and communication services. The Fund may have invested at least 70% of its Net Asset Value in equities and equity-related securities listed, quoted or traded on global markets, all of which could be in emerging markets. For this purpose, total assets exclude cash and ancillary liquidities.

The Fund may have invested at least 50% of the Fund's Net Asset Value in equities of issuers that exhibit positive or improving ESG characteristics.

Barings Global Technology Equity Fund terminated on 13 May 2024. As a result, the financial statements for this Fund have been prepared on a non-going concern basis.

Barings Europe Select Fund

The investment objective of the Barings Europe Select Fund (the "Fund") is to achieve long term capital growth by investing in Europe excluding the United Kingdom.

Barings International Umbrella Fund

Investment Objective and Policy (continued)

Barings Europe Select Fund (continued)

The Fund will seek to achieve its investment objective by investing at least 75% of its Net Asset Value directly and indirectly in equities and equity-related securities of smaller issuers incorporated in, or exercising the predominant part of their economic activity, or quoted or traded on the stock exchanges in Europe excluding the United Kingdom.

The Fund will invest at least 50% of the Fund's Net Asset Value in equities of issuers that exhibit positive or improving ESG characteristics.

Barings German Growth Fund

The investment objective of the Barings German Growth Fund (the "Fund") is to achieve long-term capital growth by investing in Germany.

The Fund will seek to achieve its investment objective by investing at least 75% of its Net Asset Value directly and indirectly in equities and equity related securities of issuers incorporated in, or exercising the predominant part of their economic activity in Germany, or quoted or traded on the stock exchanges in Germany.

Barings Global Dividend Champions Fund

The investment objective of the Barings Global Dividend Champions Fund (the "Fund") was to generate income together with long-term capital growth through investment in the securities of companies worldwide.

The Fund sought to achieve its investment objective by investing at least 70% of its Net Asset Value at any one time in equity and equity related securities (as described further below) of issuers worldwide. For this purpose, total assets exclude cash and ancillary liquidities.

The Fund may have invested at least 50% of the Fund's Net Asset Value in equities of issuers that exhibit positive or improving ESG characteristics.

In addition, up to 30% of the Net Asset Value of the Fund may be invested in, or provide exposure to:

- debt securities of issuers worldwide. The debt securities in which the Fund may have invested may be fixed or floating rate, issued by governments, supranationals, agencies and companies. Debt securities may be rated investment grade or sub-investment grade by Standard & Poor's ("S&P") or another internationally recognised rating agency, or be, in the opinion of the Manager, of similar credit status, or may be unrated. There are no limits or restrictions on credit rating, maturity or duration of any debt or equity related security (such as debt securities convertible into equities) which may be held by the Fund; however, investment in subinvestment grade debt securities and unrated debt securities together will not exceed 10% of the Net Asset Value of the Fund.
- cash and ancillary liquidities, including deposits, treasury bills, government bonds or short-term Money Market Instruments, including commercial paper and certificates of deposit, in normal market conditions.

Barings Global Dividend Champions Fund terminated on 13 May 2024. As a result, the financial statements for this Fund have been prepared on a non-going concern basis.

Barings China A-Share Fund

The investment objective of the Barings China A-Share Fund (the "Fund") was to achieve capital growth through investing in issuers established or operating in the People's Republic of China.

The Fund sought to achieve its investment objective by investing at least 70% of its Net Asset Value in quoted or traded equity investments in China A-Shares or other Qualified Foreign Institutional Investor (the "QFII") permitted securities which are listed on the Shanghai or Shenzhen markets listed in the Prospectus, as permitted under the QFII Regulations.

Barings China A-Share Fund terminated on 13 May 2024. As a result, the financial statements for this Fund have been prepared on a non-going concern basis.

Barings International Umbrella Fund

Investment Objective and Policy (continued)

Barings Global Equity Allocation Fund

The investment objective of the Barings Global Equity Allocation Fund (the “Fund”) is to achieve long-term capital growth by investing in equities listed or traded in markets globally.

The Fund is actively managed and seeks to achieve its investment objective by investing at least 70% of its Net Asset Value directly and indirectly in equities and equity-related securities of issuers which are constituents of the MSCI All Country World Index (ACWI) (the “Index”). The Fund seeks to over perform the Index. The Index captured large and mid-cap representation and as at the date of this Supplement captures approximately 85% of global investable equities. The Index is designed to measure the equity market performance of developed and emerging markets. The Fund’s exposure to emerging markets may exceed 20% of Net Asset Value. Investors should note that the Fund does not intend to track the Index.

In order to implement the investment policy the Fund may gain indirect exposure through equity-related securities, such as American depositary receipts and global depositary receipts. Investment may also be made in cash and ancillary liquidities such as deposits, treasury bills or short-term Money Market Instruments, including commercial paper and certificates of deposit, in normal market conditions. The Fund may also invest up to 10% of its Net Asset Value in collective investment schemes including money market funds.

Barings Eastern Europe Fund

The Barings Eastern Europe Fund (the “Fund”) merged from Barings Global Umbrella Fund in to the Unit Trust on 21 July 2023. Barings Eastern Europe Fund was suspended on 1 March 2022 in light of the exceptional and adverse market conditions relating to the current situation in Russia and Ukraine, and exposure to Russian equities and depositary receipt securities. The merger saw the non-impacted liquid assets of Barings Eastern Europe Fund transferred to the new fund of the Unit Trust.

The investment objective of the Fund is to achieve long-term capital appreciation through investment in a diversified portfolio of securities of issuers located in or with a significant exposure to the emerging markets of Europe.

The Fund will seek to achieve its investment objective by investing at least 70% of its total assets at any one time in equities and equity-related securities, such as convertible bonds and warrants (which may only be acquired passively through corporate actions and are not expected to exceed 5% of the Fund’s Net Asset Value), of companies incorporated in, or exercising the predominant part of their economic activity in, Armenia, Azerbaijan, Belarus, Kazakhstan, Kyrgyzstan, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine and Uzbekistan (the “Commonwealth of Independent States”), and in other emerging European countries such as Albania, Bulgaria, Bosnia and Herzegovina, Croatia, the Czech Republic, Estonia, Georgia, Greece, Hungary, Kosovo, Latvia, Lithuania, Macedonia, Montenegro, Poland, Romania, Serbia, Slovenia, Slovakia and Turkey, or quoted or traded on the stock exchanges in those countries. There is no limit to the extent of direct investment in Russia and any such securities which are listed or traded in Russia must be listed or traded on the Moscow Exchange. Investment may also be made in securities listed or traded on recognised exchanges or markets in other countries where the issuer is located in or has a significant exposure to emerging European countries and in fixed and floating debt instruments issued by government and corporate issuers, such as bonds.

Please refer to the Prospectus for the full investment objective and policy for all the Funds.

How the Funds are managed

The Manager of Barings ASEAN Frontiers Fund, Barings Asia Growth Fund, Barings Australia Fund and Barings Hong Kong China Fund has appointed Baring Asset Management Limited as the Investment Manager of the Funds. In turn, Baring Asset Management Limited has appointed Baring Asset Management (Asia) Limited and Barings LLC as Sub-Investment Managers to the Funds.

At Barings, our equity investment teams share the philosophy of quality Growth at a Reasonable Price (“GARP”). We believe that earnings growth is the principal driver of equity market performance over the medium to long term, and favour high quality issuers for their ability to over perform the market on a risk-adjusted basis. In particular, we believe that structured fundamental research and a disciplined investment process combining quality growth and upside disciplines can allow us to identify attractively priced, long-term growth issuers which will over perform the market. Our approach emphasises quality criteria when looking at issuers and a three- to five-year time horizon when forecasting issuer earnings. In determining upside, we use consistent and transparent methods to place emphasis on discounted earnings models.

The Manager of Barings Europa Fund has appointed Baring Asset Management Limited as the Investment Manager of the Fund.

Barings International Umbrella Fund

Investment Objective and Policy (continued)

How the Funds are managed (continued)

The Fund is invested in European equity markets (including the United Kingdom), using a “bottom-up” investment approach. This means that we focus more on the individual merits of a specific issuer, rather than taking a stance on a sector of the market or macroeconomic trends such as interest rate rises. Within this, Barings manages the Fund using a GARP approach. This means that when researching candidates for the portfolio, we place just as much emphasis on the likely growth in corporate earnings at an issuer as we do on the unit price valuation before deciding whether to invest or not. We believe this approach combines the best features of both “growth” and “value” investment styles, to the benefit of investors. We invest in issuers which we believe offer potential for delivering better than expected earnings growth. We do this by carefully researching an issuer’s corporate strategy and revenue sources. An important part of the investment process involves regular meetings with the management of issuers in which we are considering investment. We then work to put a price on the units of the issuer in the light of our assessment of its earnings prospects and compare this to its peers in the sector and globally. When we are satisfied that an issuer meets our criteria for investing, we purchase an appropriate number of units.

The Manager of Barings Global Bond Fund has appointed Baring Asset Management Limited as the Investment Manager of the Fund. Barings LLC and Barings Japan Limited were appointed as Sub-Investment Managers of the Fund.

Baring Asset Management Limited seeks investment returns by investing in bond markets where we believe yields are likely to fall and avoiding those we think are expensive. The overall duration, or interest rate sensitivity, of the Fund will fluctuate as our expectations for economic developments change, relative to the market. We will also look to add value through foreign exchange management, identifying those markets where currencies are attractive, for example due to sound economic fundamentals or rising interest rates.

The Manager of Barings Global Balanced Fund has appointed Baring Asset Management Limited as the Investment Manager of the Fund.

Baring Asset Management Limited takes a balanced approach to investing and invests across a wide spectrum of global equities, bonds, and applies a tactical asset allocation strategy by identifying opportunities that it believes are attractive (based upon market valuation measures such as price/earnings ratio, price/book ratio, dividend yield, and earnings) and markets that have diverged from their view of economic reality (e.g. the valuation of the securities are not reflecting the intrinsic value), while carefully managing the extent of the risk exposure of the Fund. We will seek to manage the Fund’s risk exposure by allocating asset classes between equities and bonds and by the diversification of its portfolio. A balanced investment strategy is a way of combining investments in a portfolio that aims to balance risk and return.

Baring Asset Management Limited’s investment process combines a long term (up to 10 years) asset return forecasting framework with a shorter term (typically 12-18 months) approach for tactical asset allocation.

The Manager of Barings Global Technology Equity Fund had appointed Baring Asset Management Limited as the Investment Manager of the Fund.

Baring Asset Management Limited believed that equity markets contained unrecognised growth potential and sought to identify this through the analysis of an issuer’s business model whilst incorporating wider ESG trends often referred to as fundamental analysis. ESG trends evolve over time and include environmental footprint, societal impact of products/services and effectiveness of supervisory/management boards. Equity investment teams at Baring Asset Management Limited utilised a common investment approach, best described as Growth at a Reasonable Price (“GARP”).

GARP sought to identify reasonably priced growth issuers whose qualities were unrecognised by market participants by performing structured fundamental analysis with a disciplined investment process. Based on the region, country or sector bias of a Fund, analysis of potential growth issuers’ included their future financial performance as well as their business model and management style, while focussing on long-term earnings growth of three to five years. We valued issuers utilising proprietary valuation models that incorporated ESG analysis and macro considerations.

Barings International Umbrella Fund

Investment Objective and Policy (continued)

How the Funds are managed (continued)

Baring Asset Management Limited's strategy favours issuers with well-established or improving business franchises, profitability focused management and strong balance sheets that enable the issuer to execute its business strategy. We regard these issuers as higher quality as they provide transparency and allow investment professionals to forecast earnings with greater confidence. This allows Baring Asset Management Limited to offer a strategy which should exhibit lower volatility over time. This is further strengthened through the incorporation of a dynamic and forward-looking approach to ESG analysis, with the aim to identify sustainable business practices. This empowers Baring Asset Management Limited to better assess both the potential risks facing the issuer and the opportunities presented to it, particularly those not apparent or included in traditional fundamental analysis. This also facilitates the Fund's portfolio in exhibiting lower volatility over time while propagating better ESG practices. We believe that ESG integration, a focus on forward-looking dynamics and active engagement is key to unlocking long-term returns in equity investments.

The Manager of Barings Europe Select Fund and Barings German Growth Fund has also appointed Baring Asset Management Limited as the Investment Manager of the Funds.

At Barings, our equity investment teams share the philosophy of quality GARP. We believe that earnings growth is the principal driver of equity market performance over the medium to long term, and favour high-quality issuers for their ability to over perform the market on a risk-adjusted basis. In particular, we believe that structured fundamental research and a disciplined investment process combining quality, growth and upside disciplines can allow us to identify attractively priced, longterm growth issuers which will over perform the market. Our approach emphasises quality criteria when looking at issuers and a three-to five-year time horizon when forecasting issuer earnings. In determining upside, we use consistent and transparent methods to place emphasis on discounted earnings models.

The Manager of Barings Global Dividend Champions Fund had appointed Baring Asset Management Limited as the Investment Manager of the Fund.

Our investment process was predominantly "bottom-up". To find the exceptional businesses that make up the strategy, we used a broad range of research inputs: Barings' internal analytical resources, industry experts, issuer meetings, quantitative research and issuer reports, among others. We are natural sceptics – rather than buying into a "story", we sought proof of an issuer's excellence. Only our highest-conviction ideas made it into the strategy, so robust debate and close analysis of fundamentals were key.

We evaluated candidate issuers using the following three-stage process:

- **Quality:** we scrutinised an issuer's business model, looking for a range of features and competitive advantages, including network effects, benefits to incumbency, large installed bases, leading brands or a sustainable research and development ("R&D") edge. Upon inspection, issuers must have earned attractive returns on capital, possess excellent financial profiles and had a management team committed to its role as the steward of shareholder wealth.
- **Growth:** we assessed our candidate issuers' ability to deliver long-term profit growth. Sustained growth of both capital and dividends could only be achieved if the underlying business was flourishing. Our process lead us to firms with stable and visible growth profiles rather than issuers with more speculative growth ambitions, or those businesses whose fortunes were heavily linked to unpredictable external forces. The ideal investment was a growing issuer with meaningful control of its own destiny.
- **Valuation and scenario analysis:** financial statements were "cleaned" of any accounting distortions (such as off balance-sheet liabilities) which may have obscured the true financial position of a business, and issuers were put through a series of business-specific stress tests. The aim was to ascertain the underlying risk that an investment presents, and to gauge the scale of profit and dividend progression we could reasonably expect under various circumstances. Many issuers "failed" this stage of the process – businesses were often found to present too much risk once their underlying fundamentals were "tested". If an issuer did not pass this stage, we then ascertained the long-term value of the business using a highly consistent and cash-based set of valuation techniques.

The Manager of Barings China A-Share Fund had appointed Baring Asset Management Limited as the Investment Manager of the Fund. In turn, Baring Asset Management Limited had appointed Baring Asset Management (Asia) Limited as the Sub-Investment Manager of the Fund.

Barings International Umbrella Fund

Investment Objective and Policy (continued)

How the Funds are managed (continued)

The Fund invested in Chinese issuers listed on the stock exchanges of Shanghai and Shenzhen using a "bottom-up" investment approach. This meant that we were focused more on the individual merits of specific issuers, rather than taking a stance on the outcome of a sector of the market or macroeconomic developments such as interest rate rises.

Within this, the Fund was managed using a quality GARP approach. When researching candidates for the portfolio, we looked for issuers with three characteristics. Firstly, issuers with good potential for long-term earnings growth. Secondly, issuers with attributes which in our experience were associated with "high-quality" issuers, such as strong balance sheets and good management teams, with experience in delivering value to shareholders. Finally, issuers with share price valuations which still had room for upside when compared with history or similar issuers - in other words, potential for an attractive investment return.

The Manager of Barings Global Equity Allocation Fund has appointed Baring Asset Management Limited as the Investment Manager of the Fund.

The Investment Manager adopts a top-down approach to investing in this Fund. For Global equities, this means that the Investment Manager dynamically allocates to countries, sectors, currencies and styles. This approach incorporates the Investment Manager's views on macroeconomic trends such as economic growth and interest rate levels. The investment strategy is implemented using passive stock selection via a portfolio which consists of directly held equities that are constituents of the reference index. This portfolio will normally hold between 400 and 500 stocks.

The Manager of Barings Eastern Europe Fund has appointed Baring Asset Management Limited as the Investment Manager.

The Fund is managed using a well-defined quality Growth at a Reasonable Price ("GARP") investment style which aims to identify strong businesses with good expansion potential and attractive valuations. The Investment Manager draws on the research conducted by Barings' centralised global equity platform to construct a high conviction, concentrated portfolio.

GARP seeks to identify reasonably priced growth issuers whose qualities are unrecognised by market participants by performing structured fundamental analysis with a disciplined investment process. Based on the region, country or sector bias of the Fund, analysis of potential growth issuers' includes their future financial performance as well as their business model and management style, while focusing on long-term earnings growth of three to five years.

Please refer to the Prospectus for the full risk profile of each of the Funds. Investors should read the Prospectus and carefully consider the potential risk factors as well as reward factors before investing.

Barings International Umbrella Fund

Report of the Manager

For the financial year ended 30 April 2025

Statement of Manager's responsibilities

Baring International Fund Managers (Ireland) Limited (the "Manager") is required by the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") to prepare financial statements for each financial year. The Manager has elected to prepare these financial statements in accordance with Financial Reporting Standard 102 ("FRS 102"), the FRS applicable in the UK and Republic of Ireland to give a true and fair view of the state of affairs of the Baring International Umbrella Fund (the "Trust") at the financial year-end, and of the results and movements in net assets for the financial year then ended. In preparing these financial statements, the Manager must:

- select and consistently apply suitable accounting policies;
- make judgements and estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Unit Trust will continue in operation.

The financial statements must comply with the disclosure requirements of the UCITS Regulations. The Manager is responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the financial position of the Trust and enable it to ensure that the financial statements comply with the UCITS Regulations. The Manager is also responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Under the Central Bank of Ireland (the "CBI") UCITS Regulations, the assets of the Unit Trust shall be entrusted to Northern Trust Fiduciary Services (Ireland) Limited (the "Depositary") for safekeeping, and therefore custody of the Fund's assets rests with Northern Trust Fiduciary Services (Ireland) Limited.

The financial statements are published at www.baring.com. The Directors together with the Manager and Investment Manager are responsible for the maintenance and integrity of the website as far as it relates to Barings funds. Legislation in the Republic of Ireland governing the presentation and dissemination of the financial statements may differ from legislation in other jurisdictions.

Transactions with connected persons

The UCITS Regulation require that any transaction carried out with the Manager by a Promoter, Manager, Depositary, Investment Manager and/or associate of these ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the unitholders.

The Board of Directors of the Manager are satisfied that there are arrangements (evidenced by written procedures) in place to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and are satisfied that transactions with connected persons entered into during the year complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations.

Remuneration code

The UCITS V provisions require Management Companies to establish and apply remuneration policies and practices that promote sound and effective risk management, and do not encourage risk taking which is inconsistent with the risk profile of the UCITS.

The Manager has a Remuneration Policy in place, details of which are available on the Barings website at www.baring.com/guest/content/remuneration-policies.

