JANUARY 2026 / FACTSHEET

KEY RISK

During exceptional market conditions there may be insufficient buyers and sellers to allow the Fund to buy and sell investments, which could affect the Fund's ability to meet investors' redemption requests. Losses may occur if an organisation through which we buy an asset fails to meet its obligations. Custody of assets involves a risk of loss if a custodian becomes insolvent or breaches duties of care. Fund investments in derivatives are sensitive to changes in the value of the underlying asset on which they are based and their use may result in losses greater than the amount originally invested. Fund investments in overseas assets may lose value due to movements in foreign exchange rates. Fund investments in equities may be subject to significant fluctuations in value. The Fund can hold smaller company shares which can be more difficult to buy and sell and more volatile than those of larger companies. Fund investments in emerging markets may be subject to more risk due to economic, political or structural challenges. Further information on the Fund's risks can be found in the offering (constitutional) documents.

OBJECTIVE

The investment objective of the Barings Global Resources Fund is to achieve long-term capital appreciation through investment in a diversified portfolio of the securities of Commodity Producers, being companies engaged in the extraction, production, processing and/or trading of commodities eg, oil, gold, aluminum, coffee and sugar.

STRATEGY & MARKETING OPPORTUNITY

The Fund invests in a diversified portfolio of companies operating in the areas of Commodity Resources, Consumer Resources and Next Generation Resources with the aim of achieving superior risk-adjusted returns.

- Commodity Resources companies are cyclical commodity suppliers who achieve Growth typically through an inflection point in the commodity cycle and/or corporate self-help measures.
- Consumer Resources companies use a commodity input to produce a product that is sold to a customer - these companies are typically stable performers that offer compounding growth rates.
- Next Generation Resources companies benefit from emerging and potentially disruptive growth trends driven by changing customer needs.

PAST PERFORMANCE DOES NOT PREDICT FUTURE RETURNS. An investment entails a risk of loss. Returns for periods greater than one year are annualized. If you are investing in a different currency to the base currency of the fund, your returns may increase or decrease as a result of currency fluctuations. The Benchmark is used for risk management and performance comparison purposes. The investment manager has complete discretion in making investments and is not constrained by the Benchmark.

NO OFFER:

The document is for informational purposes only and is not an offer or solicitation for the purchase or sale of any financial instrument or service in any jurisdiction. The material herein was prepared without any consideration of the investment objectives, financial situation or particular needs of anyone who may receive it. This document is not, and must not be treated as, investment advice, an investment recommendation, investment research, or a recommendation about the suitability or appropriateness of any security, commodity, investment, or particular investment strategy, and must not be construed as a projection or prediction.

In making an investment decision, prospective investors must rely on their own examination of the merits and risks involved and before making any investment decision, it is recommended that prospective investors seek independent investment, legal, tax, accounting or other professional advice as appropriate.

Unless otherwise mentioned, the views contained in this document are those of Barings. These views are made in good faith in relation to the facts known at the time of preparation and are subject to change without notice. Individual portfolio management teams may hold different views than the views expressed herein and may make different investment decisions for different clients. Parts of this document may be based on information received from sources we believe to be reliable. Although every effort is taken to ensure that the information contained in this document is accurate, Barings makes no representation or warranty, express or implied, regarding the accuracy, completeness or adequacy of the information.

Target and projected returns are derived from Barings' proprietary model, which contain a number of assumptions and judgements about (including future projections of one month term SOFR rates as projected by forward curves at time of preparation, prepayment of a certain percentage of the overall model portfolio, and market interest rate for the loans that comprise the model portfolio, among others) that Barings believes are reasonable under the circumstances. Generally, our assumptions include construction projects proceeding according to plan, no modeled losses, and no adverse macroeconomic events, among others. However, there can be no assurance that such assumptions will prove to be accurate, and the actual realized returns will depend on, among other factors, future operating results, interest rates, economic and market conditions, and the value of the underlying assets at the time of disposition, any related transaction costs and the timing and manner of disposition, all of which may differ from the assumptions on which targets and projections are based and therefore, the actual results achieved may vary significantly from the targets and projections, and the variations may be material. We would be happy to provide you with the risks related to hypothetical performance information at your request.
