

Barings USD Liquidity Fund

This is a marketing communication

OBJECTIVE AND INVESTMENT POLICY

Objective: To maintain the principal of the Fund and to provide a return in line with money market rates.

Investment Policy: The Fund will invest in money market instruments which have a residual maturity of up to and including 397 days. The Fund will maintain a weighted average maturity of 60 days or less and a weighted average life of 120 days or less. The calculation of both will take into account the impact of deposits and any repurchase or reverse repurchase agreements used by the Fund. The Fund is classified as a Short Term Money Market Fund and is authorised and regulated as a low volatility net asset value money market Fund (as defined in the Prospectus and Supplement) and may, but is not obliged to, seek to maintain a credit rating from Fitch Ratings or any other credit rating agency registered with, and supervised by, ESMA. The Fund will only invest in USD denominated assets. The Fund will not use derivative instruments. The base currency of the Fund is USD.

The fund is actively managed and does not intend to track the benchmark, which is used for performance comparison purposes. The change does not affect how the fund is managed.

I. All data is as of 30/04/2026, unless otherwise stated. YTD—Year to Date, SI—Since Inception.

II. Performance reports from the stated inception date through the reporting date.

III. The fund is not managed against a benchmark index.

Performance reflects the deduction of fees and expenses based upon the lowest fee share class available within the periods provided. Please note that this does not reflect what a new investor will experience, as their returns will be reduced by the deduction of such fees and expenses of the applicable share class. FUND PERFORMANCE DOES NOT TAKE ACCOUNT OF ANY COMMISSION OR COSTS INCURRED BY INVESTORS WHEN SUBSCRIBING FOR OR REDEEMING SHARES. THESE FIGURES REFER TO THE PAST. PAST PERFORMANCE IS NOT A RELIABLE INDICATOR OF FUTURE RESULTS. Where a benchmark is shown, the benchmark shown is provided in the base currency of the fund and therefore may not be a fair representative comparison to the hedged currency share class shown. The difference in the currency exposure and currency fluctuations in an unhedged benchmark may cause an unintended differential in any performance or risk comparison.

* This chart shows how an investment of USD 100 in the Fund on its inception date would have performed.

1. The minimum investment amount for I share class is \$1,000.00 if invested through an intermediary or financial institution. If not invested through an intermediary or financial institution, the minimum investment is \$1,000,000.00. 2. The minimum investment amount for the IA share class is \$1,000.00 if invested directly through NSCC FundServe. If not invested directly through NSCC FundServe, the minimum investment amount is \$500,000.00. 3. Be aware of currency risk. If you are buying this product in a different currency to your local currency you may receive payments in different currency, so the final return you may get will depend on the exchange rates between the two currencies.

KEY RISK

- Your capital is at risk.
- During exceptional market conditions there may be insufficient buyers and sellers to allow the Fund to buy and sell investments, which could affect the Fund's ability to meet investors' redemption requests.
- Losses may occur if an organization through which we buy an asset fails to meet its obligations.
- Fund investments in derivatives are sensitive to changes in the value of the underlying asset on which they are based and their use may result in losses greater than the amount originally invested. Fund investments in overseas assets may lose value due to movements in foreign exchange rates.
- Fund investments in debt securities are sensitive to changes in interest rates and are subject to risks that the issuer will not meet its payment obligations (i.e., default). Low rated (high yield) or equivalent unrated debt securities generally offer a higher return than higher rated debt securities, but are subject to greater risks that the issuer will default.
- Region specific funds have a narrower focus than those which invest broadly across markets and are therefore more risky.

Morningstar Rating™ Date: 30/04/2026. The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods.

The information with respect to UCITS Funds is not intended for U.S. Persons, as defined in Regulation S under the U.S. Securities Act of 1933, or persons in any other jurisdictions where such use or distribution would be contrary to law or local regulation.

The Fund has not been registered under the United States Investment Company Act of 1940, as amended, nor the United States Securities Act of 1933, as amended (1933 Act). No shares may be offered or sold, directly or indirectly in the United States or to any U.S. person unless the securities are registered under the 1933 Act, or an exemption from the registration requirements of the 1933 Act is available. A "U.S. person" is defined as (a) any individual who is a citizen or resident of the United States for federal income tax purposes; (b) a corporation, partnership or other entity created or organized under the laws of or existing in the United States; (c) an estate or trust the income of which is subject to United States federal income tax regardless of whether such income is effectively connected with a United States trade or business. In the United States, this material may be distributed only to a person who is a "distributor," or who is not a "U.S. person," as defined by Regulation S under the U.S. Securities Act of 1933 (as amended).

Target and projected returns are derived from Barings' proprietary model, which contain a number of assumptions and judgements about (including future projections of one month term SOFR rates as projected by forward curves at time of preparation, prepayment of a certain percentage of the overall model portfolio, and market interest rate for the loans that comprise the model portfolio, among others) that Barings believes are reasonable under the circumstances. Generally, our assumptions include construction projects proceeding according to plan, no modeled losses, and no adverse macroeconomic events, among others. However, there can be no assurance that such assumptions will prove to be accurate, and the actual realized returns will depend on, among other factors, future operating results, interest rates, economic and market conditions, and the value of the underlying assets at the time of disposition, any related transaction costs and the timing and manner of disposition, all of which may differ from the assumptions on which targets and projections are based and therefore, the actual results achieved may vary significantly from the targets and projections, and the variations may be material. We would be happy to provide you with the risks related to hypothetical performance information at your request.