The purpose of the Manager's remuneration policy is to seek to ensure that the remuneration arrangements of "Identified Staff":

- (i) are consistent with and promote sound and effective risk management and do not encourage risk-taking which is inconsistent with the risk profile, rules or instruments of incorporation of the Manager or any fund which the Manager is the manager of; and
- (ii) are consistent with the Manager's business strategy, objectives, values and interests and include measures to avoid conflicts of interest.

Please see Appendix 5 for the remuneration disclosure.

The Manager has a business model, policies and procedures which by their nature do not promote excessive risk taking and which take account of the nature, scale and complexity of the Manager and any of the Funds.

Barings International Umbrella Fund

Report of the Manager (continued)

For the financial year ended 30 April 2025

Managers statement

The financial statements were approved by the Directors of the Manager, Baring International Fund Managers (Ireland) Limited, on 21 August 2025 and signed on its behalf by:

Barings International Umbrella Fund

Annual Depositary Report to Unitholders

For the financial year ended 30 April 2025

We, Northern Trust Fiduciary Services (Ireland) Limited, appointed Depositary to Barings International Umbrella Fund (the "Unit Trust"), provide this report solely in favour of the unitholders of the Unit Trust for the year ended 30 April 2025, (the "Annual Accounting Period"). This report is provided in accordance with the UCITS Regulations European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (SI No 352 of 2011), which implemented Directive 2009/65/EU into Irish Law (the "Regulations"). We do not, in the provision of this report, accept nor assume responsibility for any other purpose or person to whom this report is shown.

In accordance with our Depositary obligation as provided for under the Regulations, we have enquired into the conduct of the management company of the Unit Trust for this Annual Accounting Period and we hereby report thereon to the unitholders of the Unit Trust as follows:

We are of the opinion that the Unit Trust has been managed during the Annual Accounting Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Unit Trust by the constitutional documents and by the Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional document and the Regulations.

For and on behalf of

Northern Trust Fiduciary Services (Ireland) Limited

Independent auditors' report to the unitholders of the Funds of Barings International Umbrella Fund

Report on the audit of the financial statements

Opinion

In our opinion, Barings International Umbrella Fund's financial statements:

- give a true and fair view of the Funds' assets, liabilities and financial position as at 30 April 2025 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report & Audited Financial Statements, which comprise:

- the Statement of Financial Position as at 30 April 2025;
 - the Statement of Comprehensive Income for the year then ended;
 - the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Units for the year then ended;
 - the Schedule of Investments for each of the Funds as at 30 April 2025; and
 - the notes to the financial statements for each of the Funds, which include a description of the accounting policies.
-

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Trust in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Emphasis of matter - financial statements prepared on a basis other than going concern

In forming our opinion on the financial statements, which is not modified, we draw attention to note 1 to the financial statements which describes the reasons why the financial statements of Barings Global Technology Equity Fund, Barings Global Dividend Champions Fund and Barings China A-Share Fund have been prepared on a basis other than going concern.

Our audit approach

Overview

Materiality

- Overall materiality: 50 basis points (2024: 50 basis points) of Net Assets Value ("NAV") at 30 April 2025 for each of the Trust's Funds in operation and Average Net Assets for the terminated Funds (2024: 30 April 2024).
- Performance materiality: 75% of overall materiality.

Audit scope

- The Trust is an open-ended investment Trust. We tailored the scope of our audit, taking into account the types of investments within the Funds, the involvement of the third parties referred to below, the accounting processes and controls, and the industry in which the Trust operates. We look at each of the Funds at an individual level.

Key audit matters

- Valuation of financial assets and financial liabilities at fair value through profit or loss.
- Existence of financial assets and financial liabilities at fair value through profit or loss.

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where Baring International Fund Managers (Ireland) Limited (the "manager") made subjective judgements, for example the selection of pricing sources to value the investment portfolio. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the manager that represented a risk of material misstatement due to fraud.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

Key audit matter	How our audit addressed the key audit matter
<p><i>Valuation of financial assets and financial liabilities at fair value through profit or loss</i></p> <p>Refer to note 2(c) for the accounting policies for Financial assets and financial liabilities at fair value through profit or loss and the Schedules of Investments in the financial statements.</p> <p>The financial assets and financial liabilities at fair value through profit or loss included in the Statement of Financial Position as at 30 April 2025 are valued at fair value in line with Generally Accepted Accounting Practice in Ireland.</p> <p>This is considered a key audit matter as it represents the principal element of the financial statements.</p>	<p>We tested the valuation of the financial assets and financial liabilities at fair value through profit or loss by obtaining independent third-party vendor prices for the investment portfolios as at 30 April 2025 and agreeing these to fund accounting records.</p> <p>No material misstatements were identified as a result of the procedures we performed.</p>
<p><i>Existence of financial assets and financial liabilities at fair value through profit or loss</i></p>	<p>We tested the existence of the financial assets and financial liabilities at fair value through profit or loss by obtaining independent confirmation of the investment positions held</p>

<i>Key audit matter</i>	<i>How our audit addressed the key audit matter</i>
Refer to note 2(c) for the accounting policies for Financial assets and financial liabilities at fair value through profit or loss and the Schedules of Investments in the financial statements. This is considered a key audit matter as it represents the principal element of the financial statements.	as at 30 April 2025 from the Funds' Depository or relevant counterparties and agreeing the amounts to the accounting records. No material misstatements were identified as a result of the procedures we performed.

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Trust, the accounting processes and controls, and the industry in which it operates.

The manager controls the affairs of the Trust and is responsible for the overall investment policy which is determined by them. The manager has delegated certain responsibilities to Baring Asset Management Limited (the "Investment Manager") and to Northern Trust International Fund Administration Services (Ireland) Limited (the "Administrator"). The financial statements, which remain the responsibility of the manager, are prepared on their behalf by the Administrator. The Trust has appointed Northern Trust Fiduciary Services (Ireland) Limited (the "Depository") to act as Depository of the Trust's assets. In establishing the overall approach to our audit, we assessed the risk of material misstatement at a Fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Trust's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the Trust's Funds as follows:

Overall materiality and how we determined it	50 basis points (2024: 50 basis points) of Net Assets Value ("NAV") at 30 April 2025 for each of the Trust's Funds in operation and Average Net Assets for the terminated Funds (2024: 30 April 2024).
Rationale for benchmark applied	We have applied this benchmark because the main objective of the Trust is to provide investors with a total return at a Fund level, taking account of the capital and income returns.

We use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Specifically, we use performance materiality in determining the scope of our audit and the nature and extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our performance materiality was 75% of overall materiality.

In determining the performance materiality, we considered a number of factors - the history of misstatements, risk assessment and aggregation risk and the effectiveness of controls - and concluded that an amount at the upper end of our normal range was appropriate.

We agreed with the Directors of the Manager that we would report to them misstatements identified during our audit above 5 basis points of each Fund's NAV, for NAV per share impacting differences (2024: 5 basis points of each Fund's NAV, for NAV per share impacting differences) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

With the exception of Barings Global Technology Equity Fund, Barings Global Dividend Champions Fund and Barings China A-Share Fund where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, our evaluation of the manager's assessment of the Funds' ability to continue to adopt the going concern basis of accounting included:

- Obtaining an understanding of the key indicators that are monitored with respect to the going concern assumption and management's future plans for the Funds over the going concern period (being 12 months from the date of approval of the financial statements);
- Reviewing available board minutes during the period under audit and those available up to the date of this report;
- Considering post year end capital activity as recorded in the underlying accounting records;
- Making enquiries of management with respect to any planned significant redemptions of which they have been informed of;
- Considering the liquidity risk management techniques which are available to the Funds.

With the exception of Barings Global Technology Equity Fund, Barings Global Dividend Champions Fund and Barings China A-Share Fund where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

With the exception of Barings Global Technology Equity Fund, Barings Global Dividend Champions Fund and Barings China A-Share Fund where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, in auditing the financial statements, we have concluded that the manager's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the manager with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report & Audited Financial Statements other than the financial statements and our auditors' report thereon. The manager is responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

Responsibilities for the financial statements and the audit

Responsibilities of the manager for the financial statements

As explained more fully in the Statement of Manager's responsibilities set out on page 12, the manager is responsible for the preparation of the financial statements in accordance with the applicable framework giving a true and fair view.

The manager is also responsible for such internal control as the manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the manager is responsible for assessing the Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the manager intends to cease operations, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered

material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the Trust and industry, we identified that the principal risks of non-compliance with laws and regulations related to the Unit Trust Act, 1990, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended). We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls) and determined that the principal risks were related to Risk of management override of controls.

Audit procedures performed by the engagement team included:

- Enquiry of management to identify any instances of non-compliance with laws and regulations;
- Reviewing relevant minutes of the meetings of the board of directors;
- Identifying and testing material journal entries based on our risk assessment;
- Designing audit procedures to incorporate unpredictability around the nature or extent of our testing; and
- Reviewing financial statement disclosures and agreeing to supporting documentation to assess compliance with applicable laws and regulations.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinion, has been prepared for and only for the unitholders of each of the Funds as a body in accordance with the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Barings International Umbrella Fund

Investment Managers' Report

For the financial year ended 30 April 2025

Barings ASEAN Frontiers Fund

Performance

Barings ASEAN Frontiers Fund (the "Fund") generated a gross return of 8.93% on the Class A USD Inc unit class and underperformed against the performance comparator with a return of 15.16%* during the reporting period. The Fund generated a net return of 7.09% on the Class A USD Inc unit class over the same period.

ASEAN equities went higher over the past 12 months, driven by the long-awaited rate cut cycle by the US Federal Reserve that supported expectations of a cyclical recovery of ASEAN economies amid a lower interest rate environment. Although the U.S. announcement of reciprocal tariffs initially weighed on markets in early April, ASEAN equities rebounded as President Trump introduced a 90-day reprieve for most countries to engage in tariff negotiations.

Over the review period, stock selection detracted from the Fund's relative performance while sector allocation made a positive contribution. Stock selection within Financials was a key detractor to the Fund over the review period, with the weakness led by a few Indonesian banks on concerns over loan growth and liquidity. On the other hand, the Fund had a lower exposure in Materials relative to the performance comparator, which contributed notably to the Fund's performance over the year, as the sector came under pressure in part due to soft demand outlook for select metals.

At a company level, Philippine-based resort and casino operator Bloomberry Resorts Corp ended as a key detractor to the Fund over the period, as the company reported weaker-than-expected earnings in light of slower visitation growth in the country alongside intensifying industry competitions. On the flipside, ASEAN's gaming and e-commerce developer Sea Ltd was a notable contributor to the Fund, thanks to the company's strong earnings results with resilient growth in both gaming and digital financial services segments, while increasing take rates in its e-commerce business also underpins improving profitability.

Market outlook

President Trump's announced reciprocal tariffs on US' trading partners have led to increased risks of a global recession and sharp global trade contraction. Tariff discussions are on-going, with rates shifting across countries as negotiations continue. This uncertainty has prompted a global slowdown in business investment, and the lack of clarity may dampen market confidence in the short term. Meanwhile, ASEAN central banks are now more likely to shift toward supporting growth and thus likely to cut rates more aggressively than prior expectations. The looser monetary conditions should be helpful for the region's equities markets.

Against the current macro backdrop, the larger domestic demand and less export-dependent economies should be relatively more resilient, such as Indonesia and Philippines. We remain constructive in both markets as we see long-term opportunities within these markets. Meanwhile, despite being an open economy, Singapore could continue to outperform the region given the credibility of policy execution, robust fiscal position, giving the government plenty of firepower to cushion the economy from this global shock and defensive market characteristics. The government's efforts to revitalize the stock market are also expected to provide ongoing support for market stability and investor sentiment. For export-driven economies like Vietnam, Thailand, and Malaysia, tariff uncertainties may pose short-term challenges to growth. Nonetheless, these countries remain attractive manufacturing hubs due to their cost competitiveness, established infrastructure, and mature supply chain ecosystems. We will evaluate how the impact of these tariffs to companies' earnings against what the share prices are discounting. While earnings impact of exporters will depend on various factors such as availability of substitutes for their products, companies' pricing power, ability to shift production to lower tariffed locations, and optimize production bases to different markets, it is inevitable that earnings would likely be hit to some degree by demand destruction as consumers' purchasing power get eroded by higher tariffs. That said, elevated risk aversion can often create attractive buying opportunities as stocks with strong fundamentals get oversold.

* The Fund return uses the midday prices, whereas the return of the comparator is calculated using global close prices.

**Baring Asset Management (Asia) Limited

Baring Asset Management Limited (the "Investment Manager") gives its portfolio managers full authority to manage their Funds as they see fit, within the established guidelines set down. This includes the views that managers may take of the markets and sectors they invest in, which may differ from the views of other Barings portfolio managers.

BARINGS

Barings International Umbrella Fund

Investment Managers' Report (continued)

For the financial year ended 30 April 2025

Barings Asia Growth Fund

Performance

Barings Asia Growth Fund (the "Fund") generated a gross return of 9.80% on the Class A USD Inc unit class and underperformed against the performance comparator with a return of 10.79%* during the reporting period. The Fund generated a net return of 7.94% on the Class A USD Inc unit class over the same period.

Asian equities went higher over the past 12 months, as sentiment picked up in light of the long-awaited US interest rate cut cycle, while China's policy pivot with concerted policy stimulus measures last September alongside the emergence of DeepSeek's AI models also boosted market momentum.

Stock selection was a key detractor to relative performance of the Fund over the review period, particularly in Information Technology due to share price corrections in select hardware manufacturers from Taiwan and Korea. On the other hand, the Fund's lower exposure in Materials relative to the performance comparator contributed notably to the Fund over the review period, as the sector underperformed led by the petrochemical industry on near-term margin pressure.

At a company level, Korea's semiconductor manufacturer Samsung Electronics ended the review period as a key detractor to the Fund, largely weighed by peak cycle concerns of the memory sector, while the news flow around quality issue of the company's chip production also exacerbated stock selling pressure. On the bright side, Chinese e-commerce giant Alibaba was a notable contributor to the Fund, driven by stronger-than-expected earnings partly thanks to consumption policy support, coupled with the announcement of the company's AI capital investment boost that came as a positive surprise.

Market outlook

Given the challenging global backdrop of heightened US tariff uncertainties, the outlook for Asian equities is mixed, with larger domestic economies/markets likely to outperform. China, which has outperformed strongly since its policy pivot in September last year, which has seen animal spirits further revitalized on the back of the stunning success of DeepSeek fuelling domestic confidence, alongside policy signals welcoming back the private sector. Despite tariff tensions, which have cooled down recently with US and China agreeing to tariff reductions for 90 days after trade talks in Geneva, we expect Chinese equities to continue standing out favourably for the rest of the year. The vast scale of its domestic economy, coupled with its leadership in advanced manufacturing sectors like electric vehicles and robotics, and its pivotal role in the global supply chain, underpin the resilience and strength of its markets. India, which has seen near-term cyclical soft patch in earnings and macroeconomy, should also fare better over the longer run given its more defensive position with large domestic economy as well as lower reliance on trade.

With higher corporate revenue exposures to the US, Taiwan and Korea look more vulnerable to the ongoing trade uncertainty. While AI remains a compelling structural growth driver for the heavily tech-oriented Taiwan market, given near-term risk aversion, investors may continue to struggle with elevated valuations as well as fear of an overbuild in AI datacentre capacity, which is expected to weigh on the Taiwanese equity market and to some extent Korean markets in the near-term, until clearer signs of AI monetization and better ROI (Return on Investment) on AI give comfort on the sustainability and direction of AI investments beyond 2025. As for other export-dependent ASEAN economies like Vietnam, Thailand and Malaysia, while near-term outlook may look more challenged given the current trade policy headwinds, should these countries manage to negotiate down the tariffs and keep them within a manageable gap relative to other supply chain destination countries, they are likely to remain a competitive production base even for US exports given the established infrastructure and ecosystem. We will continue to evaluate how the impact of these tariffs on corporate earnings against what the share prices are discounting, as elevated risk aversion can often create attractive buying opportunities as stocks with strong fundamentals get oversold.

* The Fund return uses the midday prices, whereas the return of the comparator is calculated using global close prices.

BARINGS

Barings International Umbrella Fund

Investment Managers' Report (continued)

For the financial year ended 30 April 2025

Barings Australia Fund

Performance

Barings Australia Fund (the "Fund") generated a gross return of -0.07% on the Class A USD Inc unit class and underperformed against the performance comparator with a return of 8.49%* during the reporting period. The Fund generated a net return of -1.77% on the Class A USD Inc unit class over the same period.

The positive return of the performance comparator over the period was heavily driven by the Financials sector, which is approaching 40% of the index. Positive sentiment has driven valuations of some of the constituent companies up to historic highs relative to their underlying earnings growth trajectory and book value. While the Fund also generated a positive absolute return from Financials, total exposure to the sector was significantly lower than the performance comparator, reflecting greater diversification across sectors and our valuation discipline. Notably, Commonwealth Bank of Australia was a strong absolute performer for the Fund, however, on a relative basis, it was also the largest detractor given its significant size in the index.

The largest positive contributor to relative performance was IAG, Australia's largest insurer. IAG benefited from favourable end-market dynamics and good earnings growth. Brambles was also a strong performer. Brambles is the largest global provider of "pallet pooling" (where clients rent wooden pallets to transport goods) which is a structurally growing industry. Return on Invested Capital is high, and we see a good opportunity for further margin and free cash flow expansion from new management initiatives.

Johns Lyng Group, a building services company that specialises in repairs on behalf of insurance companies, detracted from performance. While the company experienced a tough end-market due to unusually benign weather conditions that led to a subdued level of repair demand (which should prove transitory). We were disappointed by the company's execution on service quality and management communication and we therefore exited the position.

Treasury Wine Estates also underperformed. The company owns global leading luxury wine brands including Penfolds and DAOU. We are encouraged by how well it has rebuilt its Chinese business over the period following the lifting of Chinese tariffs. However, shares pulled back on growing market concerns linked to US tariff uncertainty and a slowing US consumer. We reduced our position to manage this risk, though continue to see the valuation as very compelling.

Market outlook

Australia is well positioned at a macro level. The country has a strong fiscal position that could support the economy in the event of an unforeseen negative shock, while moderating inflation is paving the way for future interest rate cuts. This should quickly translate to stronger consumer purchasing power, given the predominantly floating rate structure of the housing market. Australia is also relatively well shielded from US tariffs given a US trade surplus. Only a 10% tariff was imposed by President Trump in April this year, though geo-political uncertainty remains high.

Within the Australian market we see a sharp divergence in sentiment and valuations. We note many companies where there is a low risk to near-term earnings, however, positive sentiment and a flight-to-safety means valuations are now stretched relative to the fundamentals and long-term earnings growth outlook. This makes the elevated valuation the key risk. In contrast, there are companies where we see a higher risk to short-term earnings, however, valuations have pulled back such that even on more conservative earnings forecasts they still offer attractive upside over the longer-term. We will continue to be disciplined on valuations, taking account underlying quality and long-term growth characteristics.

* The Fund return uses the midday prices, whereas the return of the comparator is calculated using global close prices.

Barings International Umbrella Fund

Investment Managers' Report (continued)

For the financial year ended 30 April 2025

Barings Europa Fund

Performance

Barings Europa Fund (the "Fund") generated a gross return of 5.49% on the Class A USD Inc unit class and underperformed against the performance comparator with a return of 13.69%* during the reporting period. The Fund generated a net return of 3.70% on the Class A USD Inc unit class over the same period.

After a rather muted performance during the first half of the twelve month period, due mainly to escalating hostilities in Ukraine and the Middle East, as well as uncertainties over the direction of interest rates in both the Eurozone and the US, combined with the latter country's (then) impending Presidential elections, the broader European market enjoyed a better second six months overall, albeit with some volatility in the last month of April. The main drivers of the strength through the winter months and into spring were twofold. Firstly, the initial view that the 2.0 tenure of President Trump would be positive for the US, and by extension many global markets, and secondly a German general election that resulted in, relatively speaking, a smooth transition to a stable coalition government, with a clear mandate to return the country to economic growth – not least through a quickly agreed fiscal spending programme in areas including infrastructure and defence. Despite President Trump's rather severe tariff announcements on so-called "Liberation Day" in early April, which led to the stock market volatility referred to above, the overall period was notable for its positive returns, particularly in US Dollars given that these same tariff announcements helped to weaken the greenback.

In terms of fund performance, several individual stocks made notable positive contributions, including Deutsche Börse, the operator of the Frankfurt Stock Exchange, and Swiss pharmaceutical giant Roche. However, some of the holdings with exposure to artificial intelligence came under pressure on concerns a newly released Chinese product named Deepseek would dampen earnings growth prospects given its lower priced offering. These holdings included ASML and Schneider. This was reflected at the sector level, as the Fund's overweight position to the Information Technology sector held back performance. The underweight position to the broader Financials sector, also proved detrimental, as the Banks in particular performed well on the view that bond yields would remain "stronger for longer", despite the ECB cutting interest rates several times during the reporting period. These positions more than offset the positive contribution from the Fund's underweight position in the Consumer Discretionary sector, a sector which underperformed the performance comparator in part due to a weak performance from some of the luxury goods names.

Market outlook

As we noted in the Fund's half year report, investors would have had a good idea of what President Trump's policies would be in his second term i.e. his proclivity towards tariffs, and indeed this has proved to be the case. However, the severity has caught most people by surprise, together with his tactics of imposing, removing, threatening and delaying. This has clouded the outlook somewhat for global trade, and has acted as somewhat of a counterbalance to the more positive "self-help" moves being made across Europe, be that the €500bn investment package proposed in Germany by the newly installed Chancellor Friedrich Merz, or the €150bn, potentially rising to €800bn, defence spending programme instigated by Ursula von der Leyen, President of the European Commission, together with an ECB interest rate cycle that is now well into the easing phase. With this in mind, we believe our preference for good quality companies which have strong market positions, pricing power and flexible supply chains and are thus able to contend with any trade barriers better than competitors will serve the Fund well, whilst we are also assessing those that could potentially benefit from the European spending packages - all the while being careful to balance what we would consider realistic growth prospects against stock valuations.

Barings Hong Kong China Fund

Performance

Barings Hong Kong China Fund (the "Fund") generated a gross return of 17.72% on the Class A USD Inc unit class and underperformed against the performance comparator with a return of 25.24%* during the reporting period. The Fund generated a net return of 15.73% on the Class A USD Inc unit class over the same period.

Chinese equities went higher over the past 12 months, with the outperformance notably since the government's concerted policy stimulus in September last year, coupled with the introduction of DeepSeek AI models alongside policy signals welcoming back the private sector that boosted investor confidence and market momentum.

Stock selection was the major detractor to relative performance of the Fund over the review period, especially from Consumer Discretionary with the weakness led by a few e-commerce platforms on muted domestic consumption momentum before it saw signs of bottoming out. On the other hand, the Fund's higher exposure in Information Technology relative to the performance comparator contributed notably to the Fund over the 12-month period, in part driven by DeepSeek-led re-ratings in several beneficiaries.

At a company level, online gaming developer Netease ended the review period as a key detractor to the Fund, as investor concerns over the company's soft performance of new game launches alongside worries about monetization of legacy titles weighed on the share price. On the bright side, leading smartphone maker Xiaomi was a notable contributor to the Fund, thanks to improving handset demand in light of consumer trade-in policy support, coupled with the company's successful foray into the electric vehicle market.

Market outlook

Global market volatility and policy uncertainty is intense and heightened since the announcement of US' reciprocal tariffs. Not only are the tariff levels under negotiations and ever-changing, but the impact this has on the global macro demand environment remains highly uncertain, albeit skewed to the downside. That said, with the recent trade talks between China and the US that reached a major reduction in tariffs for 90 days and signalled a de-escalation in trade tensions, it should help provide some relief to market sentiment in the short run. In terms of portfolio positioning, there has been no change to our strategy that the domestic economy remains to be the key focus and exposure. Among the strategy's holding with overseas exposure, direct export to US is small given the diversified revenue mix for Chinese exporters, and we do not rule out that there could be tighter co-operation between China and its non-US trading partners, especially with emerging countries like Southeast Asia or Latin America over time.

With China's direct exports to the US accounting for the equivalent to 3% of its GDP, the negative impact of tariffs could be mitigated by further policy response. We've seen a package of monetary easing measures released in early May to counteract tariff impacts, and we believe policymakers have room to further policy support if needed. We also anticipate renewed incentives related to consumption and industrial upgrades from 2024, with a potential broadening of the categories of goods covered, that will benefit domestic consumption related sectors, and strengthen domestic technology innovation.

Finally, we believe that bottom-up stock selection will be crucial for achieving outperformance. Structural trends—such as shifts in consumer behaviour, self-sufficiency in supply chains, and advancements in key technologies—are expected to continue unfolding. These trends should enhance the outlook for sectors and themes such as new infrastructure, domestic consumption, healthcare, technology localization, and sustainability in the medium to long term.

Barings International Umbrella Fund

Investment Managers' Report (continued)

For the financial year ended 30 April 2025

Barings Global Bond Fund

Performance

Barings Global Bond Fund (the "Fund") generated a gross return of 6.19% on the Class A USD Inc unit class and underperformed against the performance comparator with a return of 8.32%* during the reporting period. The Fund generated a net return of 4.91% on the Class A USD Inc unit class over the same period.

The Fund's US positions have been the main drivers of underperformance over the course of the last year. Following Trump's various announcements regarding tariffs on global trading partners, US assets have been noticeably volatile. The Fund has an underweight position in US Treasuries, coupled with a long position in the US Dollar, both of which have had a negative impact on relative performance. Amid all the uncertainty generated by the proposed tariff program, the US Dollar has weakened, whilst the first few months of 2025 also saw a noticeable decline in Treasury yields – two developments that have worked against the Fund. Similarly, positions in the Japanese Yen as well as UK Gilts have also been negative for Fund performance of late. De-dollarisation is an important and developing theme, but the pace is likely to remain glacial, not least due to lack of plausible alternatives beyond Gold. In addition, economic growth in the rest of the world, particularly Euro-area and China, remains challenged. Thus, while there will be some diversification away from US assets, including US Treasuries and the USD on fading exceptionalism, we believe structural USD weakness is yet to be an enduring long-term theme. Global inflation has continued to fall over the period, albeit slowly. Major central banks, including the US Federal Reserve Bank, European Central Bank, People's Bank of China and the Bank of England, continued to cut interest rates, but conservatively. However, Long duration strategies, favoured by the Fund, have barely benefited.

Market outlook

We remain constructive on developed market sovereign bonds, but cognisant of the fact that long duration strategies have not performed as expected.

However, our conviction of a US economy slowdown has only intensified but we remain of the view that the inflation trajectory is unclear. Tariffs and pro-cyclical fiscal policies are inflationary; medium term growth fears however are disinflationary. This complicates the interest path for the Federal Reserve Bank. For now, it seems future rate cuts will likely be shallow, and conservative. At best, bond yields may remain range bound until clear directional economic signals emerge. We maintain a modest under-weight in US treasuries, with a preference for inflation linked bonds.

Global inflation is still falling, despite some residual stickiness in service sector price growth. Except for the US, we still have high conviction of inflation being around target(s) in 2025. Coupled with general economic slowdown, we maintain preference for Euro-area, New Zealand, Australian and Canadian government bonds. There, the outlook is relatively clear and constructive for bond investments.

The Fund is currently overweight Eurozone Government Bonds (core and periphery), Australia (including via regional governments), New Zealand, and Canada (including via provincials) given the clearer outlook of declining inflation and a challenged growth outlook. It is modestly under-weight in US, given fiscal and inflation risks.

* The Fund return uses the midday prices, whereas the return of the comparator is calculated using global close prices.

Barings International Umbrella Fund

Investment Managers' Report (continued)

For the financial year ended 30 April 2025

Barings Global Balanced Fund

Performance

Barings Global Balanced Fund (the "Fund") generated a gross return of 7.20% on the Class A USD Inc unit class and underperformed against the performance comparator with a return of 9.76%* during the reporting period. The Fund generated a net return of 5.64% on the Class A USD Inc unit class over the same period.

Global markets registered strong gains during the reporting period despite bouts of volatility. Global equities performed particularly well in the earlier part of the period, supported by resilient economic growth and easing inflation, which enabled a more accommodative monetary policy stance across major economies. However, in the latter phase, market volatility intensified following the announcement of the Trump administration's tariff plans. These trade policies introduced significant uncertainty around global trade prospects and clouded the inflation and growth outlook—especially in the United States—placing pressure on risk assets and the US dollar.

Our position in US Equities, particularly in Technology sector, contributed positively to the Fund earlier in the reporting period thanks to the robust macro data and earnings results in the US. However, this position later faced headwinds due to heightened policy uncertainty and tariff threats to sectors such as semiconductors and electric vehicles. In contrast, our exposure to non-U.S. equities, including Emerging Asia and Europe, along with our Fixed Income position, provided valuable diversification benefits.

Market outlook

Policy developments under the Trump administration have introduced uncertainty into the macroeconomic environment. While hard data, such as job growth and industrial production, remains resilient, soft indicators like sentiment surveys have weakened, creating a disconnect that has obscured traditional macro signals. This divergence has fuelled headline-driven volatility and erratic portfolio flows.

Nonetheless, we expect this to stabilize in the coming months as political noise subsides and the outlook becomes clearer. In the meantime, we will focus on aligning portfolios with durable themes and strong fundamentals, while actively managing headline risk. This involves prioritizing assets and sectors less sensitive to short-term news and more anchored in long-term value. In Equities, we prefer Technology, particularly software, targeting companies with resilient earnings and limited sensitivity to tariff-related disruptions. On the Fixed Income side, we also see opportunities in European exposures and High Yield credits.

* The Fund return uses the midday prices, whereas the return of the comparator is calculated using global close prices.

Barings International Umbrella Fund

Investment Managers' Report (continued)

For the financial year ended 30 April 2025

Barings Europe Select Fund

Performance

Barings Europe Select Fund (the "Fund") generated a gross return of 2.05% on the Class J EUR Inc unit class and underperformed against the performance comparator with a return of 6.37%* during the reporting period. The Fund generated a net return of 1.23% on the Class J EUR Inc unit class over the same period.

While European smaller companies generally rose during the period under review the 12-month period was characterised by volatility in share prices, to a large extent reflecting uncertainty about global economic growth prospects. European economic growth remains weak, held back by both weak domestic investment and construction markets, but also by weakening export orders from both Chinese and U.S. industries. Uncertainties about President Trump's tariff plans, given the wider context of slow growth and ongoing geopolitical crises in Ukraine, exacerbated uncertainty and European smaller companies fell back in February. Nevertheless, falling interest rates amid moderating inflation, combined with resilient profits developments and vibrant take-over activity in certain sectors, ultimately resulted in gains for European smaller companies through the period.

The Fund's relative performance was impacted by relatively limited exposure to Southern European banks, which performed strongly as the domestic Spanish and Italian retail banking sectors continued to consolidate, but also limited exposure to steel and defence companies in Germany, which benefited from optimism about EU defence spending. Profit-taking subdued the return from the Fund's holdings in companies with long-term growth characteristics, such as Dutch semiconductor production equipment group, ASM International, while a limited exposure to cheaply valued economy-sensitive companies also impacted the portfolio's relative return.

Market outlook

Over the twelve months to the end of April 2025 European smaller company indices have risen, although lagging behind the return of European large company indices. The period has been marked by significant volatility in share prices, however, more recently, share prices moved ahead, buoyed by an apparent cooling in the risks of tariff wars. European equities have also been supported by the inauguration of Chancellor Merz in Germany, whose economic policies promise to sharply increase spending on both Defence and Infrastructure. The European Central Bank has also reduced interest rates, in an effort to stimulate domestic demand, as inflation rates have moderated sharply. Despite these positive indicators, however, European business and consumer confidence surveys remain at levels consistent with no growth or even shallow recessions.

Domestic uncertainties are further confused by uncertain export prospects, as China and the U.S.A. threaten each other with tariffs, while domestic demand in those economies cools. Despite this challenging backdrop, however, European smaller companies' profitability remains overall resilient. Volatile foreign exchange rates and commodity prices remain challenging, however, European smaller companies remain reasonably confident in achieving their 2025 profit forecasts. While these forecasts imply very limited growth in profits the valuations of European smaller companies remain attractive, both in a historic context and relative to other assets classes. Furthermore, indications that European construction demand and take-over activity are recovering should support valuations.

Therefore, while equity market volatility is likely to remain above long-term averages, smaller companies, given their valuation attractions, are increasingly well-placed for improved relative performance. While companies' sales growth will be limited by tepid economic growth, their balance sheets and financing are generally strong in a historic context, cost control has been effective, and they are well-placed to benefit from any upturn in domestic activity and confidence. Our focus is on identifying companies whose opportunities to achieve sustainable growth and improved profitability are over-looked in their share price valuations.

* The Fund return uses the midday prices, whereas the return of the comparator is calculated using global close prices.

Barings International Umbrella Fund

Investment Managers' Report (continued)

For the financial year ended 30 April 2025

Barings German Growth Fund

Performance

Barings German Growth Fund (the "Fund") generated a gross return of 23.31% on the Class J EUR Acc unit class and outperformed against the performance comparator with a return of 23.05%* during the reporting period. The Fund generated a net return of 22.30% on the Class J EUR Acc unit class over the same period.

The German equity market generated a strong return during the twelve-month reporting period, well in excess of the broader European market, and enhanced in US Dollars by the weakness of this currency versus the Euro. During the first six months of the period, the overall market strength was driven by the performance of its largest stock, namely SAP, which generated a return of almost 30%. During the second six months, the market's strength was more broadly based, as SAP effectively performed in line with expectations. We attribute this wider dispersion to the improving political situation in Germany, as the CDU/CSU party quickly formed a coalition with the SPD party following February's general election, and just as quickly gained the necessary votes to push through a large spending package, which will be focused on areas including infrastructure and defence. This in turn led to investors seeking out potential beneficiaries in those companies which are more focused on the domestic market, which resulted in the small-cap cohort of stocks generating a strong performance during the second six months of the period, matching that of the large-cap DAX index, though the latter still outperformed over the period as a whole. As with most equity markets across the globe, April saw some volatility caused by the tariffs announced by President Trump on his so-called "Liberation Day".

The Fund performed strongly during this second six months. Principle amongst the positive contributors was Rheinmetall, as the defence group benefited from ongoing sales, including to Ukraine, and the potential benefits from the aforementioned German government's spending package. Heidelberg Materials was another strong performer, also attracting investor attention with regard to the investment package, as well as periodic hopes of a ceasefire in Ukraine and the subsequent rebuilding of the country. On the negative side, sportswear group Puma released several profit warnings, ultimately resulting in a change of CEO, whilst among the Fund's technology holdings, Jenoptik and Suess Microtec suffered from concerns over semiconductor investment spending.

Market outlook

Looking ahead, we believe President Trump's tariff policies and the retaliatory actions of impacted countries and regions will remain a key driver of investor sentiment. Regarding the German market, we anticipate that the newly announced €500 billion investment package, coupled with efforts to streamline government bureaucracy, will prove equally—if not more—transformative. On top of this, we believe we are yet to see the benefits of the multiple cuts in interest rates by the ECB. Against this backdrop we will look to invest in German companies with market leading positions, pricing power, flexible supply chains, and potentially, a relatively low reliance on the US market, depending on how the tariff situation evolves. From a more domestic perspective, we believe the German economy can spur its own growth, as per recent fiscal spending plans and will be keen to assess the attributes of companies we believe have the potential to benefit from this. As ever, we will be careful to balance what we would consider realistic growth prospects against stock valuations.

* The Fund return uses the midday prices, whereas the return of the comparator is calculated using global close prices.

Barings International Umbrella Fund

Investment Managers' Report (continued)

For the financial year ended 30 April 2025

Barings Global Equity Allocation Fund

Performance

Barings Global Equity Allocation Fund (the "Fund") generated a gross return of 9.55% on the Class I USD Acc unit class and underperformed against the performance comparator with a return of 11.84%* during the reporting period. The Fund generated a net return of 8.72% on the Class I USD Acc unit class over the same period.

At the sector level, the overweight positions in information technology and healthcare were the largest contributors to relative performance. However, the main detractors to performance were the positions in consumer staples and energy sectors.

At the regional level, the largest positive contribution to performance came from the overweight position to the European market. On the negative side, the position in Japanese equities was a notable detractor from performance.

Market outlook

The global economy is sending mixed signals. While job growth remains strong, confidence among businesses and consumers has weakened, making the outlook less certain. Despite this, we remain positive on the equity market. Although some forward-looking data has softened, strong government spending and increased business investment in the US are helping to support company profits.

In this environment, we believe it's best to focus on strong, reliable companies that can weather short-term noise. We recently reduced our exposure to European stocks after a period of strong performance. Europe still faces long-term challenges, such as high energy costs and underinvestment, and as a result we are taking a more cautious approach. We prefer to avoid the UK market; its heavy exposure to the energy sector presents headwinds, particularly as we see limited upside for oil prices in the near term. Additionally, the UK equity market is more defensively positioned compared to global peers, which may hold back performance if markets continue to rise. As a result, we currently see better opportunities elsewhere.

In contrast, we continue to see opportunities in US equities, particularly in technology. Trends like artificial intelligence, increased business spending, and the return of manufacturing to the US are supporting earnings and there have been easing supply issues in areas like cloud computing. At the same time, we're reducing our exposure to consumer-focused companies. Many of these firms are struggling to raise prices and are warning of weaker profits as shoppers become more cautious. We continue to monitor these trends closely and remain focused on building resilient portfolios aligned with long-term growth themes.

* The Fund return uses the midday prices, whereas the return of the comparator is calculated using global close prices.

Barings International Umbrella Fund

Investment Managers' Report (continued)

For the financial year ended 30 April 2025

Barings Eastern Europe Fund

Performance

Barings Eastern Europe Fund (the "Fund") generated a gross return of 16.51% on the Class I USD Acc unit class and outperformed against the performance comparator with a return of 13.54%* during the reporting period. The Fund generated a net return of 15.34% on the Class I USD Acc unit class over the same period.

Emerging Europe experienced solid economic growth during the reporting period, benefiting from limited exposure to U.S. tariff risks. The region's largest economies—Poland, Turkey, and Greece—maintained strong commitments to defence spending, which helped reassure markets amid U.S. criticism of NATO burden-sharing. However, political risk resurfaced in Turkey, where a crackdown on the main opposition party triggered a sharp decline in investor sentiment. As a result, Emerging Europe equity markets delivered some of the best (Poland, Greece) and worst (Turkey) global performances, underscoring the diversification benefits of the Fund's portfolio.

Stock selection was a key contributor to performance. Greece's Alpha Bank led gains, supported by rising loan demand and clarity from the Ministry of Finance on the treatment of Deferred Tax Liabilities in the banking sector. Additionally, shares in Turkey's Hepsiburada surged following a cash-based acquisition announcement by Kazakhstan's Kaspi, a leading digital payments and e-commerce firm.

Conversely, the Fund's performance was negatively impacted by not holding Turkish defence contractor Aselsan, whose stock experienced a significant rally.

New holdings in the Fund include Banco Santander's Warsaw-listed Polish subsidiary Santander Polska; Doosan Skoda Power from Plzen in the Czech Republic, one of the leaders in the global steam turbine manufacturing market; and Zabka, the leading Polish convenience food retailer. The Fund sold out of its position in the Romanian renewable power company Hidroelectrica, Turkey's e-commerce platform Hepsiburada and Kazakhstan's fintech operator Kaspi.

The energy sector underperformed due to falling prices, driven by OPEC non-compliance and weak global demand. The Fund maintained selective exposure, favouring Hungary's integrated refiner MOL, which offers attractive growth opportunities at compelling valuations. Turkey's equity market declined over 20% (USD terms), largely due to political instability following the controversial arrest of Istanbul's Mayor, Ekrem İmamoğlu. Despite Finance Minister Mehmet Şimşek's orthodox policy stance and a coordinated central bank approach, high real interest rates reflect persistent investor caution.

Market outlook

Poland, long regarded as the economic champion among Emerging European nations, has in our opinion graduated to the top level of European economic and political leadership. We expect Poland to play a leading role in the continent's rekindled armament and defence strategy, whilst superior economic performance, EU-aided investment into education and infrastructure and a sizeable domestic consumer market potential stabilise the country's growth prospects in an environment of substantial rifts in the international trade architecture,

Turkey's economic and political resilience is once again being tested. While the policy direction under Finance Minister Şimşek and the independent central bank is encouraging, unlocking the market's potential will require patience. Given ongoing volatility, Turkish assets are best approached within a diversified portfolio.

The adept management and transparent communication of Greece's economic reform program by Prime Minister Mitsotakis' administration deserve praise, especially amid escalating global uncertainties. The commitment of Greek corporations to high corporate governance standards remains impressive, as notably demonstrated by their proactive handling of Deferred Tax Credits—capitalized tax shield entries resultant from aggressive credit book write-offs during the banking sector's recapitalization.

Barings International Umbrella Fund

Investment Managers' Report (continued)

For the financial year ended 30 April 2025

Barings Eastern Europe Fund (continued)

Market outlook (continued)

In this environment, the departure of Alex Patelis, the Greek Prime Minister's chief economic advisor and the architect of the reform agenda, should be interpreted as a vote of confidence in the enduring stability and robustness of Greece's economic policies. Under Mr. Patelis' leadership, the Athens stock market has closed the calendar year positively for the fourth consecutive time, achieving a distinction unparalleled in the EMEA equity sphere. This achievement underscores the effective economic strategies and reforms implemented, showcasing Greece's resilience and potential for sustainable growth in a challenging global context.

* Barings Eastern Europe Fund merged from Barings Global Umbrella Fund in to the Unit Trust on 21 July 2023.

The accompanying notes form an integral part of these financial statements.

BARINGS

Barings International Umbrella Fund

Notes to the financial statements

For the financial year ended 30 April 2025

1. Basis of measurement

The financial statements have been prepared in accordance with Irish Generally Accepted Accounting Practice, including Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") as issued by the UK Financial Reporting Council ("FRC"), and Irish law and certain provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (the "UCITS Regulations"). Accounting standards generally accepted in Ireland in preparing financial statements giving a true and fair view are those issued by the Financial Reporting Council ("FRC").

Barings International Umbrella Fund (the "Unit Trust") has been authorised by the Central Bank of Ireland (the "CBI") pursuant to the Unit Trusts Act, 1990, and the Trust Deed. As the Barings ASEAN Frontiers Fund, Barings Asia Growth Fund, Barings Australia Fund, Barings Europa Fund, Barings Hong Kong China Fund, Barings Global Bond Fund, Barings Global Balanced Fund and Barings Eastern Europe Fund (the "Funds") are registered for sale in Hong Kong, the Unit Trust has also been authorised by the Hong Kong Securities and Futures Commission ("SFC") pursuant to the provisions of the Hong Kong Code on Unit Trusts and Mutual Funds, supplemented or consolidated from time to time.

The Unit Trust meets all the conditions set out in FRS 102, section 7 and consequently has availed of the exemption available to certain funds not to prepare a statement of cash flows.

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of the judgements made about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities, including derivative financial instruments held at fair value through profit or loss. The Directors, in consultation with the Investment Manager, and in the best interests of the of Unitholders as a whole, have resolved to terminate Barings Global Technology Equity Fund, Barings Global Dividend Champions Fund and Barings China A-Share Fund on 13 May 2024. The decision has been taken in consideration of, amongst other things, the Funds' economic viability and ability to operate in a cost-efficient manner due to their small asset size. As the result, the financial statements for these Funds have been prepared on a non-going concern basis. The financial statements for all other Funds were prepared on the going concern basis.

2. Significant accounting policies

(a) Fair value measurement

By fully adopting FRS 102, in accounting for its financial instruments, a reporting entity is required to apply either (a) the full requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments, b) the recognition and measurement provisions of IAS 39 Financial Instruments: Recognition and Measurement and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments, or c) the recognition and measurement provisions of IFRS 9 Financial Instruments and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments. The Unit Trust has chosen to implement (b) the recognition and measurement provisions of IAS 39 Financial Instruments: Recognition and Measurement and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments.

The use of the IAS 39 recognition and measurement provisions is in line with the pricing policy, which outlines that the fair value of financial assets and financial liabilities be valued at the last traded prices. The financial statements include all the trades received up until 12:00p.m. (Irish time) on 30 April 2025, the valuation point for the Unit Trust.

An adjustment has been made to the value of investments in Barings Eastern Europe Fund to reflect the close of business prices on 30 April 2025.

Barings International Umbrella Fund

Notes to the financial statements (continued)

For the financial year ended 30 April 2025

2. Significant accounting policies (continued)

(b) Foreign exchange transaction

Functional and presentation currency

Items included in the Unit Trust's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). The functional currency of Barings ASEAN Frontiers Fund, Barings Asia Growth Fund, Barings Australia Fund, Barings Europa Fund, Barings Hong Kong China Fund, Barings Global Bond Fund, Barings Global Balanced Fund, Barings Global Technology Equity Fund, Barings Global Dividend Champions Fund, Barings China A-Share Fund, Barings Global Equity Allocation Fund and Barings Eastern Europe Fund is the US dollar, as the majority of share classes are subscribed in US dollars. The functional currency of Barings Europe Select Fund and Barings German Growth Fund is the Euro based on the same rationale.

Transactions and balances

Foreign currency transactions are translated into the functional and presentation currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Income.

Proceeds from subscriptions and amounts paid on redemption of redeemable participating units are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

They represent the difference between an instrument's initial carrying amount and disposal amount, or cash payments or receipts made on derivative contracts (excluding payments or receipts on collateral margin accounts for such instruments).

(c) Financial assets and financial liabilities at fair value through profit or loss

Classification

The Funds classify their investments in securities as financial assets or financial liabilities at fair value through profit or loss. These financial assets and financial liabilities are classified as held for trading or designated by the Directors of the Manager at fair value through profit or loss at inception.

Financial assets or financial liabilities held for trading are those acquired or incurred principally for the purposes of selling or repurchasing in the short term. Financial assets and financial liabilities designated at fair value through profit or loss at inception are those that are managed and whose performance is evaluated on a fair value basis in accordance with the Funds' documented investment strategies. The Funds' policy is for Baring Asset Management Limited (the "Investment Manager") and the Directors of the Manager to evaluate the information about these financial assets on a fair value basis together with other related financial information. These financial assets and financial liabilities are expected to be realised within 12 months of the Statement of Financial Position date.

Recognition/derecognition

Purchases and sales of investments are recognised on the trade date – the date on which the Funds commit to purchasing or selling the investment. The financial statements include all the trades received up until the valuation point for each Fund as disclosed on page 3. Any trades received subsequent to these points are not reflected in the financial statements. Investments are de-recognised when the rights to receive cash flows from the investments have expired or the Funds have transferred substantially all risks and rewards of ownership. Realised gains and losses on disposals of financial assets and financial liabilities classified as 'at fair value through profit or loss' are calculated using the First In First Out ("FIFO") method. They represent the difference between an instrument's initial carrying amount and disposal amount, or cash payments or receipts made on derivative contracts (excluding payments or receipts on collateral margin accounts for such instruments).

Barings International Umbrella Fund

Notes to the financial statements (continued)

For the financial year ended 30 April 2025

2. Significant accounting policies (continued)

(c) Financial assets and financial liabilities at fair value through profit or loss (continued)

Measurement

Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are included in the 'net fair value gain/(loss) on financial assets at fair value through profit or loss' in the Statement of Comprehensive Income for each individual Fund. Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value at the relevant valuation point for each Fund as disclosed on page 3. Gains and losses arising from changes in the fair value of the 'Financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statement of Comprehensive Income in the year in which they arise.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As a result of the Unit Trust's decision to implement the recognition and measurement provisions of IAS 39 Financial Instruments: Recognition and Measurement, the fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the Fund's valuation point on the reporting date.

The Unit Trust's fair valuation input utilises the last traded market price for both financial assets and financial liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, management will determine the point within the bid-ask spread that is most representative of fair value.

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. The Funds use a variety of methods and make assumptions that are based on market conditions existing at the Statement of Financial Position date. Unquoted investments are valued in accordance with the most recent valuation made by the Manager. In the absence of a price being available for a security, the Directors of the Manager can determine such a valuation where appropriate. Valuation techniques used include the use of comparable recent arm's length transactions, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants.

Investment Funds are stated at fair value, which is represented by the unaudited NAV of the underlying investment as reported by the management of these investment funds. The Unit Trust estimates that this valuation method most fairly represents the amount that would have been realised had the investment been sold as at the date of these financial statements.

Forward foreign currency transactions

Forward foreign currency transactions "FFCT's" are measured at fair value based on the closing prices of the FFCTs contract rates on the relevant foreign exchange market on a daily basis. Realised and unrealised gains and/or losses are reported in the Statement of Comprehensive Income.

Futures contracts

A futures contract is an agreement between two parties to buy and sell a security, index or currency at a specific price or rate at a future date. Upon entering into a futures contract, the Funds are required to deposit with a broker an amount of cash or cash equivalents equal to a certain percentage of the contract amount. This is known as the "initial cash margin". Subsequent payments ("variation margins") are made or received by the Funds each day, depending on the daily fluctuation in the value of the contract.

The daily changes in contract value are recorded as unrealised gains or losses, and the Funds recognise a realised gain or loss when the contract is closed. Unrealised gains and losses on futures contracts are recognised in the Statement of Comprehensive Income.

Barings International Umbrella Fund

Notes to the financial statements (continued)

For the financial year ended 30 April 2025

2. Significant accounting policies (continued)

(c) Financial assets and financial liabilities at fair value through profit or loss (continued)

Options

When the Unit Trust purchases a call or put option, an amount equal to fair value which is based on the premium paid is recorded as an asset. When the Unit Trust writes an option, an amount equal to fair value which is based on the premium received by the Funds is recorded as a liability. The option is subsequently marked-to-market to reflect the fair value of the option purchased or sold, which is reported with financial assets or financial liabilities at fair value through profit or loss on the Statement of Financial Position and the Portfolio and Statement of Investments. When options are closed, the difference between the premium and the amount paid or received, net of brokerage commissions, or the full amount of the premium if the option expires worthless, is recognized as a gain or loss and is presented in the Statement of Comprehensive Income within other net changes in fair value of financial assets and liabilities at fair value through profit or loss.

(d) Income

Interest income and interest expenses

Interest income and interest expenses are recognised in the Statement of Comprehensive Income for all debt instruments and cash using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant year. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter year where appropriate, to the net carrying amount of the financial asset or financial liability.

Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

Dividend Income

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Dividend income is shown gross of any irrecoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits.

(e) Expenses

All expenses, including management fees, administration fees and depositary fees, are recognised in the Statement of Comprehensive Income on an accruals basis. The Manager meets all other expenses incurred by the Unit Trust in connection with its services.

(f) Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are initially recognised at fair value plus transaction costs that are directly attributable to their acquisition origination. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment.

(g) Payables

Payables are initially recognised at fair value and subsequently stated at amortised cost using the effective interest method. The difference between the proceeds and the amounts payable is recognised over the year of the payable using the effective interest method.

(h) Redeemable participating units

Redeemable participating units are redeemable at the unitholder's option and are classified as financial liabilities. The accounting policy for recognition of subscriptions and redemptions is that they were recorded effective from the trade date for financing reporting purposes.

Barings International Umbrella Fund

Notes to the financial statements (continued)

For the financial year ended 30 April 2025

2. Significant accounting policies (continued)

(h) Redeemable participating units (continued)

The redeemable participating unit can be put back into the Unit Trust on any business day of the Fund for cash equal to a proportionate unit of the Fund's Net Asset Value. The redeemable participating unit is carried at the redemption amount that is payable at the Statement of Financial Position date if the unitholder exercised their right to put the unit back into the Unit Trust.

In accordance with the provisions of the Trust Deed, listed investments and investments with prices quoted in over-the-counter markets or by market makers are stated at the last traded price on the valuation day for the purpose of determining the Net Asset Value per unit for subscriptions and redemptions and for various fee calculations.

Net assets attributable to holders of redeemable participating units represent a liability in the Statement of Financial Position, carried at the redemption amount that would be payable at the Statement of Financial Position date if the unitholder exercised the right to redeem the unit to the Fund.

(i) Margin Cash and Cash Collateral

Initial margin deposits are made upon entering into futures contracts and centrally cleared swap contracts and are generally made in cash. Variation margin payments are made or received, depending upon whether unrealised losses or gains are incurred. Details of margin cash and cash collateral are detailed in note 3. Cash pledged as collateral to brokers or to a Central Clearing Counterparty House for derivative instrument transactions on the initiation of derivative trades and additional collateral posted on these trades are identified in the note 3 as cash pledged as collateral for financial derivative instrument transactions. Cash pledged as collateral for financial derivative instrument transactions is not included as a component of cash and cash equivalents in the Statement of Financial Position and is not available to the Funds on demand. Margin cash/cash pledged as collateral is valued at cost plus accrued interest which approximates fair value. Initial margin, variation margin, broker owned funds held as collateral and cash pledged as collateral are all included in the Statement of Financial Position under margin cash.

(j) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value through profit or loss plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. They include fees and commissions paid to agents, advisers, brokers or dealers. Transaction costs are included in the 'net fair value gain/(loss) on financial assets at fair value through profit or loss' in the Statement of Comprehensive Income for each individual Fund. See note 6, 'Significant agreements and fees', for further information on transaction costs.

(k) Distributions

Note 5 discloses all distributions declared and paid during the year.

Distributions in respect of Barings ASEAN Frontiers Fund Class A Inc and Class I Inc units, Barings Asia Growth Fund Class A Inc and Class I Inc units, Barings Australia Fund Class A Inc units, Barings Europa Fund Class A Inc and Class C Inc units, Barings Hong Kong China Fund Class A Inc, Class C Inc and Class I Inc units, Barings Global Bond Fund Class F Inc and Class I Inc units, Barings German Growth Fund Class B Inc and Class J Inc units and Barings China A-Share Fund Class X Inc units are normally paid annually no later than 31 July of each year.

Distributions in respect of Barings Global Bond Fund Class A Inc units and Barings Europe Select Fund Class B Inc, Class I Inc and J Inc units will normally be paid semi-annually and no later than 31 January and 31 July in each year.

Distributions in respect of Barings Global Dividend Champions Fund Class F Inc and Class I Inc units will normally be paid quarterly and no later than 31 January, 30 April, 31 July and 31 August in each year.

Distributions in respect of Barings Global Bond Fund Class A RMB Hedged Inc units and Barings Global Balanced Fund Class A Inc units are normally paid monthly no later than the last business day of each month.

Barings International Umbrella Fund

Notes to the financial statements (continued)

For the financial year ended 30 April 2025

2. Significant accounting policies (continued)

(k) Distributions (continued)

Distributions may be declared from net income and net fair value gains on financial assets. Unitholders should note that distributions below US\$100/£50/€100 are automatically reinvested. The distribution on these units is recognised in the Statement of Comprehensive Income as finance costs on an ex-date basis. Distributions in respect of Barings Global Bond Fund distributions may be paid out of capital and/or any surplus net income and/or any capital gains less realised and unrealized capital losses. Accumulating share classes will not pay distributions.

(l) Net income equalisation

Net income equalisation is accrued net income included in the price of units purchased and redeemed during the accounting year. The subscription price of units is deemed to include an equalisation payment calculated by reference to the accrued net income of the relevant Fund, and the first distribution in respect of any unit will include a payment of income usually equal to the amount of such equalisation payment. The redemption price of each unit will also include an equalisation payment in respect of the accrued net income of the relevant Fund up to the date of redemption. Income equalisation is detailed on the statement of changes in net assets of each Fund where applicable.

(m) Withholding tax and capital gains tax

The Funds may incur withholding taxes imposed by certain countries on investment income and capital gains. Such income or gains are recorded gross of withholding taxes in the Statement of Comprehensive Income. Withholding taxes are shown as a separate item in the Statement of Comprehensive Income. Withholding tax is recorded on an accruals basis and is shown net of any recoveries, which are accounted for as received. Indian capital gains tax on any Indian based securities is recognised as capital gains tax in the Statement of Comprehensive Income.

The Company completes an annual assessment in relation to taxes that impact the Unit Trust: i.e. withholding tax and capital gains tax to assess if it is reasonable that there are no uncertainties in relation to these taxes that could impact the Unit Trust (i.e. result in a contingent liability).

Barings International Umbrella Fund

Notes to the financial statements (continued)

For the financial year ended 30 April 2025

3. Cash and cash equivalents, margin cash and bank overdrafts

Cash, margin cash and cash equivalents is valued at their fair value with interest accrued, where applicable. The Funds held the following cash deposits maintained with The Northern Trust Company ("TNC"), London branch, uninvested cash balances are being swept daily into the Northern Trust Global Funds.

The Manager will not charge a management fee in respect of Class X of each Fund. The fee for the X share classes is subject to a separate agreement with the Investment Manager and is not paid from the Net Asset Value of the X share class.

The Unit Trust is managed by the Manager, which has delegated investment responsibilities to Baring Asset Management Limited (the "Investment Manager"). The Investment Manager is an investment management company incorporated in London on 6 April 1994. The Investment Manager is part of the Barings LLC Group and is a wholly owned subsidiary of Massachusetts Mutual Life Insurance Company ("MassMutual"). The Investment Manager has appointed Baring Asset Management (Asia) Limited, Barings LLC and Barings Japan Limited (together, the "Sub-Investment Managers") as the Sub-Investment Managers to the relevant Funds. The Sub-Investment Managers are also part of the Barings LLC Group. Management fees charged during the financial year-end are disclosed on each Fund's Statement of Comprehensive Income and the outstanding amounts payable for management fees as at the end of the financial year are disclosed on each Fund's Statement of Financial Position.

The Manager will discharge the fees and expenses of the Investment Manager out of its own fee. The Investment Manager will discharge the fees and expenses of the Sub-Investment Managers out of its own fee. The management fee is payable monthly in arrears and is calculated and accrued by reference to the Net Asset Value of each Funds as at each business day ("valuation day").

Where the Net Asset Value of any Fund includes interests in any Investment Fund managed by a subsidiary of the parent company (a "Barings Fund"), the fee payable to the Manager relating to the holding will be reduced by the percentage rate (if any) charged to the Barings Fund for comparable management services.

Operating fees

The Manager is entitled to an operating fee. The fee payable is a percentage of the Net Asset Value of each class and is accrued daily and paid monthly in arrears. The Manager pays out of the Operating Fee the aggregate fees and expenses of the Administrator and Depositary, in addition to certain other fees and ongoing expenses.

For Barings ASEAN Frontiers Fund, the Manager is entitled to receive a fee of 0.45% per annum for all A unit classes (A Hedged classes 0.4625%) and 0.25% per annum for all I unit classes (I Hedged classes 0.2625%).

For Barings Asia Growth Fund, the Manager is entitled to receive a fee of 0.45% per annum for all A unit classes (A Hedged classes 0.4625%) and 0.25% per annum for all I and X unit classes (I Hedged classes 0.2625%).

For Barings Australia Fund, the Manager is entitled to receive a fee of 0.45% per annum for all A unit classes (A Hedged classes 0.4625%) and 0.25% per annum for all I unit classes.

For Barings Europa Fund and Barings Hong Kong China Fund, the Manager is entitled to receive a fee of 0.45% per annum for all A and C unit classes (A Hedged classes 0.4625%) and 0.25% per annum for all I unit classes.

For Barings Global Bond Fund, the Manager is entitled to receive a fee of 0.45% per annum for all A unit classes (A Hedged classes 0.4625%) and 0.25% per annum for all I unit classes, 0.18% per annum for all F (F Hedged classes 0.1925%) and up to 0.25% per annum for all X unit classes (X Hedged classes up to 0.2625%).

6. Significant agreements and fees (continued)

Operating fees (continued)

For Barings Global Balanced Fund, the Manager is entitled to receive a fee of 0.45% per annum for all A unit classes (A Hedged classes 0.4625%) and 0.25% per annum for all I unit classes.

For Barings Global Technology Equity Fund*, the Manager is entitled to receive a fee of 0.45% per annum for all A unit classes (A Hedged classes 0.4625%) and 0.25% per annum for all F1 and I unit classes.

For Barings Europe Select Fund, the Manager is entitled to receive a fee of 0.45% per annum for all A unit classes (A Hedged classes 0.4625%), 0.05% per annum for all B and J unit classes and 0.25% per annum for all I and X unit classes (I Hedged classes 0.2625%).

For Barings German Growth Fund, the Manager is entitled to receive a fee of 0.45% per annum for all A unit classes (A Hedged classes 0.4625%), 0.06% per annum for all B and J unit classes and 0.25% per annum for all I and X unit classes (I Hedged classes 0.2625%).

For Barings Global Dividend Champions Fund*, the Manager is entitled to receive a fee of 0.10% per annum for all unit classes.

For Barings China A-Share Fund*, the Manager is entitled to receive a fee of 0.45% per annum for all A unit classes and 0.25% per annum for all F, I and X unit classes.

For Barings Global Equity Allocation Fund, the Manager is entitled to receive a fee of 0.25% per annum for all unit classes (Hedged share classes 0.2625%).

For Barings Eastern Europe Fund, the Manager shall be entitled to receive a fee of 0.45% per annum for all A unit classes (A Hedged classes 0.4625%) and 0.25% per annum for all I unit classes (I hedged classes 0.2625%).

Please refer to the Prospectus for full details of the fees payable.

* Barings Global Technology Equity Fund, Barings Global Dividend Champions Fund and Barings China A-Share Fund terminated on 13 May 2024.

Trailer fees and reimbursements

Trailer fees (commissions for the marketing of the Funds) are paid to distribution, commission and sales agents out of the management fees. Reimbursements to institutional investors, who, from a commercial perspective, are holding the Funds' redeemable participating units for third parties, are also paid out of the management fees.

8. Financial risk management

In accordance with FRS 102: Disclosure, this note details the way in which the Funds manage risks associated with the use of financial instruments.

The Funds of the Unit Trust are exposed to a variety of financial risks in pursuing their stated investment objectives and policies. These risks include, but are not limited to, credit risk, liquidity risk and market risk (which in turn includes foreign currency risk, interest rate risk and market price risk). The Funds assume exposure to certain of these risks to generate investment returns on their portfolios, although these risks can also potentially result in a reduction in the Funds' net assets.

The Investment Manager will use its best endeavours to minimise the potentially adverse effects of these risks on the Funds' performance where it can do so, while still managing the investments of the Funds in a way that is consistent with the Funds' investment objectives.

The investment objective of the Funds is disclosed in the Prospectus and in the Investment Objective and Policy on page 4. The risks, and the measures adopted by the Funds for managing these risks, are detailed below.

Barings International Umbrella Fund

Notes to the financial statements (continued)

For the financial year ended 30 April 2025

8. Financial risk management (continued)

The nature and extent of the financial instruments outstanding at the Statement of Financial Position date and the risk management policies employed by the Funds are discussed below. These policies have remained substantially unchanged since the beginning of the financial year to which these financial statements relate.

Market risk

Market risk embodies the potential for both losses and gains and included foreign currency risk, interest rate risk and price risk, which are discussed in detail under separate headings within this note.

The Funds' exposure to market risk is that the value of assets would generally fluctuate with, among other things, general economic conditions, the condition of certain financial markets, international political events and developments or trends in any particular industry that the Funds' invested in.

The Funds' market risk is managed on a daily basis by the Investment Manager in accordance with policy and procedures in place. The Funds' overall market positions are reported to the Board of Directors on a monthly basis.

As the majority of the financial instruments are carried at fair value through the profit or loss, all changes in market conditions directly impact the net assets of the Funds.

Foreign currency risk

Foreign currency risk is defined in FRS 102 as "the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates."

The Funds are exposed to foreign currency risk as assets and liabilities of the Funds may be denominated in a currency other than the functional currency of the Funds, which is the US dollar and Euro. The fluctuations in the rate of exchange between the currency in which the asset or liability is denominated and the functional currency could result in an appreciation or depreciation in the fair value of those assets and liabilities. The Investment Manager is permitted but not obliged to use hedging techniques to attempt to offset market and foreign currency risk.

In accordance with the Unit Trust's policy, the Investment Manager monitors the Funds' currency exposures on a daily basis and reports regularly to the Directors of the Manager, who review the information provided by the Investment Manager on any significant exposures at their periodic meetings.

The Investment Manager may have used FFCTs on Funds as a tool and technique to hedge these currency exposures. Barings Global Bond Fund's sensitivity to changes in foreign currency rates is included in the VaR risk analysis on page 126.

The Funds' portfolio statements detail the currency, and therefore the foreign currency risk, of the underlying investments.

Foreign exchange transactions and other currency contracts may also be used to provide protection against exchange risks or to actively overlay currency views onto the Funds' currency exposure resulting from investing in foreign markets. Such contracts may, at the discretion of the Investment Manager, be used to hedge some or all of the exchange risk/currency risk arising as a result of the fluctuation between the denominated currency of the Funds and the currencies in which the Funds' investments are denominated, or to pursue an active currency overlay strategy.

A Fund may (but is not obliged to) enter into certain currency-related transactions in order to hedge the currency exposure of the assets of a Fund attributable to a particular class into the currency of denomination of the relevant class. Any financial instruments used to implement such strategies with respect to one or more classes shall be assets/liabilities of a Fund as a whole but will be attributable to the relevant class/es, and the gains/losses on, and the costs of, the relevant financial instruments will accrue solely to the relevant class.

Any currency exposure of a class may not be combined with or offset against that of any other class of a Fund. The currency exposure of the assets attributable to a class may not be allocated to other classes. A class will not be leveraged as a result of currency hedging transactions so that the use of such hedging instruments shall in no case exceed 100% of the Net Asset Value attributable to the relevant class of a Fund.

Sensitivity analysis

The below currency sensitivity analysis information is a relative estimate of risk and is not intended to be a precise and accurate number. The calculations are based on historical data. Future rate movements and correlations between currencies could vary significantly from those experienced in the past.

At 30 April 2025, had the exchange rate between the US Dollar and other currencies increased or decreased by 5% (30 April 2024: 5%) with all other variables held constant, the increase or decrease in the value of the Net Assets attributable to holders of redeemable participating units would be as follows:

8. Financial risk management (continued)

Interest rate risk

Interest rate risk defined in FRS 102 as “the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates”.

The Barings Global Balanced Fund and Barings Global Bond Fund holds fixed-interest rate debt securities which are exposed to fair value interest rate risk where the value of these securities may fluctuate as a result of a change in market interest rates.

All other financial assets and financial liabilities, with the exception of cash at bank balances and overdrawn cash, held by the Funds are not directly exposed to interest rate risk. The Funds are exposed to interest rate risk on the interest earned on their cash and bank balances, and paid on overdrawn cash. This exposure is not considered to be significant.

Interest rate risks are managed by the Investment Manager, whose management of interest rate risk is monitored through regular performance reviews with senior managers as well as through monthly peer reviews of positioning held with senior managers. Individual managers are authorised to initiate fixed-income trades within pre-set limits.

Barings Global Bond Fund's sensitivity to changes in interest rates is included in the VAR Analysis on page 126.

The following tables detail Barings Global Balanced Fund's exposure to interest rate risk. It includes the Fund's assets and liabilities at fair value, categorised by maturity date and measured by the carrying value of the assets and liabilities as at 30 April 2025 and 30 April 2024.

8. Financial risk management (continued)

Market price risk

Market price risk is defined in FRS 102 as “the risk that the fair value of a financial instrument or its future cash flows will fluctuate because of changes in market prices.”

The Funds’ assets consist principally of equity instruments except for Baring Global Bond Fund, which consists of bonds, futures and FFCTs. The values of these instruments are determined by market forces and accordingly there is a risk that market prices can change in a way that is adverse to the Funds’ performance. The Funds have adopted a number of investment restrictions set out in the Unit Trust’s Prospectus, which limit the exposure of the Funds to adverse changes in the price of any individual financial asset.

In accordance with the Funds’ policies, the Investment Manager monitors the Funds’ positions on a daily basis and reports regularly to the Directors of the Manager, which review the information on the Funds’ overall market exposures provided by the Investment Manager at its periodic meetings.

The Investment Manager uses three techniques to help in the risk management process: monitoring of compliance and quantitative limits, prevention of limit breaches and trade monitoring. These techniques allow the Investment Manager to ensure that the Funds remain in compliance with the restrictions in the Prospectus and the UCITS regulations under which the Funds are governed.

In addition, the Investment Manager manages the exposure of the portfolio to the risk of adverse changes in the general level of market prices, as determined by market forces, through adhering to its formal risk management process, which includes the use of systems and technology to monitor overall market and position risk on a daily basis.

Sensitivity analysis

The below price sensitivity analysis information is a relative estimate of risk and is not intended to be a precise and accurate number. The calculations are based on historical data. Future price movements could vary significantly from those experienced in the past.

A 5% increase or decrease in investment prices at 30 April 2025 and 30 April 2024 would have increased or decreased the value of investments at fair value through profit or loss as follows:

Fund	30 April 2025	30 April 2024
Barings ASEAN Frontiers Fund	US\$15,812,397	US\$17,334,344
Barings Asia Growth Fund	US\$4,399,790	US\$4,868,956

* Barings Eastern Europe Fund merged from Barings Global Umbrella Fund in to the Unit Trust on 21 July 2023.

** Barings Global Technology Equity Fund, Barings Global Dividend Champions Fund and Barings China A-Share Fund terminated on 13 May 2024.

Barings International Umbrella Fund

Notes to the financial statements (continued)

For the financial year ended 30 April 2025

8. Financial risk management (continued)

Liquidity risk

Liquidity risk is defined in FRS 102 as “the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering of cash or another financial asset”.

The Funds are exposed to daily cash redemptions of units. However, the Manager is entitled, with the approval of the Depositary, to limit the number of units of any class realised on any dealing day to 10% of the total number of units of that class in issue. There are also a number of circumstances where the Manager may, with the approval of the Depositary, temporarily suspend the right of unitholders to require the realisation of units of any class and/or may delay the payment of any monies in respect of any such realisation.

The Funds invest the majority of their assets in securities and other instruments that are traded on an active market and which are considered to be liquid as they can be readily disposed of in the event that cash needs to be raised to meet redemptions or to pay expenses.

In accordance with the Funds’ policy, the Investment Manager monitors the Funds’ liquidity on a daily basis and reports regularly to the Directors of the Manager, who review the information provided by the Investment Manager on significant exposures at their periodic meetings.

There is a bank overdraft facility in place with The Northern Trust Company (“TNTC”). An “uncommitted” multi-currency loan facility has been made available by TNTC to the Funds. During the financial year ended 30 April 2025, Barings ASEAN Frontiers Fund, Barings Asia Growth Fund, Barings Australia Fund, Barings Europa Fund, Barings Hong Kong China Fund, Barings Global Bond Fund, Barings Global Balanced Fund, Barings Global Technology Equity Fund, Barings Europe Select Fund, Barings German Growth Fund, Barings Global Dividend Champions Fund, Barings China A-Share Fund, Barings Global Equity Allocation Fund and Barings Eastern Europe Fund had drawn down on this facility (30 April 2024: Barings ASEAN Frontiers Fund, Barings Asia Growth Fund, Barings Australia Fund, Barings Europa Fund, Barings Hong Kong China Fund, Barings Global Bond Fund, Barings Global Balanced Fund, Barings Global Technology Equity Fund, Barings Europe Select Fund, Barings German Growth Fund, Barings Global Dividend Champions Fund, Barings China A-Share Fund, Barings Global Equity Allocation Fund and Barings Eastern Europe Fund).

Credit risk

Credit risk is defined in FRS 102 as “the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.”

The Funds’ holdings/securities consist principally of equity instruments, and are not directly exposed to credit risk from these positions with the exception of Barings Global Bond Fund, which consists of bonds and is directly exposed to credit risk.

Credit risk statement

Northern Trust Fiduciary Services (Ireland) Limited (“NTFSIL”) is the appointed Depositary of the Fund, responsible for the safe-keeping of assets. NTFSIL has appointed The Northern Trust Company (“TNTC”) as its global sub-custodian. Both NTFSIL and TNTC are wholly owned subsidiaries of Northern Trust Corporation (“NTC”). As at year-end date of 30 April 2025, NTC had a long term credit rating from Standards and Poor’s of A+.

TNTC (as global sub-custodian of NTFSIL) does not appoint external sub-custodians within the U.S., the U.K., Ireland, Canada, Belgium, France, Germany, Netherlands and Saudi Arabia. However, in all other markets, TNTC appoints local external sub-custodians.

NTFSIL, in the discharge of its depositary duties, verifies the Unit Trust’s ownership of Other Assets, (as defined under Other Assets, Art 22(5) of UCITS V Directive 2014/91/EU) by assessing whether the Unit Trust holds the ownership, based on information or documents provided by the Fund or, where available, on external evidence.

Barings International Umbrella Fund

Notes to the financial statements (continued)

For the financial year ended 30 April 2025

8. Financial risk management (continued)

Credit risk (continued)

TNTC, in the discharge of its delegated depositary duties, holds in custody (i) all financial instruments that may be registered in a financial instruments account opened on the books of TNTC and (ii) all financial instruments that can be physically delivered to TNTC. TNTC ensures all financial instruments (held in a financial instruments account on the books of TNTC) are held in segregated accounts in the name of the Fund, clearly identifiable as belonging to the Fund, and distinct and separately from the proprietary assets of TNTC, NTFSIL and NTC.

In addition TNTC, as banker, holds cash of the Fund on deposit. Such cash is held on the Statement of Financial Position of TNTC. In the event of insolvency of TNTC, in accordance with standard banking practice, the Fund will rank as an unsecured creditor of TNTC in respect of any cash deposits.

Where relevant please note the following currencies, Jordanian Dinar, Saudi Riyal, cash in the onshore China market (principally the currency of Chinese Yuan Renminbi, and any other currencies remitted into accounts in the onshore China market), are no longer held on the Balance Sheet of TNTC. For these off-book currencies, clients' cash exposure is directly to the relevant local sub-custodian/financial institution in the market.

Insolvency of NTFSIL and or one of its agents or affiliates may cause the Fund's rights with respect to its assets to be delayed.

The Responsible Party manages risk by monitoring the credit quality and financial position of the Depositary and such risk is further managed by the Depositary monitoring the credit quality and financial positions of sub-custodian appointments.

Northern Trust continually reviews its sub-custodian network to ensure clients have access to the most efficient, creditworthy and cost-effective provider in each market.

The Investment Manager reviews concentrations of credit risk on a fortnightly basis. All exposures to counterparty credit risk are monitored by Baring Asset Management Limited's Counterparty Credit Committee and are subject to Baring Asset Management Limited's Counterparty Credit Policy ("CCP"). Baring Asset Management Limited requires a minimum credit rating of Dunn and Bradstreet ("D&B") 3, but also actively avoids exposure to entities having an S&P rating of less than AA-, even where the D&B rating is 3 or better. Adherence to the CCP is very rigidly enforced. Any changes to ratings which cause divergence from CCP are acted on immediately without exception. Application for Initial Public Offerings ("IPOs"), for example, is subject to the credit rating of the entity to whose Statement of Financial Position the application will expose the investing fund. Where no satisfactory rating is applied, Baring Asset Management Limited insists that monies are paid into a ring-fenced 'Client Money' account, hence avoiding exposure not permitted by the CCP. The Funds minimize concentrations of credit risk by undertaking transactions with a large number of regulated counterparties on recognised and reputable exchanges.

Credit risk arising from receivables relating to unsettled trades is considered small due to the short settlement period involved. The maximum exposure related to unsettled trades equals the amounts shown on the Statement of Financial Position. There were no past due or impaired assets as of 30 April 2025 (30 April 2024: Nil).

The Funds are exposed to counterparty risk on parties with whom it trades and will bear the risk of settlement default. The Funds minimise concentration of credit risk by undertaking transactions with a large number of customers and counterparties on recognised and reputable exchanges. The Funds may enter into transactions with over the counter ("OTC") counterparties, including counterparties to OTC derivative instruments, whereby margin or collateral is posted or received by the Fund with the counterparty, outside of the control of the Depositary or the Depositary's agents.

The counterparties and their credit ratings as at 30 April 2025 were Bank of America A+, Barclays Bank A+, Standard Chartered Bank A+, State Street A, Union Bank Switzerland A+. The counterparties and their credit ratings as at 30 April 2024 were Union Bank Switzerland A+.

9. Fair value hierarchy

FRS 102 requires the Funds to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, taking into consideration factors specific to the asset or liability.

Barings International Umbrella Fund

Notes to the financial statements (continued)

For the financial year ended 30 April 2025

9. Fair value hierarchy (continued)

The determination of what constitutes 'observable' requires significant judgement by the Manager. The Manager considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following tables analyse, within the fair value hierarchy, the fund's financial assets and financial liabilities measured at fair value.

* Barings Eastern Europe Fund merged from Barings Global Umbrella Fund in to the Unit Trust on 21 July 2023.

As at 30 April 2025, Barings Eastern Europe Fund includes fair value adjustments for Level 1 securities. As at 30 April 2024, there are six equities held by Barings ASEAN Frontiers Fund and three fixed interest securities held by Barings Global Balanced Fund that have been transferred from level 1 to level 2 with values US\$42,581,693 and US\$5,849,185 respectively. As at 30 April 2025, Barings Europe Select Fund had one investment and Barings Global Equity Allocation Fund had one investment classified as level 3 with values of US\$Nil. As at 30 April 2024, Barings Global Equity Allocation Fund had one investment classified as level 3 with a value of US\$Nil.

Barings International Umbrella Fund

Notes to the financial statements (continued)

For the financial year ended 30 April 2025

9. Fair value hierarchy (continued)

As at 30 April 2024 (continued)

Transfers between levels, when applicable, occur at the end of the financial year.

Cash includes deposits held with banks and other short-term investments in an active market and they are categorised as Level 1. All receivables and payables are categorised as Level 2.

10. Efficient portfolio management

The Funds may use Financial Derivative Instruments ("FDIs") for efficient portfolio management. The efficient portfolio management purposes for which the Unit Trust intends to employ FDIs are reduction of risk, reduction of cost and the generation of additional capital or income for the relevant Fund with an appropriate level of risk, taking into account the risk profile of the Fund and the general provisions of the UCITS Regulations. The Unit Trust may use various types of derivatives for these purposes, including, without limitation, forwards, futures, options, swaps (including but not limited to total return swaps, credit default swaps, and IRSs) and contracts for differences for these purposes.

Risk Monitoring of Global Exposure

The method used to determine the global exposure for Barings Global Bond Fund is Value at Risk ("VaR"). VaR is calculated daily using Risk Metrics.

Barings ASEAN Frontiers Fund, Barings Asia Growth Fund, Barings Australia Fund, Barings Europa Fund, Barings Hong Kong China Fund, Barings Global Balanced Fund, Barings Global Technology Equity Fund, Barings Europe Select Fund, Barings German Growth Fund, Barings Global Dividend Champions Fund, Barings China A-Share Fund, Barings Global Equity Allocation Fund and Barings Eastern Europe Fund used the commitment approach to calculate their global exposure as described in detail in the risk management process of the Investment Manager.

In accordance with the UCITS Regulations the Commitment Approach has been calculated, in the case of Forward Currency Contracts ("FCCTs"), by converting the FCCT position into an equivalent position based on the market value of the underlying asset. As the Financial Derivative Instruments ("FDI") are used for hedging purposes, the exposure of the FDI has been calculated and then netted against the instrument being hedged. The Global Exposure calculation is performed on a daily basis.

In no circumstances will the global exposure of a Fund exceed 100% of its Net Asset Value.

For relative VaR: the Fund's VaR is shown as a percentage of the VaR of the performance comparator or reference portfolio to ensure that the relative figure is within an internal limit. This limit is set lower than a multiple of two (or 200%) of the performance comparison or reference portfolio VaR.

For absolute VaR: the Fund's VaR is shown as a percentage of the Funds' Net Asset Value and is monitored against an internal limit. This limit is set lower than 20%.

Fund Name	Fund Relative VaR over the past financial year					Performance comparator or reference portfolio
	30 April 2025	30 April 2024	Lowest	Highest	Mean	
Barings Global Bond Fund	145.32%	125.98%	103.15%	184.38%	139.83%	FTSE WGBI

Fund Name	Absolute VaR over the past financial year				
	30 April 2025	30 April 2024	Lowest	Highest	Mean
Barings Global Bond Fund	8.25%	4.70%	4.69%	10.58%	7.62%
FTSE WGB	5.68%	3.73%	3.72%	5.82%	5.43%

Barings International Umbrella Fund

Notes to the financial statements (continued)

For the financial year ended 30 April 2025

10. Efficient portfolio management (continued)

Risk Monitoring of Global Exposure (continued)

Some limitations of VaR analysis are:

- the methodology is based on historical data and cannot take account of the fact that future market price movements, correlations between markets and levels of market liquidity in conditions of market stress may bear no relation to historical patterns; and
- the VaR is a point-in-time calculation, and does not necessarily reflect the risk position of the Funds at any time other than the date and time at which it is calculated.

14. Soft commission arrangements

The Investment Manager will pay for research from their own books, as commission paid on trades will be “execution only”, which is the agreed cost for that broker to settle the trade (30 April 2024: same).

15. Contingent liabilities

There are no contingent liabilities at financial year-end 30 April 2025 and financial year-end 30 April 2024.

16. Taxation

Under current Irish law and practice, the Unit Trust qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended (the “TCA”). On that basis, it is not chargeable to Irish tax on its income or gains.

Barings International Umbrella Fund

Notes to the financial statements (continued)

For the financial year ended 30 April 2025

16. Taxation (continued)

However, Irish tax may arise if a “chargeable event” occurs. A chargeable event includes any distribution payments to unitholders or any encashment, redemption, cancellation, transfer or deemed disposal of shares for Irish tax purposes arising as a result of holding shares in the Unit Trust for a period of eight years or more, or the appropriation or cancellation of shares of a unitholder by the Unit Trust for the purposes of meeting the amount of tax payable on a gain arising on a transfer.

No Irish tax will arise on the Unit Trust in respect of chargeable events due to:

- (a) a unitholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes at the time of the chargeable event, provided that a relevant declaration is in place (in accordance with Schedule 2b of the TCA) and the Unit Trust is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct; or
- (b) a unitholder who is an exempt Irish investor (as defined in Section 739D TCA).

Dividends, interest and capital gains (if any) received on investments made by the Unit Trust may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Unit Trust or its unitholders.

The Finance Act 2010 provides that the Revenue Commissioners may grant approval for Unit Trust Investment Undertakings marketed outside of Ireland to make payments to non-resident investors without deduction of Irish tax where no relevant declaration is in place, subject to meeting “equivalent measures”. A Unit Trust Investment Undertakings wishing to receive approval must apply in writing to the Revenue Commissioners, confirming compliance with the relevant conditions.

17. Bank facilities

There is a bank overdraft facility in place with the Northern Trust Company (“TNTC”). An “uncommitted” multi-currency loan facility has been made available by TNTC to the Funds. During the financial year ended 30 April 2025, Barings ASEAN Frontiers Fund, Barings Asia Growth Fund, Barings Australia Fund, Barings Europa Fund, Barings Hong Kong China Fund, Barings Global Bond Fund, Barings Global Balanced Fund, Barings Global Technology Equity Fund, Barings Europe Select Fund, Barings German Growth Fund, Barings Global Dividend Champions Fund, Barings China A-Share Fund, Barings Global Equity Allocation Fund and Barings Eastern Europe Fund have drawn down on this facility (30 April 2024: Barings ASEAN Frontiers Fund, Barings Asia Growth Fund, Barings Australia Fund, Barings Europa Fund, Barings Hong Kong China Fund, Barings Global Bond Fund, Barings Global Balanced Fund, Barings Global Technology Equity Fund, Barings Europe Select Fund, Barings German Growth Fund, Barings Global Dividend Champions Fund, Barings China A-Share Fund, Barings Global Equity Allocation Fund and Barings Eastern Europe Fund).

18. Material changes to the Prospectus

An updated Prospectus of the Unit Trust was issued on 31 October 2024. The following are the material changes made:

- Change of performance comparator for Barings German Growth Fund from HDAX (Total Return) Index to MSCI Germany IMI (Total Net Return) Index.
- Barings Global Bond Fund Fee Class I management fee reduction from 0.50% to 0.30%.

There are other immaterial changes to the Prospectus that are not listed above.

19. Significant events

The Directors, in consultation with the Investment Manager, and in the best interests of the of Unitholders as a whole, have resolved to terminate Barings Global Technology Equity Fund, Barings Global Dividend Champions Fund and Barings China A-Share Fund on 13 May 2024. The decision has been taken in consideration of, amongst other things, the Funds’ economic viability and ability to operate in a cost-efficient manner due to their small asset size. As a result, the financial statements for these Funds have been prepared on a non-going concern basis.

Barings International Umbrella Fund

Notes to the financial statements (continued)

For the financial year ended 30 April 2025

19. Significant events (continued)

The Prospectus of the Unit Trust was updated on 31 October 2024. The material changes to the Prospectus are outlined in note 17.

Barings German Growth Fund Class I EUR Acc and Class I EUR Inc were launched on 6 November 2024.

Barings Global Bond Fund Class F EUR Hedged Acc was launched on 14 January 2025.

Barings ASEAN Frontiers Fund Class A RMB Hedged Acc closed on 20 February 2025.

Barings German Growth Fund Class A EUR Acc was launched 15 April 2025.

There have been no other significant events to the financial year-end that, in the opinion of the Directors of the Manager, may have had an impact on the financial statements for the financial year ended 30 April 2025.

20. Subsequent events

In light of the Trump administration's confirmation of expanded reciprocal tariffs, with implementation commencing from 7 August 2025, the Investment Manager continues to monitor global trade developments and geopolitical risks closely. The imposition of differentiated tariff rates across a broad range of countries, alongside the prospect of further sector-specific measures, has sustained elevated levels of market uncertainty. Notwithstanding these developments, the Company has not experienced any material impact on portfolio performance or investor activity. The Investment Manager remains vigilant and continues to assess the evolving implications for portfolio positioning, risk management, and liquidity oversight.

There have been no other events subsequent to the financial year-end that, in the opinion of the Directors of the Manager, may have had a material impact on these financial statements for the financial year ended 30 April 2025.

21. Russia/Ukraine conflict

In response to the Russian invasion of Ukraine, the EU, the U.S., the UK and other governmental entities have passed a variety of severe economic sanctions and export controls against Russia, including imposition of sanctions against Russia's Central Bank, largest financial institutions and certain individuals. In addition, a number of businesses have curtailed or suspended activities in Russia or dealings with Russian counterparts for reputational reasons. While current sanctions may not target the Funds, the Unit Trust, the AIFM or the Portfolio Investments and their issuers and industries in which the issuers of the Portfolio Investments operate, these sanctions have had and may continue to have the effect of causing significant economic disruption and may adversely impact the global economy generally, and the Russian economy specifically by, among other things, creating instability in the energy sectors, reducing trade as a result of economic sanctions and increased volatility and uncertainty in financial markets, including Russia's financial sector. Additionally, any new or expanded sanctions that may be imposed by the U.S., EU, UK, or other countries may materially adversely affect the AIFM's operations, including the Funds and the Portfolio Investments.

22. Approval of financial statements

The financial statements were approved by the Board of Directors of the Manager on 21 August 2025.

Barings International Umbrella Fund

General information

For the financial year ended 30 April 2025

Market timing

Repeatedly purchasing and selling units in the Funds in response to short-term market fluctuations – known as ‘market timing’ – can disrupt Baring Asset Management Limited’s (the “Investment Manager”) investment strategy and increase the Funds’ expenses to the prejudice of all unitholders. The Funds are not intended for market timing or excessive trading. To deter these activities, the Directors of Baring International Fund Managers (Ireland) Limited (the “Manager”) may refuse to accept an application for units from persons that they reasonably believe are engaged in market timing or are otherwise excessive or potentially disruptive to the Funds.

The Directors of the Manager reserve the right to redeem units from a unitholder on the basis of the circumstances of the unitholder concerned, or if it has reasonable grounds to believe that the unitholder is engaging in any activity which might result in the Funds or their unitholders as a whole suffering any legal, regulatory, reputational or other material disadvantage which the Funds or their unitholders as a whole might not otherwise have suffered.

UK reporting fund status

UK taxable investors in UK reporting funds are subject to tax on their units of the UK reporting funds’ income attributable to their holdings in the Fund, whether or not distributed, while typically any gains on disposal of their holdings are subject to capital gains tax.

Details of the unit classes which currently have UK reporting fund status are available at the His Majesty’s Revenue and Customs (“HMRC”) Collective Investment Schemes Centre website:

<http://www.hmrc.gov.uk/cisc/offshore-funds.htm>.

As stated above UK tax payers should note that, for each unit class with reporting fund status, their share of any amounts of income, if any, that has not been distributed will be subject to tax.

Further details will be made available on the Barings website: www.baring.com.

Barings International Umbrella Fund

Appendix 1 – Information for investors in Switzerland (Unaudited)

For the financial year ended 30 April 2025

Baring International Fund Managers (Ireland) Limited (the “Manager”) has appointed BNP PARIBAS, Paris, Zurich Branch, Selnaustrasse 16, CH-8002, Zurich, Switzerland, as representative and paying agent for Switzerland. Units are distributed in Switzerland by BNP PARIBAS, Paris at the above address. Investors can obtain, free of charge, the Prospectus, the Key Information Document(s) (“KID(s)”), the last annual and interim reports, the Trusts Act 1990, as well as a list of the purchases and sales made on behalf of the Funds, from the representative at the above address. Official publications for the Funds are found on the internet at www.fundinfo.com. Unit prices (Net Asset Value with the words “plus commissions”) are published daily on the internet at www.fundinfo.com.

All the information appearing in these reports and accounts is solely with respect to those Funds of Barings International Umbrella Fund (the “Unit Trust”) which are licensed for public offer and marketing in or from Switzerland, namely: Barings ASEAN Frontiers Fund, Barings Asia Growth Fund, Barings Australia Fund, Barings Europa Fund, Barings Hong Kong China Fund, Barings Global Bond Fund, Barings Europe Select Fund, Barings German Growth Fund, Barings Global Dividend Champions Fund** and Barings Eastern Europe Fund.

Performance

Following a guideline from the Asset Management Association Switzerland (“AMAS”) dated 16 May 2008, the Directors of the Manager are supplying performance data in conformity with the said guideline. This data can be found below on pages 190 to 199. Furthermore, the Directors of the Manager are required to provide the below additional information on performance.

The following comparative indices are used as, in the Directors’ of the Manager opinion, and in the light of the investment policy of the relevant Fund, they are the most appropriate selection for comparison.

Barings ASEAN Frontiers Fund

MSCI (Morgan Stanley Capital International) All Country ASEAN (Total Net Return) Index.

Barings Asia Growth Fund

MSCI (Morgan Stanley Capital International) All Country Asia ex-Japan (Total Net Return) Index.

Barings Australia Fund

MSCI (Morgan Stanley Capital International) Australia (Total Net Return) Index.

Barings Europa Fund

MSCI (Morgan Stanley Capital International) Europe (Total Net Return) Index.

Barings Hong Kong China Fund

MSCI (Morgan Stanley Capital International) China 10/40 (Total Net Return) Index.

Barings Global Bond Fund

The FTSE World Government Bond Index (“WGBI”).

Barings Europe Select Fund

Barings International Umbrella Fund

Appendix 1 – Information for investors in Switzerland (Unaudited) (continued)

For the financial year ended 30 April 2025

Performance (continued)

MSCI (Morgan Stanley Capital International) Europe ex UK Small Cap (Total Net Return) Index.

Barings German Growth Fund

MSCI (Morgan Stanley Capital International) Germany IMI (Net Total Return) Index.*

Barings Global Dividend Champions Fund**

MSCI (Morgan Stanley Capital International) World (Total Net Return) Index.

Barings Eastern Europe Fund***

MSCI (Morgan Stanley Capital International) EM Europe 10/40 (Total Net Return) Index.

* The performance comparator of Barings German Growth Fund changed from HDAX index to MSCI Germany IMI (Total Net Return) Index on 31 October 2024.

** Barings Global Dividend Champions Fund terminated on 13 May 2024.

*** Barings Eastern Europe Fund merged from Barings Global Umbrella Fund in to the Unit Trust on 21 July 2023.

Investors should contact the Swiss representative at the above address should they require additional information, for example on performance including the comparison of the relevant indices where applicable.

Total Expense Ratio

Pursuant to a guideline from the AMAS dated 16 May 2008, the Funds are required to publish a total expense ratio ("TER") for the financial year ended 30 April 2025.

Barings International Umbrella Fund

Appendix 1 – Information for investors in Switzerland (Unaudited) (continued)

For the financial year ended 30 April 2025

Trailer fees and reimbursements

Trailer fees (Bestandespflegekommissionen) may only be paid to the sales agents/partners indicated below:

- authorised sales agents (distributors) within the meaning of Article 19, Para 1, Collective Investment Funds Act ("CISA");
- sales agents (distributors) exempted from the authorisation requirement within the meaning of Article 13, Para 4, CISA and Article 8 Collective Investment Schemes Ordinance ("CISO");
- sales partners who place Fund units exclusively with institutional investors with professional treasury facilities; and/or
- sales partners who place Fund units with their clients exclusively on the basis of a written commission-based asset management mandate.

Reimbursements (Rückvergütungen) may only be paid to the institutional investors detailed below who from a commercial perspective are holding the Fund units for third parties:

- life insurance companies (in respect of Fund units held for the account of insured persons or to cover obligations towards insured persons);
- pension funds and other retirement provision institutions (in respect of Fund units held for the account of beneficiaries);
- investment foundations (in respect of Fund units held for the account of in-house funds);
- Swiss fund management companies (in respect of Fund units held for the account of the funds managed);
- foreign fund management companies and providers (in respect of Fund units held for the account of managed funds and investing unitholders); and/or
- investment companies (in respect of the investment of the company assets).

Special risks resulting from tax publication requirements in Germany

Foreign investment companies (such as Baring International Fund Managers (Ireland) Limited (the “Manager”)) must provide documentation to the German fiscal authorities upon request, e.g. in order to verify the accuracy of the published tax information. The basis upon which such figures are calculated is open to interpretation and it cannot be guaranteed that the German fiscal authorities will accept the Manager’s calculation methodology in every material respect. In addition, if it transpires that these publications are incorrect, any subsequent correction will, as a general rule, not have retrospective effect and will, as a general rule, only take effect during the current year. Consequently, the correction may positively or negatively affect the investors who receive a distribution or an attribution of deemed income distributions in the current year.

Barings International Umbrella Fund

Appendix 5 – Disclosure of Remuneration (Unaudited)

For the financial year ended 30 April 2025

Baring International Fund Managers (Ireland) Limited's (the "Manager's") Remuneration Policy ensures the remuneration arrangements as defined in ESMA's "Guidelines on Sound Remuneration Policy under the UCITS directive and AIFMD" (ESMA 2016/411) (the 'ESMA Guidelines'), (as amended) are:

- (i) consistent with and promote sound and effective risk management and do not encourage risk-taking which is inconsistent with the risk profile, rules or instruments of incorporation of the Manager or the Unit Trust and
- (ii) consistent with the Manager's business strategy, objectives, values and interests and includes measures to avoid conflicts of interest.

The Manager complies with the UCITS remuneration principles in a way and to the extent that is appropriate to its size and business.

Remuneration committee

Due to the size and nature of the Manager, the Board of Directors considers it appropriate to dis-apply the requirement to appoint a remuneration committee.

The Manager is part of the Barings Europe Limited (UK) group of companies ("Barings") which is governed by the Remuneration Panel and the Barings LLC Human Resources Committee. The Remuneration Panel and the Barings LLC Human Resources Committee ensure the fair and proportionate application of the remuneration rules and ensure that potential conflicts arising from remuneration are managed and mitigated appropriately.

Remuneration Code Staff

The Manager has determined its Remuneration Code Staff as the following:

- a) Senior management
Senior Management comprises of Board of Directors.
- b) Control Functions
All Central Bank of Ireland ("CBI") Pre Approved Control Functions ("PCFs") are included within the definition of Remuneration Code Staff.
- c) Risk Takers
Risk Takers are defined as the investment managers of the UCITS. Investment management is delegated to firms' subject to an equivalent remuneration regime and therefore the Manager currently has no risk takers outside of senior management.
- d) Employees in the same remuneration bracket as risk takers
The Manager will not treat a person as Remuneration Code Staff if a person's professional activities do not have a material impact on the risk profiles of the firm or the Funds.
- e) Staff responsible for heading the investment management, administration, marketing and human resources
There are no staff in this category that are not captured in other categories.

Barings International Umbrella Fund

Appendix 5 – Disclosure of Remuneration (Unaudited) (continued)

For the financial year ended 30 April 2025

Remuneration Disclosure

The disclosure below details fixed and variable remuneration paid to the Manager's Remuneration Code Staff (for the financial year end 30 April 2025).

	Number of beneficiaries	Total Remuneration	Total Fixed Remuneration	Total Variable remuneration
Total remuneration paid by BIFMI in relation to the Funds*	9	€65,892	€44,629	€21,263
Total Senior Management Remuneration paid by BIFMI**	5	€826,773	€539,881	€286,892
Risk Takers remuneration	0	€0	€0	€0
Employees in the same remuneration bracket a risk takers	0	€0	€0	€0
Carried interest paid by the Funds	n/a	n/a	n/a	n/a

The Manager's Remuneration Policy is reviewed annually both in respect of the general principles and implementation. No material changes have been made throughout the year or as a result of the review; no irregularities were identified.

The above disclosures are made in line with Barings' interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops, Barings may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other Barings fund disclosures in that same year.

Notes:

*The Manager does not make any direct payments to staff, who are paid by other Barings Group entities. Figures shown are apportioned on a fund AUM basis as a proportion of Barings total AUM as at 30 April 2025. Accordingly, the figures are not representative of any individual's actual remuneration.

**Senior management remuneration is apportioned on the basis of the Manager's total AUM as a proportion of Barings total AUM.

Variable remuneration consists of Short Term Incentive awards, Long Term Incentive awards and any other variable payments including benefits in kind.

The Funds do not charge performance fees. There has been no award of carry interest in the period.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Barings Asean Frontiers Fund Legal entity identifier: 549300TGDLOY1UPFB33

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ____%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

- **To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The Fund promotes positive or improving resource intensity, environmental footprint, employee satisfaction and societal impacts of products/services. The Fund will achieve this by investing in at least 50% of its Net Asset Value in issuers which exhibit any of these characteristics.

The Investment Manager assesses the environmental ("E") characteristics of an issuer by reviewing an issuer's resource intensity and environmental footprint. The social ("S") characteristics are assessed by reviewing an issuer's employee satisfaction and societal impacts of its products/services.

As at 30 April 2025, the Fund met this objective as the percentage of its Net Asset Value in issuers which exhibit these characteristics was 69.69%.

- **How did the sustainability indicators perform?**

The sustainability indicator used to measure the attainment of the environmental and social characteristics promoted by the Fund was the percentage of the Fund's Net Asset Value invested in equities of issuers that exhibit positive or improving resource intensity, environmental footprint, employee satisfaction or societal impacts of its products/services. Issuers defined as having such characteristics must be assessed as having a higher than average quality score, and not exceed a maximum adjustment to its Barings cost of equity ("CoE") threshold.

As at 30 April 2025, the Fund's percentage of Net Asset Value invested in equities of issuers that exhibit such characteristics was 69.69%, which was 19.69% above the minimum threshold.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

- **And compared to previous periods?**

As at 30 April 2024, the Fund met its environmental and/or social characteristics as the percentage of its Net Asset Value in assets which exhibit positive and improving environmental and/or social characteristics was 74.11%.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Not applicable.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

- **How did this financial product consider principal adverse impacts on sustainability factors?**

During the reference period, the Investment Manager assessed the sustainability risk factors that are material to each investment. Subject to the availability of data and materiality, the principal adverse sustainability indicators that are deemed mandatory as they relate to ‘investments in companies’ (as per Annex 1, Table 1 of the Regulatory Technical Standards) along with the principal adverse impact of ‘Environmental Indicator 4. Investments in companies without carbon emission reduction initiatives’ and ‘Social Indicator 14. Number of identified cases of severe human rights issues and incidents’ on sustainability factors, were considered as part of the ESG assessment. The significance of indicators vary according to the business activities of the issuer being evaluated. The consideration of the relevant indicators was incorporated into the Investment Manager’s ESG assessment.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

* The listed top investments of the Fund are as at 30 April 2025. The Sector source is the MSCI GICS industry classification.

- What was the proportion of sustainability-related investments?
- What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

• In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to as at 30 April 2025.

Sector	% of Investments
Financials	46.45%
Communication	17.58%
Consumer Staples	8.75%
Industrials	8.56%
Health Care	4.09%
Consumer Discretionary	3.67%
Information Technology	3.10%
Utilities	2.88%
Energy	1.86%
Real Estate	1.61%
Materials	1.45%

The Sector source is the MSCI GICS industry classification.

• To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's investments are sustainable investments with an environmental objective that align with the EU Taxonomy.

• Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes:

☐

In fossil gas

☐

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

- **What was the share of investments made in transitional and enabling activities?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reference period.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of socially sustainable investments?**

Not applicable.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments included under "Other" comprise of issuers which do not exhibit positive or improving E and / or S characteristics but are included in the Fund where the Investment Manager, after conducting proprietary fundamental analysis and taking into account portfolio construction considerations, identified mispriced investment opportunities on a longer term basis, centred on the Investment Manager's understanding of the issuer's strategy and the potential to improve returns and grow earnings. The Investment Manager did not invest in issuers which have a quality score of 5 – the worst level on the Investment Manager's scale of 1 to 5 – and an ESG-related modification to the discount rate of +2% and considered its holdings in issuers whose quality score and ESG-related modification to the discount rate has deteriorated to these levels.

Additionally, the investments included under "Other" were cash, cash equivalents and hedging instruments. Cash and cash equivalents do not affect the promoted environmental and / or social characteristics of the Fund. The assessment of issuers and of counterparties for cash and hedging instruments focuses on the creditworthiness of these parties, which can be impacted by ESG risks.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager monitored the environmental and/or social characteristics of the Fund's portfolio during the reference period. The Investment Manager's investment decisions were based on internal research, which encompass both its proprietary financial forecasts and ESG assessment. The Investment Manager aimed to meet with all issuers in which it sought to invest at least annually and discuss a range of topics including ESG issues with management. The Investment Manager, through access to third party ESG research providers (where coverage allowed) such as MSCI, Sustainalytics and Bloomberg ESG, also sought to understand market consensus on the ESG profile of each issuer. Pre- and post-trade checks were carried out on a daily basis to ensure the Fund continued to meet the minimum threshold of 50%. Where the Fund fell below this threshold, due to market movements or because the issuers it held no longer met the criteria of a "green" investment, then the passive breach was corrected at the earliest opportunity. The Investment Manager believes that equity markets contain unrecognised growth potential and sought to identify this through the analysis of an issuer's business model whilst incorporating wider ESG trends often referred to as fundamental analysis. ESG trends may evolve over time and may include environmental footprint, societal impact of products/services and effectiveness of supervisory/management boards. The Investment Manager adopted an active management policy in relation to ESG topics and also focused on engagement to improve issuer disclosure or behaviour. Engagements were undertaken to improve practice on an ESG factor, make progress on sustainability outcomes, or improve public disclosure. Through engagement, the Investment Manager aimed to enhance the performance of its investments, for the benefit of investors in line with its stewardship responsibility.

- How did this financial product perform compared to the reference benchmark?

Not applicable.

- How does the reference benchmark differ from a broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Barings International Umbrella Fund

Product name: Barings Asia Growth Fund Legal entity identifier: 549300J3CRJZ40LI0960

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ____%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

- **To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The Fund promotes positive or improving resource intensity, environmental footprint, employee satisfaction and societal impacts of products/services. The Fund will achieve this by investing in at least 50% of its Net Asset Value in issuers which exhibit any of these characteristics.

The Investment Manager assesses the environmental ("E") characteristics of an issuer by reviewing an issuer's resource intensity and environmental footprint. The social ("S") characteristics are assessed by reviewing an issuer's employee satisfaction and societal impacts of its products/services.

As at 30 April 2025, the Fund met this objective as the percentage of its Net Asset Value in issuers which exhibit these characteristics was 81.86%.

- **How did the sustainability indicators perform?**

The sustainability indicator used to measure the attainment of the environmental and social characteristics promoted by the Fund was the percentage of the Fund's Net Asset Value invested in equities of issuers that exhibit positive or improving resource intensity, environmental footprint, employee satisfaction or societal impacts of its products/services. Issuers defined as having such characteristics must be assessed as having a higher than average quality score, and not exceed a maximum adjustment to its Barings cost of equity ("CoE") threshold.

As at 30 April 2025, the Fund's percentage of Net Asset Value invested in equities of issuers that exhibit such characteristics was 81.86%, which was 31.86% above the minimum threshold.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

- **And compared to previous periods?**

As at 30 April 2024, the Fund met its environmental and/or social characteristics as the percentage of its Net Asset Value in assets which exhibit positive and improving environmental and/or social characteristics was 83.09%.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Not applicable.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

- **How did this financial product consider principal adverse impacts on sustainability factors?**

During the reference period, the Investment Manager assessed the sustainability risk factors that are material to each investment. Subject to the availability of data and materiality, the principal adverse sustainability indicators that are deemed mandatory as they relate to ‘investments in companies’ (as per Annex 1, Table 1 of the Regulatory Technical Standards) along with the principal adverse impact of ‘Environmental Indicator 4. Investments in companies without carbon emission reduction initiatives’ and ‘Social Indicator 14. Number of identified cases of severe human rights issues and incidents’ on sustainability factors, were considered as part of the ESG assessment. The significance of indicators vary according to the business activities of the issuer being evaluated. The consideration of the relevant indicators was incorporated into the Investment Manager’s ESG assessment.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Materials	1.07%
Utilities	0.87%

The Sector source is the MSCI GICS industry classification.

• To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's investments are sustainable investments with an environmental objective that align with the EU Taxonomy.

• Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes:

☐

In fossil gas

☐

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

- **What was the share of investments made in transitional and enabling activities?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reference period.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

Not applicable.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments included under "Other" comprise of issuers which do not exhibit positive or improving E and / or S characteristics but are included in the Fund where the Investment Manager, after conducting proprietary fundamental analysis and taking into account portfolio construction considerations, identified mispriced investment opportunities on a longer term basis, centred on the Investment Manager's understanding of the issuer's strategy and the potential to improve returns and grow earnings. The Investment Manager did not invest in issuers which have a quality score of 5 – the worst level on the Investment Manager's scale of 1 to 5 – and an ESG-related modification to the discount rate of +2% and considered its holdings in issuers whose quality score and ESG-related modification to the discount rate has deteriorated to these levels.

Additionally, the investments included under "Other" were cash, cash equivalents and hedging instruments. Cash and cash equivalents do not affect the promoted environmental and / or social characteristics of the Fund. The assessment of issuers and of counterparties for cash and hedging instruments focusses on the creditworthiness of these parties, which can be impacted by ESG risks.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager monitored the environmental and/or social characteristics of the Fund's portfolio during the reference period. The Investment Manager's investment decisions were based on internal research, which encompass both its proprietary financial forecasts and ESG assessment. The Investment Manager aimed to meet with all issuers in which it sought to invest at least annually and discuss a range of topics including ESG issues with management. The Investment Manager, through access to third party ESG research providers (where coverage allowed) such as MSCI, Sustainalytics and Bloomberg ESG, also sought to understand market consensus on the ESG profile of each issuer. Pre- and post-trade checks were carried out on a daily basis to ensure the Fund continued to meet the minimum threshold of 50%. Where the Fund fell below this threshold, due to market movements or because the issuers it held no longer met the criteria of a “green” investment, then the passive breach was corrected at the earliest opportunity. The Investment Manager believes that equity markets contain unrecognised growth potential and sought to identify this through the analysis of an issuer's business model whilst incorporating wider ESG trends often referred to as fundamental analysis. ESG trends may evolve over time and may include environmental footprint, societal impact of products/services and effectiveness of supervisory/management boards. The Investment Manager adopted an active management policy in relation to ESG topics and also focused on engagement to improve issuer disclosure or behaviour. Engagements were undertaken to improve practice on an ESG factor, make progress on sustainability outcomes, or improve public disclosure. Through engagement, the Investment Manager aimed to enhance the performance of its investments, for the benefit of investors in line with its stewardship responsibility.

• How did this financial product perform compared to the reference benchmark?

Not applicable.

• How does the reference benchmark differ from a broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ____% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective : ____%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

- **To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The Fund promotes positive or improving resource intensity, environmental footprint, employee satisfaction and societal impacts of products/services. The Fund will achieve this by investing in at least 50% of its Net Asset Value in issuers which exhibit any of these characteristics.

The Investment Manager assesses the environmental ("E") characteristics of an issuer by reviewing an issuer's resource intensity and environmental footprint. The social ("S") characteristics are assessed by reviewing an issuer's employee satisfaction and societal impacts of its products/services.

As at 30 April 2025, the Fund met this objective as the percentage of its Net Asset Value in issuers which exhibit these characteristics was 92.56%.

- **How did the sustainability indicators perform?**

The sustainability indicator used to measure the attainment of the environmental and social characteristics promoted by the Fund was the percentage of the Fund's Net Asset Value invested in equities of issuers that exhibit positive or improving resource intensity, environmental footprint, employee satisfaction or societal impacts of its products/services. Issuers defined as having such characteristics must be assessed as having a higher than average quality score, and not exceed a maximum adjustment to its Barings cost of equity ("CoE") threshold.

As at 30 April 2025, the Fund's percentage of Net Asset Value invested in equities of issuers that exhibit such characteristics was 92.56%, which was 42.56% above the minimum threshold.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

- **And compared to previous periods?**

As at 30 April 2024, the Fund met its environmental and/or social characteristics as the percentage of its Net Asset Value in assets which exhibit positive and improving environmental and/or social characteristics was 89.17%.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Not applicable.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

- **How did this financial product consider principal adverse impacts on sustainability factors?**

During the reference period, the Investment Manager assessed the sustainability risk factors that are material to each investment. Subject to the availability of data and materiality, the principal adverse sustainability indicators that are deemed mandatory as they relate to ‘investments in companies’ (as per Annex 1, Table 1 of the Regulatory Technical Standards) along with the principal adverse impact of ‘Environmental Indicator 4. Investments in companies without carbon emission reduction initiatives’ and ‘Social Indicator 14. Number of identified cases of severe human rights issues and incidents’ on sustainability factors, were considered as part of the ESG assessment. The significance of indicators vary according to the business activities of the issuer being evaluated. The consideration of the relevant indicators was incorporated into the Investment Manager’s ESG assessment.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ____%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

- **To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The Fund promotes positive or improving resource intensity, environmental footprint, employee satisfaction and societal impacts of products/services. The Fund will achieve this by investing in at least 50% of its Net Asset Value in issuers which exhibit any of these characteristics.

The Investment Manager assesses the environmental (“E”) characteristics of an issuer by reviewing an issuer’s resource intensity and environmental footprint. The social (“S”) characteristics are assessed by reviewing an issuer’s employee satisfaction and societal impacts of its products/services.

As at 30 April 2025, the Fund met this objective as the percentage of its Net Asset Value in issuers which exhibit these characteristics was 92.45%.

- **How did the sustainability indicators perform?**

The sustainability indicator used to measure the attainment of the environmental and social characteristics promoted by the Fund was the percentage of the Fund’s Net Asset Value invested in equities of issuers that exhibit positive or improving resource intensity, environmental footprint, employee satisfaction or societal impacts of its products/services. Issuers defined as having such characteristics must be assessed as having a higher than average quality score, and not exceed a maximum adjustment to its Barings cost of equity (“CoE”) threshold.

As at 30 April 2025, the Fund’s percentage of Net Asset Value invested in equities of issuers that exhibit such characteristics was 92.45%, which was 42.45% above the minimum threshold.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- **And compared to previous periods?**

As at 30 April 2024, the Fund met its environmental and/or social characteristics as the percentage of its Net Asset Value in assets which exhibit positive and improving environmental and/or social characteristics was 93.53%.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Not applicable.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

- **How did this financial product consider principal adverse impacts on sustainability factors?**

During the reference period, the Investment Manager assessed the sustainability risk factors that are material to each investment. Subject to the availability of data and materiality, the principal adverse sustainability indicators that are deemed mandatory as they relate to ‘investments in companies’ (as per Annex 1, Table 1 of the Regulatory Technical Standards) along with the principal adverse impact of ‘Environmental Indicator 4. Investments in companies without carbon emission reduction initiatives’ and ‘Social Indicator 14. Number of identified cases of severe human rights issues and incidents’ on sustainability factors, were considered as part of the ESG assessment. The significance of indicators vary according to the business activities of the issuer being evaluated. The consideration of the relevant indicators was incorporated into the Investment Manager’s ESG assessment.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

• In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to as at 30 April 2025.

Sector	% of Investments
Industrials	18.98%
Health Care	17.75%
Financials	15.17%
Consumer Staples	14.45%
Information Technology	9.36%
Consumer Discretionary	9.15%
Materials	6.41%
Energy	6.13%
Utilities	2.60%

The Sector source is the MSCI GICS industry classification.

• To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's investments are sustainable investments with an environmental objective that align with the EU Taxonomy.

• Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes:

☐

In fossil gas

☐

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

- **What was the share of investments made in transitional and enabling activities?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reference period.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

Not applicable.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments included under "Other" comprise of issuers which do not exhibit positive or improving E and / or S characteristics but are included in the Fund where the Investment Manager, after conducting proprietary fundamental analysis and taking into account portfolio construction considerations, identified mispriced investment opportunities on a longer term basis, centred on the Investment Manager's understanding of the issuer's strategy and the potential to improve returns and grow earnings. The Investment Manager did not invest in issuers which have a quality score of 5 – the worst level on the Investment Manager's scale of 1 to 5 – and an ESG-related modification to the discount rate of +2% and considered its holdings in issuers whose quality score and ESG-related modification to the discount rate has deteriorated to these levels.

Additionally, the investments included under "Other" were cash, cash equivalents and hedging instruments. Cash and cash equivalents do not affect the promoted environmental and / or social characteristics of the Fund. The assessment of issuers and of counterparties for cash and hedging instruments focusses on the creditworthiness of these parties, which can be impacted by ESG risks.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager monitored the environmental and/or social characteristics of the Fund's portfolio during the reference period. The Investment Manager's investment decisions were based on internal research, which encompass both its proprietary financial forecasts and ESG assessment. The Investment Manager aimed to meet with all issuers in which it sought to invest at least annually and discuss a range of topics including ESG issues with management. The Investment Manager, through access to third party ESG research providers (where coverage allowed) such as MSCI, Sustainalytics and Bloomberg ESG, also sought to understand market consensus on the ESG profile of each issuer. Pre- and post-trade checks were carried out on a daily basis to ensure the Fund continued to meet the minimum threshold of 50%. Where the Fund fell below this threshold, due to market movements or because the issuers it held no longer met the criteria of a “green” investment, then the passive breach was corrected at the earliest opportunity. The Investment Manager believes that equity markets contain unrecognised growth potential and sought to identify this through the analysis of an issuer's business model whilst incorporating wider ESG trends often referred to as fundamental analysis. ESG trends may evolve over time and may include environmental footprint, societal impact of products/services and effectiveness of supervisory/management boards. The Investment Manager adopted an active management policy in relation to ESG topics and also focused on engagement to improve issuer disclosure or behaviour. Engagements were undertaken to improve practice on an ESG factor, make progress on sustainability outcomes, or improve public disclosure. Through engagement, the Investment Manager aimed to enhance the performance of its investments, for the benefit of investors in line with its stewardship responsibility.

• How did this financial product perform compared to the reference benchmark?

Not applicable.

• How does the reference benchmark differ from a broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Barings Hong Kong China Fund Legal entity identifier: 549300BT29YFG8CKKD32

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ____%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

- To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promotes positive or improving resource intensity, environmental footprint, employee satisfaction and societal impacts of products/services. The Fund will achieve this by investing in at least 50% of its Net Asset Value in issuers which exhibit any of these characteristics.

The Investment Manager assesses the environmental ("E") characteristics of an issuer by reviewing an issuer's resource intensity and environmental footprint. The social ("S") characteristics are assessed by reviewing an issuer's employee satisfaction and societal impacts of its products/services.

As at 30 April 2025, the Fund met this objective as the percentage of its Net Asset Value in issuers which exhibit these characteristics was 70.77%.

- How did the sustainability indicators perform?

The sustainability indicator used to measure the attainment of the environmental and social characteristics promoted by the Fund was the percentage of the Fund's Net Asset Value invested in equities of issuers that exhibit positive or improving resource intensity, environmental footprint, employee satisfaction or societal impacts of its products/services. Issuers defined as having such characteristics must be assessed as having a higher than average quality score, and not exceed a maximum adjustment to its Barings cost of equity ("CoE") threshold.

As at 30 April 2025, the Fund's percentage of Net Asset Value invested in equities of issuers that exhibit such characteristics was 70.77%, which was 20.77% above the minimum threshold.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

- **And compared to previous periods?**

As at 30 April 2024, the Fund met its environmental and/or social characteristics as the percentage of its Net Asset Value in assets which exhibit positive and improving environmental and/or social characteristics was 66.72%.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Not applicable.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

- **How did this financial product consider principal adverse impacts on sustainability factors?**

During the reference period, the Investment Manager assessed the sustainability risk factors that are material to each investment. Subject to the availability of data and materiality, the principal adverse sustainability indicators that are deemed mandatory as they relate to ‘investments in companies’ (as per Annex 1, Table 1 of the Regulatory Technical Standards) along with the principal adverse impact of ‘Environmental Indicator 4. Investments in companies without carbon emission reduction initiatives’ and ‘Social Indicator 14. Number of identified cases of severe human rights issues and incidents’ on sustainability factors, were considered as part of the ESG assessment. The significance of indicators vary according to the business activities of the issuer being evaluated. The consideration of the relevant indicators was incorporated into the Investment Manager’s ESG assessment.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

<input type="checkbox"/> It made sustainable investments with a social objective : ____%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

- To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund will invest at least 50% of its Net Asset Value in issuers which exhibit positive or improving environmental and/or social characteristics.

The Investment Manager derives a score for the environmental ("E") characteristics by reviewing an issuer's resource intensity and environmental footprint. The scores for the social ("S") characteristics are derived by reviewing an issuer's employee satisfaction and societal impacts of its products/services.

The Fund will also invest at least 75% of the its Net Asset Value in countries that exhibit strong or improving human development conditions, as measured by the United Nations Human Development Index ("HDI") and calculated as an average of the five year period as of two years prior to the investment period.

As at 30 April 2025, the Fund met it's environmental and/or social characteristics as the percentage of its Net Asset Value in issuers which exhibit positive or improving environmental and/or social characteristics was 95.68% and the Net Asset Value in countries that exhibit strong or improving human development conditions was 100.60%.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

- **How did the sustainability indicators perform?**

The sustainability indicators used to measure the attainment of the environmental and social characteristics promoted by the Fund were:

1. The percentage of the Fund's Net Asset Value invested in assets that exhibit positive or improving ESG characteristics; and
2. The percentage of the Fund's Net Asset Value in countries that exhibit strong or improving human development conditions, as measured by the United Nations HDI and calculated as an average of the five-year period as of two years prior to the investment period.

As at 30 April 2025, the Fund's percentage of its Net Asset Value invested in assets that exhibit positive and improving ESG characteristics was 83.35%, which was 33.35% above the minimum threshold.

As at 30 April 2025, the Fund's Net Asset Value in countries that exhibit strong or improving human development conditions was 100.60%, which was 25.60% above the minimum threshold.

- **And compared to previous periods?**

1. As at 30 April 2024, the Fund met its environmental and/or social characteristics as the percentage of its Net Asset Value in assets which exhibit positive and improving environmental and/or social characteristics was 83.35%.
2. As at 30 April 2024, the Fund's Net Asset Value in countries that exhibit strong or improving human development conditions was 99.56%, which was 24.56% above the minimum threshold.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

• How did this financial product consider principal adverse impacts on sustainability factors?

During the reference period, the Investment Manager assessed the sustainability risk factors that are material to the overall credit risk of each investment. Subject to the availability of data and materiality, the principal adverse sustainability indicators that are deemed mandatory as they relate to ‘investments in companies’ (as per Annex 1, Table 1 of the Regulatory Technical Standards) along with the principal adverse impact of ‘Environmental Indicator 4. Investments in companies without carbon emission reduction initiatives’ and ‘Social Indicator 14. Number of identified cases of severe human rights issues and incidents’ on sustainability factors, were considered as part of the re-investment due diligence. The significance of indicators vary according to the business activities of the issuer being evaluated. The consideration of the relevant indicators was incorporated into the Investment Manager’s investment committee recommendations and ESG scores.

- What was the proportion of sustainability-related investments?
- What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to as at 30 April 2024.

Sector	% of Investments
Government	100.00%

The Sector source is the MSCI GICS industry classification.

- To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's investments are sustainable investments with an environmental objective that align with the EU Taxonomy.

- Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes:

☐

In fossil gas

☐

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

- **What was the share of investments made in transitional and enabling activities?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reference period.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments included under "Other" comprised of issuers which have been approved by the Investment Manager, but which either had a weak ESG starting position with potential for improved ESG performance, or which had low ESG scores, but their valuations indicated that the investment offers a strong risk / reward profile for the Fund.

Additionally, the investments included under "Other" were cash, cash equivalents and derivative instruments which were used for liquidity management and hedging where internal ESG score cannot be determined.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager monitored the environmental and/or social characteristics of the Fund's portfolio during the reference period. The Investment Manager's investment decisions were based on internal research, which encompass both its proprietary financial forecasts and ESG assessment. The Investment Manager aimed to visit countries to take stock of important aspects of ESG and macroeconomic factors. Countries that exhibit positive or improving ESG characteristics were selected through the Investment Manager's proprietary research, the Investment Manager also had access to third-party resources such as Bloomberg ESG, MSCI ESG and Sustainalytics, which provide institutional investors with issuer-specific ESG data; the approach consisted of a threefold analysis determining a government's capacity and willingness to provide for its population, its resilience to shocks and its ability to grow sustainably, using both a standard set of indicators and qualitative analysis.

For each asset, the Investment Manager examined the scores of the indicators to determine a country's sustainability over time and considered relevant shocks that may have impacted the scoring. These indicators, as well as the Investment Manager's specialised country expertise, were placed into the capacity and willingness framework to determine the country's current sustainability as well as potential trends that should be considered from an ESG perspective. The frequency of update for each country depends on its significance in the portfolio and the benchmark, but ESG scores were reviewed for all countries under coverage at least twice during the period by the Sovereign ESG Committee which comprises all sovereign analysts on the Investment Manager's team.

The Investment Manager adopted an active management policy in relation to ESG topics and had a preference to focus on engagement to improve issuer behaviour. Engagements were undertaken to improve practice on an ESG factor, make progress on sustainability outcomes, or improve public disclosure. Through engagement, the Investment Manager aimed to enhance the performance of its investments, for the benefit of investors in line with its stewardship responsibility.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared to the reference benchmark?**

Not applicable.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Barings Europe Select Fund Legal entity identifier: 54930048KKPKHT5CD363

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ____%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

- **To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The Fund promotes positive or improving resource intensity, environmental footprint, employee satisfaction and societal impacts of products/services. The Fund will achieve this by investing in at least 50% of its Net Asset Value in issuers which exhibit any of these characteristics.

The Investment Manager assesses the environmental ("E") characteristics of an issuer by reviewing an issuer's resource intensity and environmental footprint. The social ("S") characteristics are assessed by reviewing an issuer's employee satisfaction and societal impacts of its products/services.

As at 30 April 2025, the Fund met this objective as the percentage of its Net Asset Value in issuers which exhibit these characteristics was 74.79%.

- **How did the sustainability indicators perform?**

The sustainability indicator used to measure the attainment of the environmental and social characteristics promoted by the Fund was the percentage of the Fund's Net Asset Value invested in equities of issuers that exhibit positive or improving resource intensity, environmental footprint, employee satisfaction or societal impacts of its products/services. Issuers defined as having such characteristics must be assessed as having a higher than average quality score, and not exceed a maximum adjustment to its Barings cost of equity ("CoE") threshold.

As at 30 April 2025, the Fund's percentage of Net Asset Value invested in equities of issuers that exhibit such characteristics was 74.79%, which was 24.79% above the minimum threshold.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

- **And compared to previous periods?**

As at 30 April 2024, the Fund met its environmental and/or social characteristics as the percentage of its Net Asset Value in assets which exhibit positive and improving environmental and/or social characteristics was 70.96%.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Not applicable.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

- **How did this financial product consider principal adverse impacts on sustainability factors?**

During the reference period, the Investment Manager assessed the sustainability risk factors that are material to each investment. Subject to the availability of data and materiality, the principal adverse sustainability indicators that are deemed mandatory as they relate to ‘investments in companies’ (as per Annex 1, Table 1 of the Regulatory Technical Standards) along with the principal adverse impact of ‘Environmental Indicator 4. Investments in companies without carbon emission reduction initiatives’ and ‘Social Indicator 14. Number of identified cases of severe human rights issues and incidents’ on sustainability factors, were considered as part of the ESG assessment. The significance of indicators vary according to the business activities of the issuer being evaluated. The consideration of the relevant indicators was incorporated into the Investment Manager’s ESG assessment.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is as at 30 April 2025.

• What were the top investments of this financial product?*

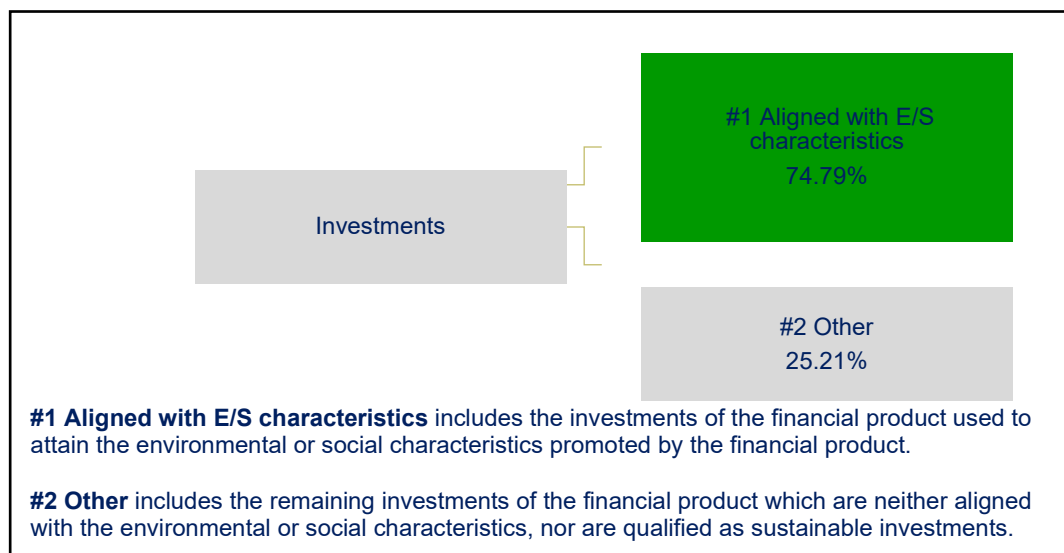

Largest investments	Sector	% Assets	Country
Lottomatica Group SpA	Consumer Discretionary	2.32%	Italy
Hera	Utilities	2.30%	Italy
Euronext	Financials	2.21%	France
ASR Nederland	Financials	2.17%	Netherlands
Dufry	Consumer Discretionary	1.97%	Switzerland

Valmet	Industrials	1.55%	Finland
Royal Unibrew A/S	Consumer Staples	1.54%	Denmark

* The listed top investments of the Fund are as at 30 April 2025. The Sector source is the MSCI GICS industry classification.

Asset allocation describes the share of investments in specific assets.

- What was the proportion of sustainability-related investments?
- What was the asset allocation?

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

• In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to as at 30 April 2025.

Sector	% of Investments
Industrials	25.87%
Financials	21.40%
Consumer Discretionary	13.14%
Health Care	8.05%
Materials	7.11%
Information Technology	6.79%
Consumer Staples	6.34%
Communication	4.43%
Energy	3.09%
Utilities	2.36%
Real Estate	1.42%

The Sector source is the MSCI GICS industry classification.

• To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's investments are sustainable investments with an environmental objective that align with the EU Taxonomy.

• Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes:

☐

In fossil gas

☐

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- **What was the share of investments made in transitional and enabling activities?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reference period.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

- **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of socially sustainable investments?**

Not applicable.

Barings International Umbrella Fund

Appendix 6 – Sustainability Related Disclosures (Unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments included under "Other" comprise of issuers which do not exhibit positive or improving E and / or S characteristics but are included in the Fund where the Investment Manager, after conducting proprietary fundamental analysis and taking into account portfolio construction considerations, identified mispriced investment opportunities on a longer term basis, centred on the Investment Manager's understanding of the issuer's strategy and the potential to improve returns and grow earnings. The Investment Manager did not invest in issuers which have a quality score of 5 – the worst level on the Investment Manager's scale of 1 to 5 – and an ESG-related modification to the discount rate of +2% and considered its holdings in issuers whose quality score and ESG-related modification to the discount rate has deteriorated to these levels.

Additionally, the investments included under "Other" were cash, cash equivalents and hedging instruments. Cash and cash equivalents do not affect the promoted environmental and / or social characteristics of the Fund. The assessment of issuers and of counterparties for cash and hedging instruments focusses on the creditworthiness of these parties, which can be impacted by ESG risks.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager monitored the environmental and/or social characteristics of the Fund's portfolio during the reference period. The Investment Manager's investment decisions were based on internal research, which encompass both its proprietary financial forecasts and ESG assessment. The Investment Manager aimed to meet with all issuers in which it sought to invest at least annually and discuss a range of topics including ESG issues with management. The Investment Manager, through access to third party ESG research providers (where coverage allowed) such as MSCI, Sustainalytics and Bloomberg ESG, also sought to understand market consensus on the ESG profile of each issuer. Pre- and post-trade checks were carried out on a daily basis to ensure the Fund continued to meet the minimum threshold of 50%. Where the Fund fell below this threshold, due to market movements or because the issuers it held no longer met the criteria of a “green” investment, then the passive breach was corrected at the earliest opportunity. The Investment Manager believes that equity markets contain unrecognised growth potential and sought to identify this through the analysis of an issuer's business model whilst incorporating wider ESG trends often referred to as fundamental analysis. ESG trends may evolve over time and may include environmental footprint, societal impact of products/services and effectiveness of supervisory/management boards. The Investment Manager adopted an active management policy in relation to ESG topics and also focused on engagement to improve issuer disclosure or behaviour. Engagements were undertaken to improve practice on an ESG factor, make progress on sustainability outcomes, or improve public disclosure. Through engagement, the Investment Manager aimed to enhance the performance of its investments, for the benefit of investors in line with its stewardship responsibility.

• How did this financial product perform compared to the reference benchmark?

Not applicable.

• How does the reference benchmark differ from a broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable.

- *How did this financial product perform compared with the broad market index?*

Not applicable.

Barings International Umbrella Fund

Appendix 7 – Periodic Disclosure of Promoted Environmental and Social Characteristics (Unaudited)

For the financial year ended 30 April 2025

The Investment Manager integrates ESG (“Environmental, Social and Governance”) information into the investment process across all asset classes. Through bottom-up, fundamental analysis, the Investment Manager seeks to gain a comprehensive understanding of the factors that influence the sustainability of investments. The Investment Manager considers ESG information alongside other crucial variables that may impact an investment’s risks and returns over time. In particular, the Investment Manager considers ESG criteria in relation to specific industry and sector trends and characteristics to identify the risks of an investment. Once invested, the Investment Manager continues to monitor each investment to ensure their thesis, including that on ESG matters, remains intact and that an investment’s risk and return profile remains attractive relative to other opportunities available in the market. Sustainability risks that the Investment Manager may consider are environmental, social or governance events or conditions that, if they occur, could cause an actual or a potential material negative impact on the value of the investment, examples of which include physical environmental risks, transition risk (e.g. investee company assets losing their financial value because of tightening of environmental legislation) or liability risk (e.g. risk of liability due to a breach of human/employee rights considering the jurisdiction of the investee company).

All Funds integrate ESG into their investment process but the following Funds will also promote ESG by investing or seeking to positively influence business practices to improve ESG characteristics and are therefore categorised under Article 8 of the Sustainable Finance Disclosure Regulations (“SFDR”):

- Barings ASEAN Frontier Fund;
- Barings Asia Growth Fund;
- Barings Australia Fund;
- Barings Europa Fund;
- Barings Global Bond Fund;
- Barings Hong Kong China Fund;
- Barings Global Technology Equity Fund*;
- Barings Global Dividend Champions Fund*;
- Barings Europe Select Fund;

* Barings Global Technology Equity Fund and Barings Global Dividend Champions Fund terminated on 13 May 2024.

Please refer to the Prospectus and Appendix 6 for further details on ESG integration.

The investments underlying the remaining Funds of this Unit Trust which are under Article 6 of the SFDR, do not take into account the EU criteria for environmentally sustainable economic activities.
